**Sounding Off** Resul Pookutty, 2012-10-15 Resul Pookutty, India's best-known sound designer and audiographer, won an Oscar for his work in *Slumdog Millionaire*. *Sounding Off*, his autobiography, is the amazing odyssey of a village boy from Kerala whose resilience and conviction took him to the very cutting edge of cinematic sound technology---from struggling in the ruthless film world of Mumbai to winning international glory. Already a huge bestseller in Malayalam, this definitive translation is a celebration of both cinema and life.

**Sound Effect** Ross Brown, 2020-02-20 *Sound Effect* tells the story of the effect of theatrical aurality on modern culture. Beginning with the emergence of the modern scenic sound effect in the late 18th century, and ending with headphone theatre which brings theatre's auditorium into an intimate relationship with the audience's internal sonic space, the book relates contemporary questions of theatre sound design to a 250-year Western cultural history of hearing. It argues that while theatron was an instrument for seeing and theorizing, first a collective hearing, or audience is convened. Theatre begins with people entering an acoustemological apparatus that produces a way of hearing and of knowing. Once, this was a giant marble ear on a hillside, turned up to a cosmos whose inaudible music accounted for all. In modern times, theatre's auditorium, or instrument for hearing, has turned inwards on the people and their collective conversance in the sonic memes, tropes, clichés and picturesques that constitute a popular, fictional ontology. This is a study about drama, entertainment, modernity and the theatre of audibility. It addresses the cultural frames of resonance that inform our understanding of SOUND as the rubric of the world we experience through our ears. Ross Brown reveals how mythologies, pop-culture, art, commerce and audio, have shaped the audible world as a form of theatre. Garrick, De Louthembourg, Brecht, Dracula,

Jekyll, Hyde, Spike Milligan, John Lennon, James Bond, Scooby-Do and Edison make cameo appearances as Brown weaves together a history of modern hearing, with an argument that sound is a story, audibility has a dramaturgy, hearing is scenographic, and the auditoria of drama serve modern life as the organon, or definitive frame of reference, on the sonic world.

**Sonic Persuasion** Greg Goodale, 2011-04-01 *Sonic Persuasion: Reading Sound in the Recorded Age* critically analyzes a range of sounds on vocal and musical recordings, on the radio, in film, and in cartoons to show how sounds are used to persuade in subtle ways. Greg Goodale explains how and to what effect sounds can be read like an aural text, demonstrating this method by examining important audio cues such as dialect, pausing, and accent in presidential recordings at the turn of the twentieth century. Goodale also shows how clocks, locomotives, and machinery are utilized in film and literature to represent frustration and anxiety about modernity, and how race and other forms of identity came to be represented by sound during the interwar period. In highlighting common sounds of industry and war in popular media, *Sonic Persuasion* also demonstrates how programming producers and governmental agencies employed sound to evoke a sense of fear in listeners. Goodale provides important links to other senses, especially the visual, to give fuller meaning to interpretations of identity, culture, and history in sound.

*The Sound of a Room* Seán Street, 2020-10-01 What does a place sound like – and how does the sound of place affect our perceptions, experiences, and memories? *The Sound of a Room* takes a poetic and philosophical approach to exploring these questions, providing a thoughtful investigation of the sonic aesthetics of our lived environments. Moving through a series of

location-based case studies, the author uses his own field recordings as the jumping-off point to consider the underlying questions of how sonic environments interact with our ideas of self, sense of creativity, and memories. Advocating an awareness born of deep listening, this book offers practical and poetic insights for researchers, practitioners, and students of sound.

**The Cult of Pābūjī** Umberto Mondini, 2018-12-12 Pābūjī is a Rajput warrior prince from a small and insignificant kingdom, and a celibate ascetic who shuns the company of women, preferring instead to ride with his chieftains and perform miraculous deeds for Deval, an incarnation of the great Goddess. This book provides the historical and mythological background to the story of Pābūjī, the hero of a medieval epic poem which is still performed in India today by itinerant bards. Nuptial rites and Pābūjī's own marriage are closely examined here, with parallels drawn with present day wedding ceremonies, which are essentially unchanged, and their impact on the modern day bride and groom. While maintaining high standards of academic rigour and thoroughness in the collection of data, this book renders the subject accessible, retelling Pābūjī's exciting and often humorous adventures in its analysis of the epic tale.

