Glass Shatters Michelle Meyers,2016-04-12 A man wakes up in a living room he doesn't recognize, unable to remember anything about himself. All he has are the few remnants of his identity scattered throughout the house—clues to his past. He soon learns that he is Charles Lang, a brilliant scientist whose wife, Julie, and daughter, Jess, mysteriously disappeared several years ago. Soon, he begins to recover memories—memories that may or may not be his own—and as he does, he realizes that only by uncovering the details of his former life will he have any hope of being reunited with Julie and Jess. A haunting tale of love and longing, fate and free will, and the easily blurred lines between fiction and reality, *Glass Shatters* explores the risks of trying to reinvent oneself, and the dangers of pushing science to its limits.

Shatterglass (The Circle Opens #4) Tamora Pierce, 2011-09-01 The breathtaking conclusion of the popular fantasy quartet by acclaimed author Tamora Pierce. Kethlun Warder was a gifted glassmaker until his world was shattered in a freak accident. With his strange magic, he creates glass balls which reflect the immediate past and expose the work of a murderer. If he can harness his power properly, he'll be able to see the crimes as they take place. Keth and Tris race against time and the local authorities to identify a killer who's living in plain sight.

Shattered Glass Destiny D. Hawkins, 2017-10-02 I lived in a world of darkness, never to see the light again. It's been eleven years since my father cursed Crystal City, since he condemned me to a life of loneliness and misery. By taking away everything that my mother loved, he took everything that I knew and cared for. Everything, but the throne. Only what good was being a queen in a city of mindless killers? A city that would never see the sunlight until the day of my death. I truly had nothing to live for... ..Or so I thought. The night that Wolfe was dragged into my palace, I knew that my life would never be the same. We were childhood friends once, but we went our separate ways. He became captain of the pirates, and I ascended to the diamond throne. My once sworn protector had become my enemy, but we were both alone, and the connection we felt was almost unbearable to ignore. My heart only cracked after my father abandoned me, but Wolfe would completely shatter it. For someone that hasn't felt anything for years, that wasn't such a bad thing.

Shattered Glass Dani Alexander, 2012-04-10 A male prostitute, a mangy cat, a murder and an obsession that threatens his career, his impending marriage and his life. Nothing is going as planned for Austin Glass. Austin Glass seems to have it all, A loving fiancée, a future with the FBI and a healthy sized trust fund. At least on the surface. He also has a grin and a wisecrack for every situation. But the smile he presents to the world hides a painful past he's buried too deeply to remember, and his quips mask bitterness and insecurity. Austin has himself and most of the whole world fooled-until he meets a redhead in a pair of bunny

slippers. As events unfold in the biggest case of his life, Austin's carefully planned future unravels, and he finds himself pushed into making quick, life-changing decisions. But can he trust himself or anything he feels, when each event seems to be just a series of volatile reactions?

Glass Half-Broken Colleen Ammerman, Boris Groysberg, 2021-04-13 Why the gender gap persists and how we can close it. For years women have made up the majority of college-educated workers in the United States. In 2019, the gap between the percentage of women and the percentage of men in the workforce was the smallest on record. But despite these statistics, women remain underrepresented in positions of power and status, with the highest-paying jobs the most gender-imbalanced. Even in fields where the numbers of men and women are roughly equal, or where women actually make up the majority, leadership ranks remain male-dominated. The persistence of these inequalities begs the question: Why haven't we made more progress? In *Glass Half-Broken*, Colleen Ammerman and Boris Groysberg reveal the pervasive organizational obstacles and managerial actions—limited opportunities for development, lack of role models and sponsors, and bias in hiring, compensation, and promotion—that create gender imbalances. Bringing to light the key findings from the latest research in psychology, sociology, organizational behavior, and economics, Ammerman and Groysberg show that throughout their careers—from entry-level to mid-level to senior-level positions—women get pushed out of the leadership pipeline, each time for different reasons. Presenting organizational and managerial strategies designed to weaken and ultimately break down these barriers, *Glass Half-Broken* is the authoritative resource that managers and leaders at all levels can use to finally shatter the glass ceiling.

grown up in, she is ready to make her way to Toronto, where she hopes to discover the truth about the mother she believes hurt and then abandoned her. Toronto proves to be both daunting and exciting for Toni, whose charm and innocence attract attention—not always positive—wherever she goes. Humean Laws for Human Agents Michael Townsen Hicks, Siegfried Jaag, Christian Loew, 2023-05-17 Humean Laws for Human Agents presents cutting-edge research by leading experts on the Humean account of laws, chance, possibility, and necessity. A central question in metaphysics and philosophy of science is: What are laws of nature? Humeans hold that laws are not sui generis metaphysical entities but merely particularly effective summaries of what actually happens. The most discussed recent work on Humeanism emphasizes the laws' usefulness for limited agents and uses pragmatic considerations to address fundamental and long-standing problems. The current volume develops and critically examines pragmatic Humean accounts, with innovative new work on the epistemology of laws and chance, the problem of induction, counterfactuals, special science laws, and a Humean account of essence. Taken together, the papers provide a roadmap for developing pragmatic Humeanism and connate views,

setting the agenda for future research.
