Giants Peter Phillips, 2018-08-28 A look at the top 300 most powerful players in world capitalism, who are at the controls of our economic future. Who holds the purse strings to the majority of the world's wealth? There is a new global elite at the controls of our economic future, and here former Project Censored director and media monitoring sociologist Peter Phillips unveils for the general reader just who these players are. The book includes such power players as Mark Zuckerberg, Bill Gates, Jeff Bezos, Jamie Dimon, and Warren Buffett. As the number of men with as much wealth as half the world fell from sixty-two to just eight between January 2016 and January 2017, according to Oxfam International, fewer than 200 super-connected asset managers at only 17 asset management firms—each with well over a trillion dollars in assets under management—now represent the financial core of the world's transnational capitalist class. Members of the global power elite are the management—the facilitators—of world capitalism, the firewall protecting the capital investment, growth, and debt collection that keeps the status quo from changing. Each chapter in *Giants* identifies by name the members of this international club of multi-millionaires, their 17 global financial companies—and including NGOs such as the Group of Thirty and the Trilateral Commission—and their transnational military protectors, so the reader, for the first time anywhere, can identify who constitutes this network of influence, where the wealth is concentrated, how it suppresses social movements, and how it can be redistributed for maximum systemic change.

Steel Will Shilo Harris, Robin Overby Cox, 2014-09-02 On February 19, 2007, SSG Shilo Harris was patrolling an infamous southern Iraqi roadway when his Humvee was

struck by an IED. Moments later, three members of his crew were dead and Shilo had sustained severe burns over 35 percent of his body, lost his ears and the skin off his face, and lost much of the use of his badly mangled fingers. This fiery moment was just the beginning of an arduous road laced with pain, emotional anguish, and much soul-searching. For forty-eight days Shilo lay trapped in a medically induced coma as his wife, unable to ease his suffering, had to come to grips with a man utterly changed. This is the story of a young boy raised in a small Texas town under the heavy yoke of a father struggling with the personal aftermath of his service in Vietnam. This is the story of the first human being to participate in extracellular stem cell regeneration to regrow lost body parts. This is the story of the survivor not only of an explosion but of more than sixty surgeries to restore both form and function to his broken body. This is the story of the wife who stood by his side, made hard decisions, and continues to support her husband through his struggles with PTSD. This is the story of a God who reshapes us into the people he wants us to be. And in that way, this is the story of all of us. Anyone whose life has been touched by tragedy and loss, especially military families dealing with PTSD, TBI, amputations, and other realities of wartime service, will find strength, encouragement, and inspiration in this moving memoir.

Oral History of Germans Taken To the USSR with Their Obsolete DFS 346-Part 1 David Myra PhD,2013-09-23 This is an oral history of several dozens of German aviation designers and engineers that were taken to the Soviet Union in October 1946 along with their DFS 346. The information contained here-in has never been made public until now. Dr Myhra traveled to all the places mentioned and with the assistance of language interpititors Margarita Reck of Salem-Neufrach, West Germany and Gerhard Hopf of Naples, FL, was able to communicate with the German-speaking engineers and designeers. These are the unedited transcriptions of the actual conversations. Very interesting material! Look for future volumes of this rare and informative documentation. Enjoy!

Dragon Fire Robert Reynolds,2017-01-04 A temporary truce has been agreed upon between South Vietnamese and Communist aggressor forces for Tet, the Vietnamese New Year. Similar initiatives have been tried in the past with little success. During Tet 1968, the Communists initiated attacks along the entire length of the country, including direct assaults on major cities and military installations, small outposts and the American embassy, in Saigon. With pathos and humor, Dragon Fire relates the exciting tale of a U.S. Navy security force tasked with safeguarding a cargo-offloading ramp near the only bridge leading into the city of Da Nang.

Blue Marlin Magic Steve Campbell,2017-04 They were the favorite game fish of Ernest Hemingway and Zane Grey. They can grow to greater than 1,000 pounds. They can reach burst speeds of 70 miles an hour. Their fighting

stamina and migratory habits are legendary. But blue marlin are not easy to catch. Even experienced anglers typically spend weeks or months - not to mention small fortunes - trying to connect with a precious few of these elusive ocean prizes ... Steve Campbell has answered practically every question the avid bluewater angler could possibly think to ask him-who, why, where, when and then some ... Steve is a highly seasoned and skilled sport-fishing captain from New Zealand. He has spent a lifetime fishing throughout the South Pacific ... With more than 1,000 stunning color photographs and original illustrations ... Far more than an elaborate fishing book, [this] is also a visual feast of the unspoiled ocean environment as seen through the lenses of talented photographers Doug Perrine of Hawaii, Jon Schwartz of California, and Kim Westerkov of New Zealand. Internationally award-winning marine photographer Perrine spent one month in Tonga aboard (and overboard) Campbell's boat, Reel Addiction, to capture vivid underwater images of blue marlin and other beautiful creatures - whales to sharks to seabirds - of the South Pacific--Publisher's description.

In the Wake of Heroes Tom Cunliffe,2015-09-10 Tom Cunliffe is one of the biggest names in the sailing world - an internationally renowned journalist and speaker, and the go-to guru when the BBC wants a presenter for a new TV series about maritime interests. For the last ten years he has edited the 'Great Seamanship' column of Yachting World magazine. Each column features an extract from a classic yachting book that covers an aspect of great seamanship. Tom introduces each extract by giving insightful background on the writer, their book and what makes their experience so worth reading about - and learning from. This book comprises Tom's 40 favourite

extracts, and covers the entire scope of yachting concerns, from small-boat handling to yacht racing to long-distance cruising and exploring. Introduced in Tom's quintessential lively, engaging fashion, and illustrated with photos both from the original books and Tom's own archives, this beautifully packaged book contains a wealth of yachting wisdom and is a collection to be treasured.
