Ford Nation Rob Ford,Doug Ford,2016-11-22 During his tumultuous term as mayor of Toronto, Rob Ford always stayed on message—saving taxpayers money and putting the brakes on the “gravy train” at city hall. He also returned every phone call, even showing up on people’s doorsteps late at night to help them with their problems. But despite his hard work to cut excessive spending and to address the city’s crumbling infrastructure, the media delighted in showcasing Ford’s most personal struggles instead. Reporters followed him to his car, onto his front lawn, and trailed behind while he trick-or-treated with his children. The city, the country, the entire world watched Rob Ford battle substance abuse, but they rarely saw or heard the real story behind Ford—the family man, the faithful public servant, the devoted husband, father, and brother who put the people of his city above all else. In *Ford Nation*, Doug Ford, Rob’s brother and most trusted advisor, shares the true story of the two brothers and the Ford family: from the early days of their parents’ marriage, as Diane and Doug Sr worked tirelessly to get their company, Deco Labels and Tags, off the ground; to the Etobicoke house filled with the Ford children; to Doug Sr’s entry into provincial politics, with Rob and Doug following in his footsteps, to city hall. *Ford Nation* recounts the triumphs and struggles of Rob and Doug in their own voices—as well as the voices of their mother, Diane, nephew Michael, Rob’s widow, Renata, and daughter, Stephanie—from knocking on doors as new candidates to knocking out opponents in council chamber debates. When Rob was forced to end his campaign to remain mayor of Toronto, Doug didn’t hesitate to jump into the race, and despite his very late start he almost pulled off an upset. Doug shares what life was like for the family during this difficult time, and what it was like in the final hour of Rob’s life, when he succumbed to cancer and became, in his daughter Stephanie’s words, “the mayor of heaven.” Drawing on a number of sources to share Rob’s life in his own words after he became too ill to continue working on the book, *Ford Nation* is the only book that accurately captures the entire account of Rob and Doug Ford and their fight to protect the rights of the little guy.

Chariot on the Mountain Jack Ford,2019-09-24 Based on true events, this astonishing account from Emmy and Peabody Award-winning journalist Jack Ford vividly recreates a treacherous journey toward freedom at a time when the traditions of the Old South still thrived. . . Two decades before the Civil War, middle-class farmer Samuel Maddox lies on his deathbed. Elsewhere in his Virginia home, a young woman named Kitty knows her life is about to change. She is one of the Maddox family’s slaves—and Samuel’s biological daughter. When Samuel’s wife, Mary, inherits her husband’s property, she will own Kitty, too, along with Kitty’s three small children. After Samuel’s death, Mary decides to grant Kitty—an educated woman who has been treated more like family than slave—and her children, their freedom. Helped by Quaker families along the Underground Railroad, Mary travels with them to

Pennsylvania to file emancipation papers. But Kitty is not yet safe. Dragged back to Virginia by a gang of slave catchers led by Samuel's own nephew, Kitty takes a defiant step: charging the younger Maddox with kidnapping and assault. On the surface, the move is hopeless. But Kitty has allies—Mary, and Fanny Withers, a socialite who secures a lawyer. The sensational trial that follows will decide the fate of Kitty and her children—and bond three extraordinary yet very different women together in their quest for justice. “Stunning . . . with a compelling clarity that only someone like Ford can provide.” —Dan Abrams, ABC News Chief Legal Affairs Anchor “Ford does an excellent job portraying the warring factions of the time: those in the South who wanted to preserve their way of life, and those who felt slavery was unjust.” —Publishers Weekly “A tautly plotted, swiftly moving tale.” —Sabra Waldfoegel, author of *Sister of Mine*

Blood Highways Adam L. Penenberg, 2014-01-07 *Blood Highways* is the heart-wrenching account of the biggest product liability case in history: the Ford-Firestone fiasco. At the center of the story are two people: Tab Turner, a charismatic trial attorney from Arkansas, who has made a career out of forcing Ford and other automakers to own up to knowingly trade human lives for profits; and Donna Bailey, a single mother and outdoor enthusiast who fought back from the brink of death to confront those ultimately responsible for her accident. Weaving together harrowing depictions of the accidents and their consequences with the stories of the men and women who labor to police the auto industry and its reckless cost-cutting, *Blood Highways* will transform the way you view corporations, the government, the courts, and the media. Above all, this book shows the price the public pays in wrecked and mangled lives when companies focus more on shaving costs than making quality products.

