India Migration Report 2012 S. Irudaya Rajan, 2014-03-21 This volume is a collection of articles dealing with various dimensions of the Global Financial Crisis and its economic and social impact in terms of governance, emigration, remittances, return migration and re-integration. The crisis, which had its origin in the United States in 2008, spread its economic effects on developed as well as developing countries. Some of these countries were able to recover in the short run while some are in the process of recovery, with continuous efforts by both national governments and international agencies. In this backdrop, is there any impact on the outflow of emigrants from the countries of origin and inflow of remittances to the countries of destination? The third volume in the annual series 'India Migration Report' answers the question through rigorous quantitative and qualitative analyses and fieldwork both in the Gulf region and South Asia, and concludes that both emigration and remittances are more resilient than expected. This report: contains findings based on an extensive survey conducted in Kerala; has additional evaluations based on other surveys and case studies conducted in different parts of India, Pakistan, Bangladesh, Nepal and Sri Lanka to reflect on the consequences of the global crisis on the countries of origin, as well as a quick assessment and site visits to the United Arab Emirates, Kuwait, Qatar and Malaysia; includes essays that examine the linkages between emigration and remittances based on international data from the World Bank, the International Labour Organization, the International Organization of Migration, the United Nations and other organizations that closely deal with international migration. It will be of interest to students and scholars of migration studies, sociology, law, economics, gender studies, diaspora studies, international relations and demography, apart from non-governmental organizations, policy-makers and government institutions working in the field of migration.

Arab Dawn Bessma Momani, 2015-11-26 In the West, news about the Middle East is dominated by an endless stream of reports and commentary about civil war, sectarian violence, religious extremism, and economic stagnation. But do they tell the full story? For instance, who knew that university enrolment in the war-torn Palestinian territories exceeds that of Hong Kong, or that more than a third of Lebanese entrepreneurs are women? Change is on its way in the Middle East, argues Bessma Momani, and its cause is demographic. Today, one in five Arabs is between the ages of fifteen and twenty-four. Young, optimistic, and increasingly cosmopolitan, their generation will shape the region's future. Drawing on interviews, surveys, and other research conducted with young people in fifteen countries across the Arab world, Momani describes the passion for entrepreneurship, reform, and equality among Arab youth. With insightful political analysis based on the latest statistics and first-hand accounts, Arab Dawn is an invigorating study of the Arab world and the transformative power of youth.

Princes, Brokers, and Bureaucrats Steffen Hertog, 2011-04-27 In Princes, Brokers, and Bureaucrats, the most thorough treatment of the political economy of Saudi Arabia to date, Steffen Hertog uncovers an untold history of how the elite rivalries and whims of half a century ago have shaped today's Saudi state and are reflected in its policies. Starting in the late 1990s, Saudi Arabia embarked on an ambitious reform campaign to remedy its long-term economic stagnation. The results have been puzzling for both area specialists and political economists: Saudi institutions have not failed across the board, as theorists of the rentier state would predict, nor have they achieved the all-encompassing modernization the regime has touted. Instead, the kingdom has witnessed a

bewildering mélange of thorough failures and surprising successes. Hertog argues that it is traits peculiar to the Saudi state that make sense of its uneven capacities. Oil rents since World War II have shaped Saudi state institutions in ways that are far from uniform. Oil money has given regime elites unusual leeway for various institutional experiments in different parts of the state: in some cases creating massive rent-seeking networks deeply interwoven with local society; in others large but passive bureaucracies; in yet others insulated islands of remarkable efficiency. This process has fragmented the Saudi state into an uncoordinated set of vertically divided fiefdoms. Case studies of foreign investment reform, labor market nationalization and WTO accession reveal how this oil-funded apparatus enables swift and successful policy-making in some policy areas, but produces coordination and regulation failures in others.

Youth in Saudi Arabia Talha H Fadaak, Ken Roberts, 2018-12-29 This book uses the youth life stage as a window through which to view all domains of life in present-day Saudi Arabia: family life, education, the impact of new media, the labour market, religion and politics. The authors draw extensively on their interviews with 25-35 year olds, selected so as to represent the life chances of males and females who grow up in different socio-economic strata, and typically face different futures. The book presents an account of the ways in which family life, education, religion, employment and the housing regimes interlock, and how and why this interlocking is subject to increasing stresses. The chapters, which are built on documentary research, official published statistics and the authors' original evidence, provide invaluable insights into Saudi youth, which has never before been examined in such depth. *Youth in Saudi Arabia* will be of interest to students and scholars across a range of disciplines including Sociology, Politics and Middle East Studies.

Healthcare Reform, Quality and Safety Jeffrey Braithwaite, Yukihiro Matsuyama, Julie Johnson, 2017-03-02 This book offers a global perspective on healthcare reform and its relationship with efforts to improve quality and safety. It looks at the ways reforms have developed in 30 countries, and specifically the impact national reform initiatives have had on the quality and safety of care. It explores how reforms drive quality and safety improvement, and equally how they act to negate such goals. Every country included in this book is involved in a reform and improvement process, but each takes place in a particular social, cultural, economic and developmental context, leading to differing emphases and varied progress. Methods for tackling common problems - financing, efficiencies, effectiveness, evidence-based practice, institutional reforms, quality improvement, and patient safety initiatives - also differ. Representatives from each nation provide a chapter to convey their own situation. The editors draw a conclusion from these numerous contributions and synthesize the themes emerging into a coherent 'lessons learned' summary that delivers value to the numerous stakeholders. Healthcare Reform, Quality and Safety forms a compendium of the current 'state of the art' in global healthcare reform. This is the first book of its type, and offers a unique opportunity for cross-fertilization of ideas to the mutual benefit of countries involved in the project. The content will be of interest to governments, policymakers, managers and leaders, clinicians, teaching academics, researchers and students.

Migration and the Crisis of the Modern Nation State? Frank Jacob, Adam Luedtke, 2018-01-10 The anthology explores the interrelationship between migration and a supposedly existent crisis of the modern nation state. The argument of such a crisis is mainly used by the New Right to stimulate nationalist feelings and provoke hate and aggression. We, in contrast to this perception, argue that from a historical and current perspective, migration is not endangering the nation state, but rather changing the idea of a nation itself by redefining it. In historical as well as current case studies, the authors determine the political dangers of right wing demagogues, while emphasizing the chances, immigration is offering the progress of the nation state. While it will be discussed how nationalism is impacting on the perception of migration, we also want to emphasize how it is perceived by the people in the specific regions, which are either confronted with migration or those which are not. The authors for the volume come from different fields, namely history and political sciences, and are consequently able to offer the reader a broad insight into the historical roots and the current consequences nationalism had or has on the

perception and the local as well as global policies towards migration. The analysis of particular immigrant groups (e.g. North Koreans in post-war Korea, South Asians in the Emirates, Middle Eastern refugees in Europe, Hispanics in the United States) as well as a close reading of crisis related media (newspapers and other media in Europe and the US) will, all in all, establish a broad perspective, due to which the reader will be able to compare and connect the national events to a larger global picture.
