Get Ready ... Get Set ... GO! Laetus O.K. Lategan,2017-05-17 This book presents different perspectives of support of the doctoral education value chain. Themes such as the scope of doctoral education, planning and roll-out of the research project, student and supervisor responsibilities, publication writing, grant applications, the application of research results and research ethics and integrity are addressed. This book forms part of one of the three pillars of postgraduate research, namely research capacity building. The other two pillars are policy and methodology, which are addressed in other publications.

Becoming a Green Building Professional Holley Henderson,2012-08-03 A career guide for professionals in sustainable architecture,design, planning, development, and related consulting. For those considering a new career or a career change focused on green and sustainable building and design, *Becoming a Green Building Professional* offers practical information on educational requirements, career options, guidance and tips, and first-hand interviews with green building professionals. Playing and Learning Outdoors Jan White,2013-11-01 *Playing and Learning Outdoors* shows early years practitioners how to get the very best from outdoor playing and learning for the enjoyment, health and education of all children from ages three to five years. Fully updated to reflect the current status and understandings regarding outdoor provision within early childhood education frameworks, this new edition will allow practitioners to develop rich and stimulating outdoor play provision in Early Years settings and enable them to feel confident to offer wonderful play experiences outdoors. *Playing and Learning Outdoors* offers practitioners achievable advice and support, based on approaches which are appropriate and effective for young children's all-round well-being and development. This invaluable resource also includes practical advice on: movement and physical play playing with sand, natural materials and water plants, living things and growing construction, creative and imaginative play. This second edition also includes a brand new chapter on 'Providing experiences beyond the garden walls' which will urge practitioners to harness the huge potential contained in the locality (physical world) and local community (human world) around the early years setting's own boundaries. Filled with advice and support, this lively, inspiring and accessible book will help practitioners to develop a truly practical and enjoyable approach to learning through play outdoors for all children aged from 3 to 7.

Urban Sustainability in the Arctic Robert W. Orttung,2020-06-11 *Urban Sustainability in the Arctic* advances our understanding of cities in the far north by applying elements of the international standard for urban sustainability (ISO 37120) to numerous Arctic cities. In delivering rich material about northern cities in Alaska, Canada, and Russia, the book examines how well the ISO 37120 measures sustainability and how well it applies in northern conditions. In doing so, it links the Arctic cities into a broader conversation about urban sustainability more generally.

Changing the Food Game Lucas Simons,2017-09-08 By 2050, the world's population is estimated to grow to 10 billion. To feed everyone, we will have to double our food production, to produce more food in the next 40 years than in the whole of the last 6,000. *Changing the Food Game* shows how our unsustainable food production system cannot support this growth. In this prescient book, Lucas Simons argues that the biggest challenge for our generation can only be solved by effective market transformation to achieve sustainable agriculture and food production. Lucas Simons explains clearly how we have created a production and trading system that is inherently unsustainable. But he also demonstrates that we have reason to be hopeful - from a sustainability race in the cocoa industry to examples of market transformation taking place in palm oil, timber, and sugarcane production. He also poses the question: where next? Provocative and eye-opening, *Changing the Food Game* uncovers the real story of how our food makes it on to our plates and presents a game-changing solution to revolutionize the industry.

Ready, Set, Go! Sports of All Sorts / ¡En sus marcas, listos, fuera! Deportes de todo tipo Celeste Cortright,2021-10-22 Now available in bilingual Spanish! Come along on a lively, lyrical exploration of the world's most beloved sports. Rhyming text and energetic artwork featuring a diverse group of children introduce the basics of eight sports popular around the world: baseball, track, football/soccer, gymnastics, hockey, karate, basketball, and swimming. Schools, Corporations, and the War on Childhood Obesity Darren Powell,2019-11-26 Challenging the idea that the corporate 'war' against childhood obesity is normal, necessary, or harmless, this book exposes healthy lifestyles education as a form of mis-education that shapes how students learn about health, corporations, and consumption. Drawing on ethnographic research and studies from across the globe, this book explores how corporations fund, devise, and implement various programmes in schools as 'part of the solution' to childhood obesity. Including perspectives from children, teachers, school leaders, and both public and private external providers on how children's health and 'healthy consumption' is understood and experienced, this book is divided into eight accessible chapters which include: Schooling the childhood obesity 'crisis'; The corporate 'gift' of healthy lifestyles; 'Coming together' to solve obesity; Learning about health, fatness, and 'good' choices; and Shaping the (un)healthy child-consumer. *Schools, Corporations, and the War on Childhood Obesity* is the perfect resource for postgraduate students and academics working in the public health or education field, or those taking courses on the sociology of education, health and physical education, curriculum, pedagogy, ethnography, or critical theory, who are looking to gain an insight into the current situation surrounding obesity and health in corporations and schools.

Ready, Set, Go Green!, Grades 4 - 5 Teresa Domnauer,2012-10-22 On your mark, get set, go green! Did you know that every person in the United States creates about five pounds of trash a day? Did you know that recycling one ton of paper can save 17 trees? Did you know that people in North America use more water than any other people on Earth? If not, then welcome to *Ready, Set, Go Green!* Environmental awareness is everywhere in the media today. It is a huge concern for many adults, and will soon impact children as well. *Ready, Set, Go Green!* explains current environmental topics in a way that students will understand. The goal is to increase students' sensitivity and concern about the environment while encouraging them to have fun at the same time.

