Fundraising for Social Change Kim Klein, 2016-04-18 The bible of grassroots fundraising, updated with the latest tools and methods Fundraising for Social Change is the preeminent guide to securing funding, with a specific focus on progressive nonprofit organizations with budgets under \$5 million. Used by nonprofits nationally and internationally, this book provides a soup-to-nuts prescription for building, maintaining, and expanding an individual donor program. Author Kim Klein is a recognized authority on all aspects of fundraising, and this book distills her decades of expertise into fundraising strategies that work. This updated seventh edition includes new information on the impact of generational change, using social media effectively, multi-channel fundraising, and more, including expanded discussion on retaining donors and on legacy giving. Widely considered the 'bible of grassroots fundraising,' this practically-grounded guide is an invaluable resource for anyone who has to raise money for important causes. A strong, sustainable fundraising strategy must possess certain characteristics. You need people who are willing to ask and realistic goals. You need to gather data and use it to improve results, and you need to translate your ideas in to language donors will understand. A robust individual donor program creates stable and long-term cash flow, and this book shows you how to structure your fundraising appropriately no matter how tight your initial budget. Develop and maintain a large base of individual donors Utilize strategies that pay off sooner rather than later Expand your reach and get your message out to the donor pool Translate traditional fundraising methods into strategies that work for social justice organizations with little or no front money Basing your fundraising strategy on the contributions of individual donors may feel like herding cats—but it's the best way for your organization to maintain maximum freedom to pursue the mission that matters. A robust, organized, planned approach can help you reach your goals sooner, and Fundraising for Social Change is the field guide for putting it all together to make big things happen.

10 Fundraising Ideas and Strategies Alex Genadinik, 2014-08 This is a relatively short, but very powerful book full of fundraising ideas and insights on how to raise money. Most entrepreneurs struggle when it comes to raising money. Over time I have accumulated different practical strategies for how to raise money for a business, and I explain all of them in this book. This book evolved out of my business coaching practice and my Problemio.com business apps I created. The apps have over 1,000,000 downloads across iOS and Android by entrepreneurs just like you. As entrepreneurs kept asking how to raise money for their business, I kept researching new ways to raise money. In this book, I compiled 10 great ways to raise money for almost any business or nonprofit organization. Not all the fundraising strategies outlined in this book will work for everyone. But many of the strategies should be very possible for most businesses. Additionally, this book goes beyond fundraising strategies. It also covers fundamentals of how much money you need to raise, and helps you understand the fundraising ecosystem, and what various strategies can mean for your business. **HOW MUCH MONEY YOU NEED TO RAISE** Before the book starts suggesting specific strategies, you must first understand how much money you need to raise for your business. The book explains how to calculate how much money you will need to raise so that you can structure your fundraising plans to reach your goals. **STANDARD FUNDRAISING IDEAS** First, I cover some common fundraising strategies like how to raise money by getting loans, grants, investments and donations. These four broad strategies are common, but most entrepreneurs don't know enough about how to get the most out of these strategies. Additionally, while people have been raising money by getting donations for a long time, there is a relatively new way to raise donations, and that is a method called crowdfunding. I explain crowdfunding strategies in the book, and give a number of tips for how to get the most out of it for your business, and what you can realistically expect. **CREATIVE FUNDRAISING IDEAS** Once you explore the standard ways to raise money, the book presents you with a number of creative fundraising strategies where you should use your creativity and resourcefulness to get the funds you need. I sincerely hope this collection of fundraising strategies helps you and I wish you the best of luck with your business. In addition to that, since it is difficult to raise money, the book also covers how to start your business cheaply so that you don't actually need to have as much cash to start your business as you think. For what kind of businesses can you raise money using the strategies in this fundraising book? With the fundraising strategies in this book, you can raise money for a restaurant or diner, coffee shop, barbershop, nightclub, local event, business selling t-shirts, most kinds of stores ranging from boutiques to grocery stores to jewelry shops, animal care or grooming, lawn care or landscaping businesses, moving businesses, gym, frozen yogurt or ice cream shop, a deli, liquor store or a sandwich shop, a beauty salon or a hair salon, a spa, a daycare business, a hardware store, commercial cleaning or residential cleaning, car wash, general contractor business, dog walking or pet sitting, martial arts studio, or a dance studio. Here is a list of potential online businesses for which you can raise money using the strategies in this fundraising book: blogging, affiliate marketing, elearning, create a channel on YouTube, become an author and sell books on Amazon and the Kindle, or become a freelancer or a local concierge.

