

Frankenstein

Kevin Kelly

Frankenstein Mary Shelley, 2013-12-03 The story of Victor Frankenstein's monstrous creation and the havoc it caused has enthralled generations of readers and inspired countless writers of horror and suspense. With the author's own 1831 introduction.

Frankenstein Mary Wollstonecraft Shelley, 2006-09 A graphic adaptation of Mary Shelley's classic tale of Frankenstein.

Frankenstein, second edition Mary Shelley, 1999-09-13 Mary Shelley's deceptively simple story of Victor Frankenstein and the creature he brings to life, first published in 1818, is now more widely read—and more widely discussed by scholars—than any other work of the Romantic period. From the creature's creation to his wild lament over the dead body of his creator in the Arctic wastes, the story retains its narrative hold on the reader even as it spins off ideas in rich profusion. Macdonald and Scherf's edition of Frankenstein has been widely acclaimed as an outstanding edition of the novel—for the general reader and the student as much as for the scholar. The editors use as their copy-text the original 1818 version, and detail in an appendix all of Shelley's later revisions. They also include a range of contemporary documents that shed light on the historical context from which this unique masterpiece

emerged. Macdonald and Scherf have now revised and updated their introduction, notes and bibliography, and have added new documents (including a review of Frankenstein by Percy Shelley).

Frankenstein Mary Wollstonecraft Shelley, Mary

Shelley, 2007-09-25 A monster assembled by a scientist from parts of dead bodies develops a mind of his own as he learns to loathe himself and hate his creator.

Frankenstein Mary Shelley, 2007-07 Victor Frankenstein must stop his creation before something bad happens.

Frankenstein Sam Ita, 2010 With its riveting blend of horror and science fiction, Frankenstein has gripped the public's imagination since its publication in 1818. Now Sam Ita, the genius of paper engineering and art, transforms Mary Shelley's tragic masterpiece into an unforgettable, stunning, and accessible pop-up book. For the third time, Ita—who created the magnificent Moby Dick and 20,000 Leagues Under the Sea pop-ups—successfully captures the rich, dark drama of his source through amazing images. The entire story unfolds almost cinematically, in a potent mix of graphic novel panels and spectacular three-dimensional designs. The gothic building where Dr. Frankenstein carries out his sinister experiment rises high on the page a scaffold, complete with a rope noose,

emerges threateningly; and the misunderstood, rageful monster looms large and menacing, ready to destroy all in his path. This is pure visual magic, and a wonderful way to experience a classic.

Following Frankenstein Catherine Bruton, 2021-10-07 A brilliantly-conceived and hugely imaginative 'sequel' to Mary Shelley's masterpiece, *Following Frankenstein* is a hugely exciting and beautifully-written historical adventure, perfect for 9-12 year olds. Sometimes I was jealous of the monster of Frankenstein. I grew up believing my father cared more for him than he did for me. And was I wrong? Maggie Walton's father has dedicated his life to a single pursuit: hunting down the monster created by Victor Frankenstein. It has cost Maggie and her family everything - and now her father is staking everything on one last voyage to the Arctic, with Maggie secretly in tow, where he hopes to find the monster at last. But there they make a shocking discovery: Frankenstein's monster has a son... A breath-taking, epic adventure, spanning the icy wastes of the Arctic Tundra to the vaudeville circus of New York, from the award-winning author of *No Ballet Shoes in Syria* and *Another Twist in the Tale*.

Frankenstein Mary Wollstonecraft Shelley, 2000 Written when Mary Shelley was only nineteen-years old, this tale of a young

scientist's desire to create life still resonates. Victor Frankenstein's monster is stitched together from the stolen limbs of the dead, and the result is a grotesque being who, rejected by his maker, sets out on a journey to seek his revenge. Shelley confronts the limitations of science, the nature of human cruelty and the pathway to forgiveness with language and imagery.

The Endurance of Frankenstein George Levine, U. C.