Making the News, Taking the News Ron Nessen, 2011-09-15 For fifteen years, Ron Nessen enjoyed an extraordinary career covering the major national events of the 1960s and '70s for NBC News, and later serving as White House press secretary to President Gerald R. Ford. *Making the News, Taking the News* remembers the events and personalities that dominated national politics during Nessen's career, bringing a hard-won perspective to those tumultuous times. Through an interweaving of countless incidents and personal anecdotes, Nessen builds a story that captures the true grit of closed-door politics. Off-the-record briefings and strategy sessions, as well as descriptions of experiences with Vietnam troops in the field, provide a vivid illustration of the life of an on-the-road reporter. At the heart of the book is Nessen's White House years, as the veteran reporter gives a valuable eyewitness account of events both behind the scenes and in front of the cameras that shaped and altered America during two critical decades.

American Icon Bryce G. Hoffman, 2012 A riveting, behind-the-scenes account of the near collapse of the Ford Motor Company, which in 2008 was close to bankruptcy, and CEO Alan Mulally's hard-fought effort and bold plan—including his decision not to take federal bailout money—to bring Ford back from the brink.

Franklin Ford Collection Dominique Trudel, Juliette De Maeyer, 2023-07-15 The American journalist Franklin Ford

(1849–1918) is remembered for his ambitious (and stillborn) Thought News periodical, hatched with philosopher John Dewey. The Franklin Ford Collection, curated and introduced by Dominique Trudel and Juliette De Maeyer, takes in the full shambolic spread of Ford's thought, across news, politics, education, finance, and society at large. The collection includes nineteen documents—letters, leaflets, editorials, and treatises—with critical annotations from Trudel and De Maeyer. The works, many unpublished or rarely circulated, illustrate the core themes that animated Ford's career, including his sweeping program of press reform and his thoughts on the interconnected flows of money, transportation, and communication.

Revangelical Lance Ford, 2014 When you hear the word evangelical, do you think good news? That's what the word means, and it's what we are meant to be. Yet the surrounding culture often views us as exactly the opposite. Calling yourself an evangelical too often means you are seen through a negative stereotype; people are apprehensive when they hear that an evangelical family has moved into the neighborhood. But is this the way it has to be? What would it look like if evangelical Christians were joyfully living out the gospel in such a way that the culture had no choice but to recognize us as Good News people? Revangelical is a call to realign your heart with the things that most concerned Jesus--a bold message to get the Good News of the gospel of Jesus back into our heads, hearts, mouths, and feet. Full of stories of evangelicals who are living out the Good News and changing the world, Revangelical will inspire and equip us to relearn the heart of the gospel and to become the people God has called us to be.

The People's Tycoon Steven Watts, 2009-03-04 How a Michigan farm boy became the richest man in America is a classic, almost mythic tale, but never before has Henry Ford's outsized genius been brought to life so vividly as it is in this engaging and superbly researched biography. The real Henry Ford was a tangle of contradictions. He set off the consumer revolution by producing a car affordable to the masses, all the while lamenting the moral toll exacted by consumerism. He believed in giving his workers a living wage, though he was entirely opposed to union labor. He had a warm and loving relationship with his wife, but sired a son with another woman. A rabid anti-Semite, he nonetheless embraced African American workers in the era of Jim Crow. Uncovering the man behind the myth, situating his achievements and their attendant controversies firmly within the context of early twentieth-century America, Watts has given us a comprehensive, illuminating, and fascinating biography of one of America's first mass-culture celebrities.

Time For Kids: Henry Ford Editors Of Time For Kids, Dina El Nabli, 2008-05 Discusses the life and accomplishments of Henry Ford, a man who changed the American way of life in the 1900s by inventing the Model T and founding the Ford Motor Company.

Mustang by Design James Dinsmore, James Halderman, 2018-09-14 p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial} Without question, the 1964-1/2 Mustang is one of the most important and influential cars in automotive history. When Ford launched the Mustang, it created an automotive revolution. Award-winning designer and stylist Gale Halderman was at the epicenter of the action at Ford, and, in fact, his initial design sketch formed the

basis of the new Mustang. He reveals his involvement in the project as well as telling the entire story of the design and development of the Mustang. Authors and Mustang enthusiasts James Dinsmore and James Halderman go beyond the front doors at Ford into the design center, testing grounds, and Ford facilities to get the real, unvarnished story. Gale Halderman offers a unique behind-the-scenes perspective and firsthand account of the inception, design, development, and production of the original Mustang. With stinging losses from the Edsel fresh in minds at Ford, the Mustang project was an uphill battle from day one. Lee Iacocca and his assembled team had a herculean task to convince Henry Ford II to take a risk on a new concept of automobile, but with the help of Hal Sperlich's detailed market research, the project received the green light. Henry Ford II made it clear that jobs were on the line, including Iacocca's, if it failed. The process of taking a car from sketch to clay model to prototype to preproduction and finally finished model is retraced in insightful detail. During the process, many fascinating experimental cars, such as the Mustang I two-seater, Mustang II prototype, Mustang Allegro, and Shorty, were built. But eventually the Mustang, based on the existing Ford Falcon, received the nod for final production. In a gala event, it was unveiled at the 1964 World's Fair in New York. The Mustang received public accolades and critical acclaim, and soon it became a runaway hit. After the initial success, Ford designers and Gale Halderman designed and developed the first fastback Mustangs to compliment the coupes. The classic Mustang muscle cars to follow, including the GT, Mach 1, and others, are profiled as well. The Mustang changed automotive history and ushered in the pony car era as a nimble, powerful, and elegantly styled sports coupe. But it could so easily have stumbled and wound up on the scrap pile of failed new projects. This is the remarkable and dramatic story of how the Mustang came to life, the demanding design and development process, and, ultimately, the triumph of the iconic American car.

