The Ghost in My Brain Clark Elliott, 2016-05-31 The dramatic story of one man's recovery offers new hope to those suffering from concussions and other brain traumas. In 1999, Clark Elliott suffered a concussion when his car was rear-ended. Overnight his life changed from that of a rising professor with a research career in artificial intelligence to a humbled man struggling to get through a single day. At times he couldn't walk across a room, or even name his five children. Doctors told him he would never fully recover. After eight years, the cognitive demands of his job, and of being a single parent, finally became more than he could manage. As a result of one final effort to recover, he crossed paths with two brilliant Chicago-area research-clinicians—one an optometrist emphasizing neurodevelopmental techniques, the other a cognitive psychologist—working on the leading edge of brain plasticity. Within weeks the ghost of who he had been started to re-emerge. Remarkably, Elliott kept detailed notes throughout his experience, from the moment of impact to the final stages of his recovery, astounding documentation that is the basis of this fascinating book. *The Ghost in My Brain* gives hope to the millions who suffer from head injuries each year, and provides a unique and informative window into the world's most complex computational device: the human brain.

Atoms of Mind W.R. Klemm, 2011-04-20 This book describes the author's view of how the mind "thinks" at various levels of operation. These levels include nonconscious mind (as in spinal/brainstem reflexes and neuroendocrine controls), subconscious mind, and conscious mind. In the attempt to explain conscious mind, there is considerable critique of arguments over whether or not free will is an illusion. Finally, the author summarizes current leading theories for consciousness (Bayesian probability, chaos, and quantum mechanics) and then presents his own theory based on patterns of nerve impulses in circuits that are interlaced coherently into larger networks.

Spectres of the Self Shane McCorristine,2010-07-22 Examines the culture of ghost-seeing, arguing that the ghost represents a symbol of the psychological hauntedness of modern experience.

Ghosts of My Mind J. Michael O'Connor,2015-11-30 James Patrick O'Francis had become increasingly unhappy in the crime-infested city in which he lived, so he moved his family to the rural area of the Appalachian Mountains where his sons could enjoy the clean air, closeness, and security of a small town. What O'Francis did not expect to encounter was the callousness and malice that a corrupt political system offers an outsider.O'Francis' belief in honor and integrity soon became challenged in ways he could never have imagined. Over the course of many years, he faces discrimination, prejudice, character assassination, and betrayal, bringing extreme hardships to himself and his family.The injustices in which he fights in the school and system in which he works are religious and racial discrimination, inappropriate sexual conduct, and rape. His devotion to his students, the joy, warmth, and laughter in which he shared with them on a daily basis over shadowed the ever-increasing stress and pressure applied by his administrators along with the aid of mendacious, dissembling, jealous colleagues.Unknown to O'Francis was he was suffering from PTSD, and he struggled to keep his elite military training in check, as the ghosts of his past grew ever closer to over taking his life and destroying himself and his family.

Oliver,2012-07-01 New York Times–Bestselling Authors: “A sixth-grader and his live-in ghost further cement their friendship . . . The cast is thoroughly likable.” —Kirkus Reviews It’s time for Moorepark Middle School’s annual Speak Out Challenge, and Billy Broccoli thinks he’s got it made. With his best friend Hoover Porterhouse—the ghost with the most—by his side, Billy’s got the competition in the bag. Who wouldn’t vote for a demonstration on

mind reading? But when Billy lands a spot on the sixth-grade team, he starts spending more time with his new teammates than he does with Hoover. And the Hoove plays second fiddle to no one! If Billy's not careful, his secret weapon might just vanish into thin air, leaving Billy to pick up the pieces of a demonstration day disaster! Praise for Ghost Buddy: Zero to Hero "An endearingly uncool hero . . . Readers will root for Billy." —Publishers Weekly

A Haunted Mind Bob Curran, 2012-08-22 Arguably no American writer has had more of an impact on the modern horror scene than Howard Phillips Lovecraft, the man who created the Cthulhu Mythos, with its strange gods, eerie places, and forbidden books. But what sort of a man was Lovecraft, how did he create such a terrible universe, and where did his inspiration come from? Was it, as some have argued, based on esoteric knowledge forgotten or even denied to all sane people? In *A Haunted Mind*, Dr. Bob Curran explores what motivated Lovecraft—his personal life is just as strange as some of his creations—and drove him to create his

terrible cosmos. Using both folklore and history, Dr. Curran investigates a wide variety of Lovecraftian mysteries. A word of warning: you may never look at Lovecraft—or the world—in exactly the same way again!

The Case for Ghosts J. Allan Danelek, 2006 Offers an objective analysis of hauntings, the ghost psyche, spirit communication, and spirit guides, providing amazing insights into a phenomenon that has fascinated mankind for centuries.