Knoepfelmacher, 1982-05-19 MARY SHELLEY's Frankenstein; or, The Modern Prometheus grew out of a parlor game and a nightmare vision. The story of the book's origin is a famous one, first told in the introduction Mary Shelley wrote for the 1831 edition of the novel. The two Shelleys, Byron, Mary's stepsister Claire Clairmont, and John William Polidori (Byron's physician) spent a wet, ungenial summer in the Swiss Alps. Byron suggested that each write a ghost story. If one is to trust Mary Shelley's account (and James Rieger has shown the untrustworthiness of its chronology and particulars), only she and poor Polidori took the contest seriously. The two illustrious poets, according to her, annoyed by the platitude of prose, speedily relinquished their uncongenial task. Polidori, too, is made to seem careless, unable to handle his story of a skull-headed lady. Though Mary Shelley is

just as deprecating when she speaks of her own tiresome unlucky ghost story, she also suggests that its sources went deeper. Her truant muse became active as soon as she fastened on the idea of making only a transcript of the grim terrors of my waking dream: 'I have found it! What terrified me will terrify others.' The twelve essays in this collection attest to the endurance of Mary Shelley's waking dream. Appropriately, though less romantically, this book also grew out of a playful conversation at a party. When several of the contributors to this book discovered that they were all closet aficionados of Mary Shelley's novel, they decided that a book might be written in which each contributor-contestant might try to account for the persistent hold that Frankenstein continues to exercise on the popular imagination. Within a few months, two films--Warhol's Frankenstein and Mel Brooks's Young Frankenstein--and the Hall-Landau and Isherwood-Bachardy television versions of the novel appeared to remind us of our blunted purpose. These manifestations were an auspicious sign and resulted in the book *Endurance of Frankenstein*.

Was Dr. Frankenstein Real? Therese M. Shea, 2017-12-15 The Frankenstein monster is an icon of horror. Even the youngest trick-or-treaters recognize Frankenstein's green-skinned costume.

However, many people are surprised to know this monster's name is not actually Frankenstein. That's the name of its creator, Dr. Victor Frankenstein, from the nineteenth-century novel written by Mary Shelley. This fictitious doctor, one of the first mad scientists, was based on real-life researchers and their experiments. This compelling volume examines the work of Shelley and its possible inspirations in the world of science. The high-interest topic, thought-provoking sidebars, fun fact boxes, and historical images will attract all levels of readers.

Mary Shelley's Frankenstein Kevin Kelly, 1996 REA's MAXnotes for Mary Shelley's Frankenstein MAXnotes offer a fresh look at masterpieces of literature, presented in a lively and interesting fashion. Written by literary experts who currently teach the subject, MAXnotes will enhance your understanding and enjoyment of the work. MAXnotes are designed to stimulate independent thought about the literary work by raising various issues and thought-provoking ideas and questions. MAXnotes cover the essentials of what one should know about each work, including an overall summary, character lists, an explanation and discussion of the plot, the work's historical context, illustrations to convey the mood of the work, and a biography of the author. Each

chapter is individually summarized and analyzed, and has study questions and answers.

CliffsComplete Frankenstein Anca Munteanu, Mary

Shelley, 2004-03-15 In the CliffsComplete guides, the novel's complete text and a glossary appear side-by-side with coordinating numbered lines to help you understand unusual words and phrasing. You'll also find all the commentary and resources of a standard CliffsNotes for Literature. CliffsComplete Frankenstein is certainly Mary Shelley's greatest literary achievement and one of the most complex literary works of all time. Unlike most Romantic writers, Mary Shelley seems interested in the dark, self-destructive side of human reality and the human soul. Discover how Dr. Frankenstein's creation impacts everyone he meets – and save yourself valuable studying time – all at once. Enhance your reading of Frankenstein with these additional features: A summary and insightful commentary for each chapter Bibliography and historical background on the author, Mary Shelley A look at the historical context and structure of the novel Discussions on the novel's symbols and themes A character map that graphically illustrates the relationships among the characters Review questions, a quiz, discussion topics (essay questions), activity

ideas A ResourceCenter full of books, articles, films, and Internet sites Streamline your literature study with all-in-one help from CliffsComplete guides!

Frankenstein: The Man and the Monster Arthur

Belefant,2019-10-22 You've read the novel Frankenstein by Mary Shelley. You thought it was a great sci-fi novel. But what if it wasn't? What if it was an even better psychological thriller instead? Arthur Belefant did a deep and detailed analysis of the first (1818) and revised (1831) editions of Frankenstein, paying special attention to Mary Shelley's words, and discovered that Mary Shelley intended her readers to know the Creature did not exist and that instead Victor Frankenstein committed the murders. Read Frankenstein, The Man and the Monster to find out how Belefant discovered that Shelley's novel is actually a disturbing psychological story based on humanity's most forbidden passions.