This book is filled with interesting facts and figures, fun activity pages, quick and easy tips, and engaging project ideas.

Getting Green Done Auden Schendler,2010-06 A maverick sustainability expert provocatively explores the difference between feel-good gestures and the hard work of going green--for businesses, individuals, or government.

Graduate Employability Across Contexts Tran Le Huu Nghia,Binh Chi Bui,Jasvir Kaur Nachatar Singh,Vinh N. Lu,2022-09-02 This book explores stakeholders' perspectives, their practices, and engagement with enacting the employability agenda in the context of a rapidly changing world. It explains the need for developing graduate employability under socioeconomic, cultural, and political pressure exposed to the higher education sector. Largely framed within Bourdieu's concepts of social field, habitus, and capital, it explores international stakeholders' perspectives and experiences with graduate employability agenda in different contexts, which serves as a point of reference for the adoption of such initiatives. Based on empirical evidence, the authors develop a new graduate employability framework seeing it as a lifelong process, denote the relationships between types of employability capital, and shed light on the consequences of different strategies to translate employability capital to employment and career outcomes. Overall, this book generates both theoretical and practical insights which help to advance employability programs, better prepare the future workforce, and anticipate turbulence in the labour markets.

Sustainability Anthony David,2010

The Making of the Queen Elizabeth Olympic Park John C. Hopkins,Peter Neal,2013-01-14 This is the story of The Making of the Queen Elizabeth Olympic Park by the Olympic Delivery Authority. Situated in east London adjacent to Victoria Park, one of the world's earliest public parks built in the 19th century, the Park provides an innovative blueprint for contemporary urban park design and is recognised as an exemplar sustainable development for the 21st century. As a primary legacy of the London 2012 Olympic and Paralympic Games, the Park was conceived as a new piece of sustainable city, transforming a largely neglected, contaminated, post-industrial district, into a new community for up to 20,000 residents, shifting the centre of gravity of London eastwards. Written by those at the heart of the project, it draws significantly on contributions from the many experts who have shaped and guided the creation of the Park, including interviews with the key players responsible for delivering the project. It provides the only authoritative account of the planning, design and construction of the Park beginning with the bid to host the games, setting out its historical, philosophical and physical context; describing the strategic fit within the Thames Gateway, Lower Lea Valley and Stratford City; explaining how One Planet Living principles developed by WWF and BioRegional underpinned sustainability throughout the project; and concludes with a 'Walk in Park' capturing its essence for both Games and Legacy. Richly illustrated, it is a unique reference for those involved in the planning, design, delivery and management of sustainable urban parks and new communities on post-industrial and other land, and those seeking to host future Games and other large-scale international events.

The Detox Prescription Woodson Merrell,Mary Beth Augustine,Hillari Dowdle,2013-12-24 The human body has an extraordinary ability to detoxify itself. We rely on this system when we wait for a hangover to lift or recover from a bout of food poisoning. However, cutting-edge science is revealing how toxic exposures can actually affect our genes and lead to conditions such as obesity, diabetes, arthritis, mood disorders, energy, allergies, fertility, and heart disease—all of which are on the rise. The good news is that each of us can optimize this natural cleansing system for better health, greater energy, and efficient weight loss. In *The Detox Prescription*, Dr. Merrell draws on new research to help readers assess their own toxic risk factors and health deficiencies. Next, he and Mary Beth Augustine, RD, offer more than 75 delicious and nutrient-rich recipes incorporating juices and whole foods, broken into 3-, 7-, and 21-day cleanses. Dr. Merrell's holistic approach also relies on light yoga practices, basic self-care, beginning meditation, and sleep hygiene to reset body, mind, and spirit and take control of our genetic destiny.

Getting Green Done (EasyRead Large Bold Edition) Auden Schendler,2010 Auden Schendler serves as the sustainability director of the Aspen Skiing Company, which operates the Aspen/Snowmass resort complex in Colorado. He discusses his successes and failures in promoting sustainability to illustrate the lessons he has learned. Proving refreshingly open, Schendler criticizes his colleagues, including his previous CEO, who told Schendler he could introduce a green initiative only over my dead body. Schendler calls for transparency and an end to greenwashing, demanding that corporations, nonprofit organizations, and governmental bodies clarify which sustainability projects work and which do not, and pursue the ones that make a difference. *getAbstract* recommends this valuable guide to executives, government leaders and concerned citizens who want to take meaningful action against global warming.

If I Had a Water Buffalo Marilyn A. Fitzgerald,2013-08-01 *If I Had a Water Buffalo* poignantly explores the critical difference in outcomes when offering a hand up rather than giving a handout. A seemingly simple request for a water buffalo by an impoverished rice farmer proves to be the catalyst for Dr. Fitzgerald's global and unending journey in search of a better way to meet the needs of people less fortunate. Woven with both triumph and tragedies, encompassing undertakings in Indonesia, Eastern Europe, South America, and Bangladesh; *If I Had a Water Buffalo* artfully lays out why the approach to helping those in need must incorporate the personal empowerment of the beneficiaries over charity often creating harmful dependency.
