The Egg Quality Diet: A Clinically Proven 100-day Fertility Diet to Balance Hormones, Reduce Inflammation, Improve Egg Quality and Optimize Aimee E. Raupp,2021-06-13 The Egg Quality Diet is the culmination of what Aimee Raupp has found, during her two decades of clinical practice, to be the most effective nutritional approach to optimizing fertility. This diet has been proven to work not in a randomized control trial (RCT) but in real life, on thousands of real women like you. Real women who have been told they have no good eggs left or they are too old or they are in menopause. This diet has been proven in women with high follicle stimulating hormone (FSH), low anti-mullerian hormones (AMH), recurrent pregnancy loss (RPL), multiple failed in-vitro fertilizations (IVF) and intrauterine inseminations (IUI). This diet has been proven in women with endometriosis, miscarriage, poly-cystic ovarian syndrome (PCOS), fibroids, cysts, adenomyosis, asherman's syndrome, premature ovarian failure (POF) and hypothalamic amenorrhea. This diet has helped hundreds of women, even those in their mid to late forties, make healthy babies using their own eggs. This diet has helped women bring their FSH from above 50 down to 10. This diet has helped women double, even triple their AMH. Even more, this diet has been recommended by multiple reproductive endocrinologists (R.E.) to their clients.

The Human Body in Early Iron Age Central Europe Katharina Rebay-Salisbury,2016-12-08 Identities and social relations are fundamental elements of societies. To approach these topics from a new and different angle, this study takes the human body as the focal point of investigation. It tracks changing identities of early Iron Age people in central Europe through body-related practices: the treatment of the body after death and human representations in art. The human remains themselves provide information on biological parameters of life, such as sex, biological age, and health status. Objects associated with the body in the grave and funerary practices give further insights on how people of the early Iron Age understood life and death, themselves, and their place in the world. Representations of the human body appear in a variety of different materials, forms, and contexts, ranging from ceramic figurines to images on bronze buckets. Rather than focussing on their narrative content, human images are here interpreted as visualising and mediating identity. The analysis of how image elements were connected reveals networks of social relations that connect central Europe to the Mediterranean. Body ideals, nudity, sex and gender, aging, and many other aspects of women's and men's lives feature in this book. Archaeological evidence for marriage and motherhood, war, and everyday life is brought together to paint a vivid picture of the past.