Schools, Corporations, and the War on Childhood Obesity Darren Powell, 2019-11-26 Challenging the idea that the corporate 'war' against childhood obesity is normal, necessary, or harmless, this book exposes healthy lifestyles education as a form of mis-education that shapes how students learn about health, corporations, and consumption. Drawing on ethnographic research and

studies from across the globe, this book explores how corporations fund, devise, and implement various programmes in schools as 'part of the solution' to childhood obesity. Including perspectives from children, teachers, school leaders, and both public and private external providers on how children's health and 'healthy consumption' is understood and experienced, this book is divided into eight accessible chapters which include: Schooling the childhood obesity 'crisis'; The corporate 'gift' of healthy lifestyles; 'Coming together' to solve obesity; Learning about health, fatness, and 'good' choices; and Shaping the (un)healthy child-consumer Schools, Corporations, and the War on Childhood Obesity is the perfect resource for postgraduate students and academics working in the public health or education field, or those taking courses on the sociology of education, health and physical education, curriculum, pedagogy, ethnography, or critical theory, who are looking to gain an insight into the current situation surrounding obesity and health in corporations and schools.

Fundraising Events! Rose Marie Kern, 2009-09-17 One of the basic conditions of being human is the desire to make our world a better place. Most people begin by improving their personal environment. They become educated, get a job, and create a home or a lifestyle that suits them. ~~~~ There are also thousands of people who look beyond their personal comforts. At some point in their lives they see something that just does not sit right with them, and they feel strongly enough that they want to do something about it. So they join other like-minded individuals and search for ways to change the situation. ~~~~~ Thus are non-profits born. ~~~~~ So, you have formed a group of giving, caring, and enthusiastic individuals and are ready to change the world. ~~~~~ Or are you? ~~~~~ Just about everything you do these days costs money. You may want people to understand the need for better animal shelters, or you feel they need to accept African Dance as both a method for getting in shape and understanding world culture. You may feel that the coal burning power plants in your state should be replaced with wind and solar energy, or that kids really need to be taught to defend themselves. ~~~~~ Whatever your group wants to accomplish, it will require thought, time, and money. ~~~~~ Now, unless you've managed to recruit a benevolent millionaire into your membership, the most challenging portion of this equation will be the money. ~~~~~ There are thousands of living room non-profits across the nation doing wonderful things for their communities. Some of the ways they get funds include collecting membership dues, yard sales, and selling candy. Some of them get sponsorships from local businesses and/or request grants. Almost all of them dream of moving their cause out of the living room and into the large light of public awareness. ~~~~~ Unfortunately, most small organizations find that they are calling on their own members for financial support to the point that the members have nothing left to give. Meetings can become nothing more than singing the same song over and over to the same group of people. ~~~~~ So, they need an instrument through which they can make money. Ideally it should also focus attention on the goals of the organization. ~~~~~ A very powerful tool is a fundraising event. This can provide many things: 1. A focus for sponsorships and grants 2. A method to raise money through community participation 3. A way to highlight the concerns of the organization in the community 4. It rallies excitement among the members and volunteers 5. and it provides a vehicle to increase membership. Unless your organization's purpose is so off center that no one outside your group wants to touch it with a ten foot pole, you should be able to find an audience for your message. So how do you go about deciding on what kind of fundraising event to use? How do you organize it? What needs to be done to put it together? There are hundreds of events that can and do take place. For maximum effectiveness, your event should be tailored to your cause. So what kind of fundraising event would be appropriate for your organization? There are myriads of possibilities. Some, like New Mexico Solar Energy Association, are natural outshoots of what and who they are. Some fundraisers demand a quiet, elegant approach, where others are very down to earth. ~~~~~ The best fund raising is also FUN-Raising. We are all volunteers, and we have something to give the world. Why not enjoy ourselves in the process? In FUNdraising Events we will discuss some of the many fundraising events there are, and give examples, focusing primarily on the needs of the small to medium sized organization. Then we will go over the steps involved in turning a great idea into a rewarding reality.