**Sound** Bella Bathurst, 2018-10-02 "A moving and fascinating book about sound and what it means to be human" from the Somerset Maugham Award-winning author of *The Lighthouse* (Financial Times). In this surprising and moving book, award-winning writer Bella Bathurst shares the extraordinary true story of how she lost her hearing and eventually regained it and what she learned from her twelve years of deafness. Diving into a wide-ranging exploration of silence and noise, she interviews psychologists, ear surgeons, and professors to uncover fascinating insights about the science of sound. But she also speaks with ordinary people who are deaf or have lost their hearing, including musicians, war veterans, and factory workers, to offer a perceptive, thought-provoking look at what sound means to us. If

sight gives us the world, then hearing—or our ability to listen—gives us our connections with other people. But, as this smart, funny, and profoundly honest examination reveals, our relationship with sound is both more personal and far more complex than we might expect. “Bathurst is a restless, curious writer . . . After reading this book, I found myself listening in a richer and more interested way.” —The Guardian “A hymn to the faculty of hearing by someone who had it, lost it and then found it again, written with passion and intelligence . . . terrifying, absorbing and ultimately uplifting.” —Literary Review “Bathurst’s affecting memoir will enlighten and educate.” —Publishers Weekly “A memoir of hearing loss and what the author learned . . . through her unexpected recovery from it. A good writer knows material when it presents itself, and Bathurst is a very good writer.” —Kirkus Reviews

*The Memory of Sound* Seán Street, 2014-06-13 This book explores the connections between sound and memory across all electronic media, with a particular focus on radio. Street explores our capacity to remember through sound and how we can help ourselves preserve a sense of self through the continuity of memory. In so doing, he analyzes how the brain is triggered by the memory of programs, songs, and individual sounds. He then examines the growing importance of sound archives, community radio and current research using GPS technology for the history of place, as well as the potential for developing strategies to aid Alzheimer's and dementia patients through audio memory.

**Soundaround** Andrew Burnett, Jackie Wylie, 2013-10-18 This practical and clear book will allow you to introduce and teach phonological awareness skills to children in the early years and up to Key Stages 1 to 2, who are struggling with their literacy levels because of weak basic skills. It provides a developmental and curriculum linked program suitable for all children, including those with special educational needs; a straightforward format that does

not require specialist training yet enables staff to choose activities and confidently use them from day one; a focus on 'sounds first' leading to secure learning based on normal child development; activities which children enjoy and want to play again; and ideal preparation for literacy work at school. All staff involved with children in the Foundation Stage (and sometimes beyond) including teachers, nursery nurses, playgroup staff, SENCOs, teaching assistants, speech and language therapists and parents will be able to improve their children's early literacy skills using this approach.

### Acoustics of Bangla Speech Sounds Asoke Kumar

Datta, 2017-05-30 This book presents the consolidated acoustic data for all phones in Standard Colloquial Bengali (SCB), commonly known as Bangla, a Bengali language used by 350 million people in India, Bangladesh, and the Bengali diaspora. The book analyzes the real speech of selected native speakers of the Bangla dialect to ensure that a proper acoustical database is available for the development of speech technologies. The acoustic data presented consists of averages and their normal spread, represented by the standard deviations of necessary acoustic parameters including e.g. formant information for multiple native speakers of both sexes. The study employs two important speech technologies: (1) text to speech synthesis (TTS) and (2) automatic speech recognition (ASR). The procedures, particularly those related to the use of technologies, are described in sufficient detail to enable

researchers to use them to create technical acoustic databases for any other Indian dialect. The book offers a unique resource for scientists and industrial practitioners who are interested in the acoustic analysis and processing of Indian dialects to develop similar dialect databases of their own.
