Women and TV Culture in Pakistan Munira Cheema,2018-07-30 The television broadcasting culture of Pakistan was changed dramatically in 2002. The President, General Pervez Musharraf, introduced a policy of liberalisation that enabled controversial issues such as honour killings, adultery, stoning to death, domestic violence, marriage after divorce and homosexuality to be increasingly depicted on screen. Women and TV Culture in Pakistan is the first in-depth analysis of this change in television content. Munira Cheema focuses on how `gender issues' are dealt with on TV and examines the impact this has on female viewers. In Pakistan, television is often the only way in which women can access the public sphere (except through male guardians) and this book evaluates how TV content allows them to navigate their intersecting identities as Muslims, women and Pakistanis. At a time when religious conservatism is on the rise in the country, this book investigates why producers choose to focus on gender-based issues and the extent to which religion dictates social behaviour and broadcasting choices. Based on interviews with women viewers in Karachi as well as industry professionals including writers, directors and ratings experts, the research is a much-needed and original contribution to global television studies and gender studies.

The Presence of the Prophet in Early Modern and Contemporary Islam Rachida Chih,Stefan Reichmuth,David Jordan,2021-11-15 This second collective volume of the series The Presence of the Prophet explores the growing importance of the figure of the Prophet Muhammad for questions of authority and power in early modern and modern times. The authors provide a rich collection of case studies on how Muhammad's material, spiritual, and genealogical heritage has been claimed for the foundation of Muslim empires, revolutionary movements, the formation of modern nation states and ideologies, as well as for communal mobilization and social reform. This novel comparative, and diachronic study, which is unique for its wide coverage of regional cases and perspectives, reveals diverse political representations of the Prophet in an increasingly globalised struggle over the control of his image between secularization and sacralization. Contributors Gianfranco Bria, Rachida Chih, Christoph Günther, Gottfried Hagen, Jan-Peter Hartung, David Jordan, Soraya Khodamoradi, Jamal Malik, Catherine Mayeur-Jaouen, Alix Philippon, Martin Riexinger, Stefan Reichmuth, Dilek Sarmis, Renaud Soler, Jaafar Ben El Haj Soulami, Florian Zemmin.

The Global News Challenge Anne Geniets,2013-12-13 The Global News Challenge tackles one of the timeliest topics in mass communication today—the challenges facing international broadcasters with universal branding strategies in developing countries. In these heavily government-controlled media environments with a scarcity of reliable information, international news providers traditionally had an influential position. With the ongoing media liberalization, however, commercial domestic providers have gained in strength to become strong competitors. Additionally, in a number of countries, pan-Arab broadcasting enterprises have widened their reach, contributing to the growing competition for traditional international providers such as the BBC or France 24. This book employs a global perspective to explore the subject across the whole population and different media platforms in select developing markets of Africa and South Asia. It is unique in providing a theoretical framework by which to analyze demand and usage of and trust in news from international

broadcasters across the whole population, not just opinion leaders. It outlines the strategic options for international broadcasters in these evolving market contexts.

Country reports on human rights practices Senate Committee on Foreign Relations and House Committee on Foreign Affairs,2013-02-20 The idea of human rights begins with a fundamental commitment to the dignity that is the birthright of every man, woman and child. Progress in advancing human rights begins with the facts. And for the last 34 years, the United States has produced the Country Reports on Human Rights Practices, providing the most comprehensive record available of the condition of human rights around the world. These reports are an essential tool—for activists who courageously struggle to protect rights in communities around the world; for journalists and scholars who document rights violations and who report on the work of those who champion the vulnerable; and for governments, including our own, as they work to craft strategies to encourage protection of the human rights of more individuals in more places. Joint Committee Print. S. Prt. 112-40.

It studies themes such as Pakistan’s relationship with India, the legacy of Jinnah, gender and fundamentalism, urbanisation, unrest that have plagued the northern areas. It further looks at the nation after the capture of Osama bin Laden and the changing nature of its relation with the US in its aftermath. It will also appeal to government think tanks and the general reader.

Civilizational Populism in Democratic Nation-States Ihsan Yilmaz,2023-09-08 This edited book examines the growing worldwide phenomenon of civilizational populism in democratic nation-states and brings together research that explores this in a wide variety of religious, political, and geographic contexts. In doing so, the book shows how, from Europe to India and Pakistan, and from Indonesia to the Americas, populists increasingly define national belonging through civilizational identity, claiming that the world can be divided into several religion-defined civilizations with incompatible values. The volume also discusses the complex relationship between civilizational populism, democracy and nationalism and shows how nationalists often use civilizational identity to help define ingroups and outgroups within their society. With this, the book investigates the salience of the concept, its widespread and influential nature, and also explains how populists construct civilizational identities, and the factors behind the rise of civilizational populism.

Pakistan's Democratic Transition Ishtiaq Ahmad,Adnan Rafiq,2016-11-03 Politics in Pakistan has traditionally been understood in the context of civil-military relationship. In May 2013, for the first time in history, Pakistan saw an elected government complete a full term in office and transfer power through the ballot box to another civilian government. In view of such an important development, this book offers critical perspectives on Pakistan’s current democratic transition and its implications for national politics, security and foreign policy. It critically analyses the emerging political trends in the country, including their underlying sources, attributes, constraints, and prospects of sustainability. Drawing on history, diverse theoretical perspectives, and empirical evidence, it explains the dynamics of the democratic process, contested borders and spaces, and regionalism. Contributions are from 13 prominent scholars in the field, who provide a wide-ranging analysis of Pakistan’s contemporary national and regional challenges, as well as the opportunities they entail for its viability as a democratic state. Taking the debate on Pakistan beyond the outmoded notions of praetorian politics and security, the book explores the future prospects of civilian supremacy in the country. It will be of interest to students and scholars of South Asian Politics, Political Sociology and Security Studies, as well as policy-makers, diplomats, security experts and military professionals.