In the Realm of Hungry Ghosts Gabor Maté, MD, 2011-06-28 A “thought-provoking and powerful” study that reframes everything you’ve been taught about addiction and recovery—from the New York Times–bestselling author of *The Myth of Normal* (Bruce Perry, author of *The Boy Who Was Raised as a Dog*). A world-renowned trauma expert combines real-life stories with cutting-edge research to offer a holistic approach to understanding addiction—its origins, its place in society, and the importance of self-compassion in recovery. Based on Gabor Maté’s two decades of experience as a medical doctor and his groundbreaking work with people with addiction on Vancouver’s skid row, this #1 international bestseller radically re-envisioning a much misunderstood condition by taking a compassionate approach to substance abuse and addiction recovery. In the same vein as Bessel van der Kolk’s *The Body Keeps the Score*, *In the Realm of Hungry Ghosts* traces the root causes of addiction to childhood trauma and examines the pervasiveness of addiction in society. Dr. Maté presents addiction not as a discrete phenomenon confined to an unfortunate or weak-willed few, but as a continuum that runs throughout—and perhaps underpins—our society. It is not a medical “condition” distinct from the lives it affects but rather the result of a complex interplay among personal history, emotional and neurological development, brain chemistry, and the drugs and behaviors of addiction. Simplifying a wide array of brain and addiction research findings from around the globe, the book avoids glib self-help remedies, instead promoting a thorough and

compassionate self-understanding as the first key to healing and wellness. Dr. Maté argues persuasively against contemporary health, social, and criminal justice policies toward addiction and how they perpetuate the War on Drugs. The mix of personal stories—including the author’s candid discussion of his own “high-status” addictive tendencies—and science with positive solutions makes the book equally useful for lay readers and professionals.

How to Cure a Ghost Fariha Róisín,2019-09-24 A poetry compilation recounting a woman’s journey from self-loathing to self-acceptance, confusion to clarity, and bitterness to forgiveness Following in the footsteps of such category killers as Milk and Honey and Whiskey Words & a Shovel I, Fariha Ro’isi’l’s poetry book is a collection of her thoughts as a young, queer, Muslim femme navigating the difficulties of her intersectionality. Simultaneously, this compilation unpacks the contentious relationship that exists between Ro’isi’l and her mother, her platonic and romantic heartbreaks, and the cognitive dissonance felt as a result of being so divided among her broad spectrum of identities.

The Wrong Turning: Encounters with Ghosts Stephen Johnson, 2021-10-19 Introduced and edited by broadcaster Stephen Johnson, a curated selection of chilling ghost stories from world literature. Why do people love ghost stories, even if they don't believe (or say they don't believe) in ghosts? Is it simply the adrenaline rush that comes from being mesmerized and terrified by a great storyteller, or do these tales yield deeper meanings—telling us things about our own inner shadows? Stephen Johnson brings together some of the most memorable encounters with ghosts in world literature, from Europe, Russia, the United States, and China. Recurring themes and imagery are noted, interpretations suggested—but only suggested, since ambiguity and resistance to rational interpretation are key elements in the best ghost stories. As the writer Robert Aickman observed, often the decisive moment comes when someone, somehow, makes a “wrong turning”—literally, perhaps, but at the same time psychologically, even morally—and some mysterious nemesis takes over. Old favorites by M. R. James, Ambrose Bierce, and Charlotte Perkins Gilman are interlaced with extracts from longer works by Emily Brontë, Henry James, and Alexander Pushkin,, along with slightly left-field apparitions from Tove Jansson and Flann O'Brien. With such expert guides, who knows what we will be led to encounter in the haunted chambers of our minds?

The Ghost of Our Beliefs Chris J Mitchell, 2017-06-17 In this stand alone short story will the beliefs of the main character stand firm, or will he come to accept the world and to a greater extent the Universe is a complex place where everything is not so straight forward. Joshua is a retired engineer, but was not just an engineer by trade; he was one by heart. Ever since he was a child

he has been fascinated by the mechanisms and machines that the human race has created. His mind is methodical, pragmatic and his beliefs stand firm in facts and reason. What is observable, testable and measurable is what exists and everything else is simply myth or theory. His heart felt understanding of the world though is disrupted and altered by the strange sighting of a unexplained figure or what is more commonly thought of as a ghost. Will this experience alter his beliefs or will the ghosts of his previous values stand firm? Chris J Mitchell: Everything we see in life is not black and white. Our beliefs are not always correct and even when we are sure of something we should be open to changing our minds. In that sense this story is not focused around a ghost or revealing the character of one, but the sighting of what the main character assumes is a ghost serves the premise of the book well.

Neither Brain Nor Ghost W. Teed Rockwell, 2005 A rejection of both dualism and the mind-brain identity theory, arguing that the mind is best understood as a behavioral field that fluctuates within the brain/body/world nexus.

Trucker Ghost Stories Annie Wilder, 2012-08-07 A collection of true stories by truckers and travelers who have had bizarre and inexplicable encounters with otherworldly beings includes the stories of a chupacabra attack, a UFO sighting and an Alabama prom girl ghost. By the author of House of Spirits and Whispers. Original. 25,000 first printing.
