**Exercises for Three-Finger Banjo** JACK HATFIELD,2016-02-12 This is a unique collection of drills for all three popular three-finger banjo styles: Scruggs, Single String and Melodic. There are over two hundred sixty exercises ranging from beginner to advanced levels. The physical exercises include finger strengthening, increasing position changing speed, agility and hand-eye coordination. There are detailed aspects of technique not addressed in any otherbook such as pick depth control, controlling the pick angle for the best tone, stabilizing the right hand and improving economy of motion in both hands. Musical exercises include roll exercises, roll combinations, modern (post-Scruggs) rolls, scales and scale patterns in both single-string and melodic styles, chord scales, fretboard positions for the G scale over the entire fretboard and triad and seventh chord formations. Location of root, seventh and minor tonal centers are shown inchord formations and in the fretboard patterns. *Guitar Finger Independence Method* Owen Szorc,2023-12-14 As a guitarist, have you ever dreamed of playing contrapuntal bass lines and melodies? Or maybe you would like to sound more like a pianist, able to perform fluently with independent right and left hands. Playing multiple lines simultaneously can be one of the most physically and mentally demanding challenges posed by the guitar. Using the concept of planted notes—a fretting-hand finger that remains in place while the other fingers play scale-like passages or arpeggios— this book will methodically guide you towards right and left-hand finger independence. Written in standard notation and tablature, this no-nonsense revolutionary method is the first of its kind. Together with 95 online audio recordings, it will help you build finger independence in both hands, approaching that of a pianist! Includes access to online audio.

*Don't Fret Note Map for Lefties* Nicholas Ravagni,2003-12 (Guitar Educational). Southpaws rejoice! Now there's a Don't Fret Note Map made just for you! This innovative product created by 11-year-old Nicholas Ravagni and featured on ABC's World News Tonight makes it easier to learn to play electric or acoustic guitar. Whether you're a beginner just starting out or an experienced player who wants to learn to read music, it will give you the tools you need to learn to locate notes on your guitar. The Don't Fret Note Map is made of cling vinyl no fasteners or glues required and is easy to install. Simply peel the note map off the backing paper and guide one edge between the strings and fretboard, positioning the fret holes in the vinyl over the corresponding frets on the instrument and stretching the device tight across the fretboard as you position the notes under the proper strings. Press one side against the back of the neck, then fold the other side smoothly over the first, and you're ready to play! The note map does not affect tone or playability, and is removable after each use! Shows note names and locations across the fretboard over all 12 frets \* Unique color-coded method makes music reading easy \* Accurately

accelerates finger memory \* Includes music instruction and three simple songs to play \* No previous musical experience needed!
