Music, Sound and Multimedia Jamie Sexton,2007-11-14 This new series aims to explore the area of 'screen music'. Volume topics

will include multimedia music, music and television, Hollywood film music, and the music of Bollywood cinema. Music and other sound effects have been central to a whole host of media forms throughout the twentieth century, either as background, accompaniment, or main driving force. Such interactions will continue to mutate in new directions, with the widespread growth of digital technologies. Despite the expansion of research into the use of music and sound in film, the investigation of sonic interactions with other media forms has been a largely under-researched area. Music, Sound and Multimedia provides a unique study of how music and other sounds play a central part in our understandings and uses of a variety of communications media. It focuses on four areas of sound and music within broader multimedia forms - music videos, video game music, performance and presentation, and production and consumption - and addresses the centrality of such aural concerns within our everyday experiences. Charting historical developments, mapping contemporary patterns, and speculating on future possibilities, this book is essential for courses on sound and media within media and communications studies, cultural studies and popular music studies. Key features* Charts a number of key developments in music and multimedia interactions* Provides both historical overviews and theoretical analyses* Features a number of in-depth case studies of important issues.

'Amazing' to 'Zombie'.

Foo Fighters Mick Wall,2015-10-27 'Foo Fighters: Sonic Highways' is the critically acclaimed and award-winning HBO docuseries directed by Foo Fighters' own Dave Grohl. Assembled with the same passion that went into the musical odyssey that produced both the series and the current Foo Fighters album that shares its title, 'Foo Fighters: Sonic Highways' features bonus footage filmed during each of the eight episodes, plus extended interviews with President Barack Obama, Dan Auerbach of the Black Keys, Chuck D of Public Enemy, Billy Gibbons of ZZ Top, Gibby Haynes of the Butthole Surfers, Joan Jett, Ian Mackaye of Fugazi and Minor Threat, Dolly Parton, Carrie Underwood and Joe Walsh. Described by Grohl as a love letter to the history of American music, 'Foo Fighters: Sonic Highways' followed Grohl and fellow Foo Fighters Taylor Hawkins, Nate Mendel, Chris Shiflett and Pat Smear as they recorded each song in a legendary studio in one of eight iconic American musical capital cities - Chicago, Washington DC, Nashville, Austin, Los Angeles, New Orleans, Seattle and New York - tapping into the deep musical heritage and cultural fabric of each locale: experiencing first-hand how each region shaped these musicians in their formative years, and in turn the impact those people had on the cultural fabric of their hometowns. The resulting eight songs were released as the eighth Foo Fighters album, each song featuring local legends sitting in, with every lyric written in an unprecedented experimental style: Dave held off on putting down words until the last day of each session, so as to be inspired by the experiences, interviews for the HBO series, and other local personalities and experiences that became part of the process. With the DVD release of 'Foo Fighters: Sonic Highways,' the journey is expanded and enriched, with virtually every word and note captured and shared with the viewer. If Grohl's 2013 feature film directorial debut, the Grammy-winning 'Sound City,' was a celebration of the human element in the creation and recording of music, 'Foo Fighters: Sonic Highways' is, in its director's words, a chronicling of a journey to unravel the fabric of our musical identity... not only the making of our most ambitious album... this is Sound City on steroids. Dave's unequalled passion for both the music he creates and the music that inspires its creation once again fuels the type of honest and trusting musician-to-musician exchange that made 'Sound City' a critical and commercial smash-and that makes 'Foo Fighters: Sonic Highways' required viewing for music fans for generations past, present and future.

ReFocus: The Films of Michel Gondry Block Marcelline Block,2020-09-21 The acclaimed French auteur behind the mind-bending modern classic *Eternal Sunshine of the Spotless Mind*, for which he won an Academy Award for Best Original Screenplay, Michel Gondry has directed a number of innovative, ground-breaking films and documentaries, episodes of the acclaimed television show *Kidding* and some of the most influential music videos in the history of the medium. In this collection, a range of international scholars offers a comprehensive study of this significant and influential figure, covering his French and English-language films and videos, and framing Gondry as a transnational auteur whose work provides insight into both French/European and American cinematic and cultural identity. With detailed case studies of films such as *Eternal Sunshine of the Spotless Mind* (2004), *The Science of Sleep* (2006), *Microbe & Gasoline* (2015) and *Mood Indigo* (2013), this collection will appeal to readers interested in the various media in which Gondry has worked, and in contemporary post-modern French and American cinema in general.

Lit Riffs Jonathan Lethem, Tom Perrotta, Lester Bangs, Aimee Bender, Amanda Davis, Neal Pollack, J. T. Leroy, Heidi Julavitz, Touré, 2007-11-01 Following in the footsteps of the late great Lester Bangs -- the most revered and irreverent of rock 'n' roll critics -- twenty-four celebrated writers have penned stories inspired by great songs. Just as Bangs cast new light on a Rod Stewart classic with his story *Maggie May*, about a wholly unexpected connection between an impressionable young man and an aging, alcoholic hooker, the diverse, electrifying stories here use songs as a springboard for a form dubbed the lit riff. Alongside Bangs's classic work, you'll find stories by J.T. LeRoy, who puts a recovering teenage drug abuser in a dentist's chair with nothing but the Foo Fighters's *Everlong* -- blaring through the P.A. -- to fight the pain; Jonathan Lethem, whose

narrator looks back on his lost innocence just as an extramarital affair careens to an end -- this to the tune Speeding Motorcycle as recorded by Yo La Tengo; and Jennifer Belle, who envisions a prequel to Paul Simon's Graceland -- one that takes place at a children's birthday party replete with a real live kangaroo. With original contributions from Tom Perrotta, Nelson George, Amanda Davis, Lisa Tucker, Aimee Bender, Darin Strauss, and many more -- riffing on everyone from Tom Waits and Bruce Springsteen to the White Stripes, Cat Power, and Bob Marley -- this is both an astounding collection of short stories and an extraordinary experiment in words and music. Soundtrack available from Saturation Acres Music & Recording Co.

Disturbing Argument Catherine Palczewski, 2015-01-30 This edited volume represents the best of the scholarship presented at the 18th National Communication Association/American Forensic Association Conference on Argumentation. This biennial conference brings together a lively group of argumentation scholars from a range of disciplinary approaches and a variety of countries. *Disturbing Argument* contains selected works that speak both to the disturbing prevalence of violence in the contemporary world and to the potential of argument itself, to disturb the very relations of power that enable that violence. Scholars' essays analyze a range of argument forms, including body and visual argument, interpersonal and group argument, argument in electoral politics, public argument, argument in social protest, scientific and technical argument, and argument and debate pedagogy. Contributors study argument using a range of methodological approaches, from social scientifically informed studies of interpersonal, group, and political argument to humanistic examinations of argument theory, political discourse, and social protest, to creatively informed considerations of argument practices that truly disturb the boundaries of what we consider argument.
