Early Reviews Easily a new classic Normally I either power read through an entire book or read it over a month as a casual read. This story captured me from the first chapter, I had to force myself to stop halfway through it to digest the concepts and story. Upon restarting it the next day I found that I was even re-reading a couple of chapters from before where I left off just to refresh my memory so I did not miss a single nuance of the story. I loved it!!! From the concept to your descriptive writing, you had me hooked from the beginning. Yes, space-themed novels appeal to me, but I am sure anyone could find something they love about this book. The Plot Thickens I loved the book! The storyline was great. The characters believable. I really liked the characters of Jason, Seattle, and Tinker. Mu-monk was absolutely the best character to me! Can't wait till the next book. I really hope this is the start of a great series.
