David E. Mungello

Senses of the City Joseph S C Lam, 2017-03-15 From its first designation as temporary capital in 1138, the city of Hangzhou (then called Lin'an) was deemed representative of the diminished empire of the Song (960–1279), in all its contradictory aspects. The exquisite beauty of the city confirmed its destiny to become an imperial residence, but it also portended its fatal corruption. The wealth and ease of Hangzhou epitomized the vigor of the southern empire as well as its oblivious decadence. The city was paramount and feeble, aweinspiring and threatened, the most admired city in the civilized world and a disgrace to the dynastic founders. Rather than perpetuating the debate about the merit of these polemical judgments, the contributors of *Senses of the City* treat them as expressions of their historical moment, revealing of ideological conviction or aesthetic preference, rather than of historical truth. By reading the sources as expressions of individual experience and political conviction, the contributors defy the impassioned rhetoric of past generations in order to recover the solid ground of historical evidence. Leading scholars of the field, including Beverly Bossler, Stephen West, and Martin Powers have produced essays that relate changes in literary convention to shifts in territorial boundaries, and analyze writing, painting, dance, and music as means by which individual literati placed themselves in time and space. The contributors reestablish the historical connections between writing and meaningful action, between text and world, between the sources and their own words, and between the page and the senses. Their efforts to retrieve the sounds, sights, and smells of Hangzhou from Southern Song texts replicate, in reverse direction, the attempts of twelfth and thirteenth century authors to devise effective tropes and suitable genres that would preserve their living impressions of the city in writing.

23 Reasons to Fall in Love with Hangzhou Natasa P. Vujicic, 2022-06-09 Hangzhou is unlike any other city in the world. I am talking temples and caves, bamboo forests, inscriptions made by emperors themselves, remains of civilizations thousands of years old. You cannot help but wonder how it is that something like this is not known to EVERYONE in the world. How come this is not on the cover page of every travel magazine? After a while you realize that in a pearl necklace, another pearl is perfectly ordinary. To the people of Hangzhou, that "old thing" has been standing there since they can remember. The only new thing is your fascination. But to the rest of the world it is still a pearl, and Hangzhou is like a treasure chest. It is begging to be explored. If you are looking for what is extraordinary then this is a book for you. It will make you dive below the surface and come up with new understandings of tradition and culture built into the core of this magnificent city. It will guide you through places, eras, and wonders. Whether you are local or not, you will discover Hangzhou through a fresh pair of eyes – exciting, unpolished, and absolutely one of a kind.

The Communist Takeover of Hangzhou James Zheng Gao, 2004-01-01 Existing literature on the Chinese Revolution

takes into account the influence of peasant society on Mao's ideas and policies but rarely discusses a reverse effect of comparable significance: namely, how peasant cadres were affected by the urban environment into which they moved. In this detailed examination of the cultural dimension of regime change in the early years of the Revolution, James Gao looks at how rural-based cadres changed and were changed by the urban culture that they were sent to dominate. He investigates how Communist cadres at the middle and lower levels left their familiar rural environment to take over the city of Hangzhou and how they consolidated political control, established economic stability, developed institutional reforms, and created political rituals to transform the urban culture. His book analyzes the interplay between revolutionary and nonrevolutionary culture with respect to the varying degrees with which they resisted and adapted to each other. It reveals the essential role of cultural identity in legitimizing the new regime and keeping its revolutionary ideal alive. Based on extensive research in regional and local archives in Zhejiang province

By the Hills Embraced Stephen L. Koss, 2023 Hangzhou. The city on the lake. Sister city to Suzhou in the ancient Chinese adage: In the sky there is Heaven. On Earth are Suzhou and Hangzhou. In China, the city of Hangzhou occupies its own special place in the country's history and culture. Among the Chinese people, Hangzhou persists to the present day as one of the nation's most cherished cities and among its most popular tourist destinations. As the southern terminus of the Grand Canal, it was a capital city of imperial China for 150 years. Home to a million people at a time when London and Paris each barely reached 80,000, it was described by Marco Polo as "the greatest city which may be found in this world". Home of scholars, painters, poets, and playwrights. Centuries-long source of fabulous Chinese silks and one of the nation's finest teas. Birthplace of celebrated romance legends and operas. A city of temples and pagodas, but also of churches and mosques. By the mid-15th-Century, Hangzhou was truly an earthly paradise. The city and its West Lake are inextricably bound to one another in physical fact, historical evolution, and poetic imagination, like Paris with the Seine, London with the Thames, or Venice with its canals. When we speak of Hangzhou, we speak of many things: scenic beauty, cultural mythology, Buddhist temples and pagodas, classical poems and paintings, traditional literati culture, historical events, and famous persons from emperors to military and revolutionary heroes to extraordinary individuals from all walks of life. Until now, no single book in the English language introduces the city in a comprehensive way. With a keen eye for the pageant of history and a masterful gift of storytelling, Stephen L. Koss provides key cultural context in explaining why Hangzhou is so much more than a pretty body of water surrounded by rolling, verdant hills and

ancient pagodas. If you have not experienced Hangzhou, you have not experienced China.--

The Rise of West Lake Xiaolin Duan, 2020-04-30 Lovely West Lake, near scenic Hangzhou on China's east coast, has been celebrated as a major tourist site since the twelfth century. Now as then, visitors boat to its islands, stroll through its gardens, worship in its temples, and immortalize it in poetry and painting. Hangzhou and West Lake have long served as icons of Chinese landscape appreciation, literary and artistic expression, and tourism. In the first in-depth English-language study of this picturesque locale, Xiaolin Duan examines the interplay between human enterprise and the natural environment during the Song dynasty (960–1279). After the Song lost north China to the Jurchens and the imperial court fled south, a new capital was established at Hangzhou, making the area the national political and cultural center. West Lake became a model for idealized nature, fashioned by the diverse activities of its visitors. Duan shows how engagements in, on, and around West Lake influenced visitors' conceptualization of nature and sparked the emergence of the lake as a tourist destination, highlighting how the natural landscape played a role in shaping social and cultural constructs. Incorporating evidence from miscellanies, local and temple gazetteers, paintings, maps, poems, and anecdotes, *The Rise of West Lake* explores the complexity of the lake as an interactive site where ecological and economic concerns contended and where spiritual pursuits overlapped with aesthetic ones.

Cities of Jiangnan in Late Imperial China Linda Cooke Johnson, 1993-01-01 This book examines cities of the Jiangnan region of south-central China between the twelfth and nineteenth centuries, an area considered to be the model of a successfully developing regional economy. The six studies focus on the urban centers of Suzhou, Hangzhou, Yangzhou, and Shanghai. Emphasizing the regional focus, the authors explore the interconnections and sequential relationships between these major cities and analyze common themes such as the development of handicraft industry, transport and commerce, class structure, ethnic diversity and internal immigration, and the social and political pressures generated by developments in manufacturing, taxes, and government politics. The book provides a valuable resource on commercial development and internal economic and social development in pre-modern China, particularly on specific regional development and the historical role of traditional Chinese cities.
