Fast Food Tamara Thompson,2015-04-02 It makes our lives easier, but it also has been proven to be a terribly unhealthy choice. This collection of essays debates fast food. Readers are given both sides to an assertion, allowing them multiple perspectives and a chance to decide for themselves. Essays include what fast food's impact is on our planet, whether marketing should target children, the impact of requiring caloric labels, and if there are benefits to the globalization of fast food.

Fast Food, Fast Track Jennifer Parker Talwar,2009-09-09 Hailing from China, the Caribbean, Latin America, and India, a colorful sea of faces has taken its place behind one of the most ubiquitous American business

institutions – the fast-food counter. They have become a vital link between the growing service sector in our cities' ethnic enclaves and the multi-billion dollar global fast-food industry. For four years, sociologist Jennifer Parker Talwar went behind the counter herself and listened to immigrant fast-food workers in New York City's ethnic communities. They talked about balancing their low-paying jobs and monotonous daily reality with keeping the faith that these very jobs could be the first step on the path to the American Dream. In this original and compelling work of ethnography, Talwar shows that contrary to those arguing that the fast-food industry only represents an increasing homogenization of the American workforce, fast-food chains in immigrant communities must and do adapt to their surroundings.

Making Fast Food Ester Reiter, 1996 Some say the adventurous days of grueling and dangerous scientific exploration are long gone, but Reiter (sociology, Brock U.) undertook a 10-month trek--without pay!--into the uncharted wilds of a Burger King kitchen to bring us first-hand accounts of the strange and marvellous customs of the natives. The illustrations are hilarious. Annotation copyrighted by Book News, Inc., Portland, OR
