Captain Flinn and the Pirate Dinosaurs Giles Andreae,Russell Ayto,2006-05-09 Giles Andreae and Russell Ayto's super-fun Captain Flinn and the Pirate Dinosaurs Flinn is at school looking in the art cupboard for some coloured pens to finish off his dinosaur drawing when he stumbles upon Captain Stubble, a real live Pirate Captain! He tells Flinn that his ship, the Acorn, has been stolen and that he needs Flinn to help him rescue it back. Stubble makes Flinn the captain and they sail away on an old pirate ship...they finally find the Acorn but, to their horror, realise it's been stolen by PIRATE DINOSAURS! Captain Flinn and his crew attack the dinosaurs and, after much fighting, seize control of the ship once more. Flinn and his friends then sail back to the harbour clambering through the boatshed door and back into the art cupboard without the teacher even noticing they've been gone! Giles Andreae is an award-winning children's author and has written both fiction titles and best-selling picture books. His picture book, *The Lion Who Wanted to Dance*, won The Federation of Children's Book Award in the best picture book category in 1998. However, he is probably most famous as the creator of the phenomenally successful Purple Ronnie, Britain's favourite stickman. Giles lives in Notting Hill with his wife and three young children. Russell has illustrated books by prolific children's authors such as Ian Whybrow and Cressida Cowell. *The Witch's Children* was shortlisted for the Greenaway last year and this year *The Witch's Children and the Queen* is on the Smarties shortlist. Russell lives in Penzance, Cornwall. Don't miss the other Captain Flinn picture books - they're all rip-roaring fun! *Captain Flinn and the Pirate Dinosaurs*; *Captain Flinn and the Pirate Dinosaurs: Missing Treasure!*; *Captain Flinn and the Pirate Dinosaurs: Smugglers Bay!*; *Captain Flinn and the Pirate Dinosaurs: The Magic Cutlass* And Giles Andreae's brilliant book with illustrator Korky Paul: *Sir Scallywag and the Golden Underpants*

*Fire-Breathing Dinosaurs? The Hilarious History of Creationist Pseudoscience at Its Silliest* Philip J. Senter,2019-03-14 A dinosaur book like no other, this irreverent chronicle of science and pseudoscience takes the reader on a journey through numerous bizarre ideas about ancient reptiles. Were dragon legends inspired by human encounters with fire-breathing dinosaurs? Do the Bible and other ancient works of literature and art depict dinosaurs? Astoundingly, those and other strange notions have infiltrated grade-school science textbooks. This exposé unmasks the errors that underlie such notions and reveals the science that flattens them, while treating readers to explanations of rocket fuel, nuclear power plants, the electric eel's shocking capabilities, and how the young-Earth creationist position contradicts the very scripture that it strives to uphold. Finding humor in absurdity, the book shows fans of science, religious studies, folklore, and fire that young-Earth creationist dinosaur pseudoscience is deeply comic once one gets to know it properly.