The Cambridge Companion to 'Frankenstein' Andrew

Smith,2016-08-25 Sixteen original essays by leading scholars on Mary Shelley's novel provide an introduction to Frankenstein and its various critical contexts.

Frankenstein Mary W. Shelley,2005-12 Originally written as a response to a challenge from Lord Byron? Frankenstein still haunts

our minds with images of the dead brought back to hideous life. Mary Shelley's nineteenth-century masterpiece begins with a fateful rescue in the Arctic and slowly evolves into a gripping story of horror—a contest of wills between Victor Frankenstein and the monster he creates. Wandering through Europe, the confused creature searches for a father figure in the tortured scientist who stitched him together with body parts stolen from the grave. Themes of revenge, the philosophical limits of science, and forbidden knowledge are deeply explored in the greatest Gothic novel ever written. This Prestwick House Literary Touchstone Edition includes a glossary and reader's notes to help the modern reader contend with Shelley's complex vocabulary and references.

Understanding Frankenstein Don Nardo, 2003 Discusses Mary Shelley's sources of ideas for the compelling plot, well-developed characters, and universal themes of Frankenstein which have led to its enduring popularity.

Frankenstein (Second International Student Edition) (Norton Critical Editions) Mary Shelley, 2016-04-04 The best-selling student edition on the market, now available in a Second Edition. Almost two centuries after its publication, Frankenstein remains an indisputably classic text and Mary Shelley's finest work. This

extensively revised Norton Critical Edition includes new texts and illustrative materials that convey the enduring global conversation about *Frankenstein* and its author. The text is that of the 1818 first edition, published in three volumes by Lackington, Hughes, Harding, Mavor, and Jones. It is accompanied by an expansive new preface, explanatory annotations, a map of Geneva and its environs, and seven illustrations, five of them new to the Second Edition. Context is provided in three supporting sections:

“Circumstance, Influence, Composition, Revision,” “Reception, Impact, Adaptation,” and “Sources, Influences, Analogues.”

Among the Second Edition’s new inclusions are historical-cultural studies by Susan Tyler Hitchcock, William St. Clair, and Elizabeth Young; Chris Baldrick on the novel’s reception; and David Pirie on the novel’s many film adaptations. Related excerpts from the Bible and from John Milton’s *Paradise Lost* are now included, as is Charles Lamb’s poem “The Old Familiar Faces.” “Criticism” collects sixteen major interpretations of *Frankenstein*, nine of them new to the Second Edition. The new contributors are Peter Brooks, Bette London, Garrett Stewart, James A. W. Heffernan, Patrick Brantlinger, Jonathan Bate, Anne Mellor, Jane Goodall, and Christa Knellwolf. A Chronology and Selected Bibliography are also

included.

Frankenstein Susan Tyler Hitchcock, 2007-10-30 This lively history of the Frankenstein myth, illuminated by dozens of pictures and illustrations, is told with skill and humor. Hitchcock uses film, literature, history, science, and even punk music to help readers understand the meaning of this monster made by man.

Frankenstein (Deluxe Edition) Mary Shelley, 2023-10-10 For years, Dr. Victor Frankenstein labors to create a new race of intelligent beings. But when he succeeds, Dr. Frankenstein is horrified by the ugly patchwork being he has brought to life, and he abandons his creation—setting off a chain of events that will lead to murder, despair, and bitter loneliness. This is a deluxe, lavish edition that transformed the stormy ethos of the Gothic novel into the foundation of modern science fiction.

Frankenstein, Or, The Modern Prometheus Mary Wollstonecraft Shelley, Marilyn Butler, 1998 A young Swiss scientist's discovery of the cause of generation leads to the creation of a hideous monster

Frankenstein Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the energy of words has be more evident than ever. They have the ability to inspire, provoke, and ignite change. Such could be the essence of the book **Frankenstein**, a literary masterpiece that delves deep in to the significance of words and their affect our lives. Compiled by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book is key themes, examine its writing style, and analyze its overall impact on readers.
