*Go the F**k to Sleep* Adam Mansbach,2011-06-14 The #1 New York Times Bestseller: “A hilarious take on that age-old problem: getting the beloved child to go to sleep” (NPR). “Hell no, you can’t go to the bathroom. You know where you can go? The f**k to sleep.” Go the Fuck to Sleep is a book for parents who live in the real world, where a few snoozing kitties and cutesy rhymes don’t always send a toddler sailing blissfully off to dreamland. Profane, affectionate, and radically honest, it captures the familiar—and unspoken—tribulations of putting your little angel down for the night. Read by a host of celebrities, from Samuel L. Jackson to Jennifer Garner, this subversively funny bestselling storybook will not actually put your kids to sleep, but it will leave you laughing so hard you won’t care.

This pioneering book will stimulate interest in examining a variety of both social and physical engineering projects at local, regional, and global scales and from disciplinary and trans-disciplinary perspectives.

Events and Urban Regeneration Andrew Smith,2012-03-15 In recent years, major sporting and cultural events such as the Olympic Games have emerged as significant elements of public policy, particularly in efforts to achieve urban regeneration. As well as opportunities arising from new venues, these events are viewed as a way of stimulating investment, gaining civic engagement and publicizing progress to assist the urban regeneration process more generally. However, the pursuit of regeneration involving events is a practice that is poorly understood, controversial and risky. Events and Urban Regeneration is the first book dedicated to the use of events in regeneration. It explores the relationship between events and regeneration by analyzing a range of cities and a range of sporting and cultural events projects. It considers various theoretical perspectives to provide insight into why major events are important to contemporary cities. It examines the different ways that events can assist regeneration, as well as problems and issues associated with this unconventional form of public policy. It identifies key issues faced by those tasked with using events to assist regeneration and suggests how practices could be improved in the future. The book adopts a multi-disciplinary perspective, drawing together ideas from the geography, urban planning and tourism literatures, as well as from the emerging events and regeneration fields. It illustrates arguments with a range of international case studies placed within and at the end of chapters to show positive outcomes that have been achieved and examples of high profile failures. This timely book is essential reading for students and practitioners who are interested in events, urban planning, urban geography and tourism.

Can You Forgive Her? Anthony Trollope,2012-03-08 'She loved him much, and admired him even more than she loved him...Would that he had some faults!' Alice Vavasor is torn between a risky marriage with her ambitious cousin George and the safer prospect of a union with the formidably correct John Grey. Her indecision is reflected in the dilemmas of her friend Lady Glencora, confined in the proprieties of her life with Plantagenet Palliser but tempted to escape with her penniless lover Burgo Fitzgerald, and of her aunt, the irreverent widow Mrs Greenow, who must choose between a solid farmer and an untrustworthy soldier as her next husband. Each woman finds her choice bound up with the cold realities of money, and the tension between public expectation and private inclination. Can You Forgive Her? is the first of Trollope's six Palliser novels, and its focus on the exercise of power, whether in the

masculine world of parliament and the professions, or within the domesticities of friendship, courtship, and marriage, signals a new breadth and diversity of interest in his fiction. Good Strategy Bad Strategy Richard Rumelt,2011-07-19 Good Strategy/Bad Strategy clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action-oriented strategy for the real world. Developing and implementing a strategy is the central task of a leader. A good strategy is a specific and coherent response to—and approach for—overcoming the obstacles to progress. A good strategy works by harnessing and applying power where it will have the greatest effect. Yet, Rumelt shows that there has been a growing and unfortunate tendency to equate Mom-and-apple-pie values, fluffy packages of buzzwords, motivational slogans, and financial goals with “strategy.” In Good Strategy/Bad Strategy, he debunks these elements of “bad strategy” and awakens an understanding of the power of a “good strategy.” He introduces nine sources of power—ranging from using leverage to effectively focusing on growth—that are eye-opening yet pragmatic tools that can easily be put to work on Monday morning, and uses fascinating examples from business, nonprofit, and military affairs to bring its original and pragmatic ideas to life. The detailed examples range from Apple to General Motors, from the two Iraq wars to Afghanistan, from a small local market to Wal-Mart, from Nvidia to Silicon Graphics, from the Getty Trust to the Los Angeles Unified School District, from Cisco Systems to Paccar, and from Global Crossing to the 2007–08 financial crisis. Reflecting an astonishing grasp and integration of economics, finance, technology, history, and the brilliance and foibles of the human character, Good Strategy/Bad Strategy stems from Rumelt’s decades of digging beyond the superficial to address hard questions with honesty and integrity.

Snowflakes Fall Patricia Maclachlan,2013-10-29 In Snowflakes Fall, Newbery Medalist Patricia MacLachlan and award-winning artist Steven Kellogg portray life’s natural cycle: its beauty, its joy, and its sorrow. Together, the words and pictures offer the promise of renewal that can be found in our lives—snowflakes fall, and return again as raindrops so that flowers can grow. MacLachlan and Kellogg, who are longtime friends, were moved to collaborate on a message of hope for children and their families following the tragic events in Sandy Hook, Connecticut, on December 14, 2012. Kellogg lived in Sandy Hook for thirty-five years—he raised his family there and was an active member of the community. With Snowflakes Fall, they have created a truly inspiring picture book that is both a celebration of life and a tribute to the qualities that make each individual unique. In honor of the community of Sandy Hook and Newtown, Random House, the publisher of Snowflakes Fall, has made a donation to the Sandy Hook School Support Fund. Random House is also donating 25,000 new books to the national literacy organization First Book in the community’s honor and in support of children everywhere.