American Icon Bryce G. Hoffman, 2013-02-05 The inside story of the epic turnaround of Ford Motor Company under the leadership of CEO Alan Mulally. At the end of 2008, Ford Motor Company was just months away from running out of cash. With the auto industry careening toward ruin, Congress offered all three Detroit automakers a bailout. General Motors and Chrysler grabbed the taxpayer lifeline, but Ford decided to save itself. Under the leadership of charismatic CEO Alan Mulally, Ford had already put together a bold plan to unify its divided global operations, transform its lackluster product lineup, and overcome a dysfunctional culture of infighting, backstabbing, and excuses. It was an extraordinary risk, but it was the only way the Ford family—America's last great industrial dynasty—could hold on to their company. Mulally and his team pulled off one of the greatest comebacks in business history. As the rest of Detroit collapsed, Ford went from the brink of bankruptcy to being the most profitable automaker in the world. American Icon is the compelling, behind-the-scenes account of that epic turnaround. In one of the great management narratives of our time, Hoffman puts the reader inside the boardroom as Mulally uses his celebrated Business Plan Review meetings to drive change and force Ford to deal with the painful realities of the American auto industry. Hoffman was granted unprecedented access to Ford's top executives and top-secret company documents. He spent countless hours with Alan Mulally, Bill Ford, the Ford family, former executives, labor

leaders, and company directors. In the bestselling tradition of *Too Big to Fail* and *The Big Short*, *American Icon* is narrative nonfiction at its vivid and colorful best.

Henry Ford's Plan for the American Suburb Heather Barrow, 2018-10-29 Around Detroit, suburbanization was led by Henry Ford, who not only located a massive factory over the city's border in Dearborn, but also was the first industrialist to make the automobile a mass consumer item. So, suburbanization in the 1920s was spurred simultaneously by the migration of the automobile industry and the mobility of automobile users. A welfare capitalist, Ford was a leader on many fronts--he raised wages, increased leisure time, and transformed workers into consumers, and he was the most effective at making suburbs an intrinsic part of American life. The decade was dominated by this new political economy--also known as Fordism--Linking mass production and consumption. The rise of Dearborn demonstrated that Fordism was connected to mass suburbanization as well. Ultimately, Dearborn proved to be a model that was repeated throughout the nation, as people of all classes relocated to suburbs, shifting away from central cities. Mass suburbanization was a national phenomenon. Yet the example of Detroit is an important baseline since the trend was more discernable there than elsewhere. Suburbanization, however, was never a simple matter of outlying communities growing in parallel with cities. Instead, resources were diverted from central cities as they were transferred to the suburbs. The example of the Detroit metropolis asks whether the mass suburbanization which originated there represented the American dream, and if so, by whom and at what cost. This book will appeal to those interested in cities and suburbs, American studies, technology and society, political economy, working-class culture, welfare state systems, transportation, race relations, and business management--

Dangerous Love Chad Ford, 2020-06-23 "Chad Ford reminds us that humanity lies within all of us, and although conflict is everywhere in today's world, we have the tools we need to overcome obstacles and to thrive. This is a fantastic, timely book that I highly recommend. -Steve Kerr, Head Coach, Golden State Warriors Knowing how to transform conflict is critical in both our personal and professional lives. Yet, by and large, we are terrible at it. The reason, says longtime mediator Chad Ford, is fear. When conflict comes, our instincts are to run or fight. To transform conflict, Ford says we need to turn toward the people we are in conflict with, put down our physical and emotional weapons, and really love them with the kind of love that leads us to treat others as fellow human beings, not as objects in our way. We have to open ourselves up with no guarantee that anyone on the other side will do the same. While this can feel even more dangerous than conflict itself, it allows us to see the humanity of others so clearly that their needs and desires matter to us as much as our own. Ford shows dangerous love in action through examples ranging from his work in the Middle East to a deeply moving story about reconciling with his father. He explains why we disconnect from people at the very time we need to be most connected and the predictable patterns of justification and escalation that ensue. Most importantly, he gives us a path to practice dangerous love in the conflicts that matter most to us.
