**Hidden Camera** Zoran Živković,2005 An undertaker finds an invitation to a private showing of a movie stuck in his apartment door. Upon arrival at the theater, he discovers that there's only one other person in the audience, and when the movie turns out to be footage of him sitting in a park calmly eating his lunch, he becomes convinced that he's an unwitting participant in a sinister reality show, whose unseen cameras are determined to humiliate him in front of thousands of people. Certain that he's being filmed at every moment, he begins a bizarre odyssey through the dark and empty streets of his city, encountering increasingly absurd situations, becoming ever more paranoid and distrustful, and waiting for the opportunity to stage a rebellion against his hidden tormentors.--BOOK JACKET.

Hidden Cameras Joe Plomin,2016-02-21 The complete and authoritative guide to the use of hidden cameras to expose abuse or wrongdoing. Secret filming is no longer the preserve of specialists, professional journalists and private investigators. Drawing on the author's own experience producing undercover documentaries and wearing secret cameras, this book explains covert recording for the general public, including specific advice on the practicalities of using a phone or covert camera to record evidence. It considers the legal and ethical issues and provides vital information for anyone who may use or encounter secret filming, including the people or organisations that might be filmed, regulators, social workers, local government officials and anyone who may encounter it in court. It also looks to the future of covert filming and the implications of technological advances, such as drone cameras.

**Serengeti Spy** Anup Shah,2012-09-19 In these terrific action photos of wildlife on the African savannah in the Serengeti and the Massai Mara, Anup Shah reveals these creatures as never seen before, using remote hidden cameras that have been planted across the plains. This is life on the plains in all its dynamism, cruelty and vitality, the circle of life in action. Readers will find themselves literally face to face with hyenas as they feed on a kill, with elephants communing in a watering hold, playful lion cubs, wildebeests leaping across a ravine, inquisitive monkeys who have discovered the camera and gaze directly into the lens and cheetahs peering back under their tails towards the camera. Many of these animals have actually noticed the camera, mostly by the sound of it clicking away and their interest is clearly piqued; they're certainly not accustomed to encounters with a camera on the ground of their home turf. This is primarily a visual journey through the African plains, but captions written by the author will impart interesting facts about the animals, as well as any activity of interest that may have occurred while the photo was being taken.

**My Secret Camera** Frank Dabba Smith,2008-06-01 Mendel Grossman, one of the many Jews imprisoned in the Lodz Ghetto during World War II, was driven by a passion to bear witness to the human suffering that was going on around him. He secretly photographed people and events in the ghetto, leaving a historical record. In this photographic information book, the reader is taken on a journey with Grossman and his camera. The text emphasizes hope for the future, rather than the suffering of the past.

**Peter Weir's "The Truman Show": The Ultimate Hidden Camera Special** Nadine Klemens,2007-07-16 Seminar paper from the year 2002 in the subject Communications - Movies and Television, grade: 1,0 (A), Technical University of Braunschweig (English Seminar), course: HS Documentary Film, 16 entries in the bibliography, language: English, abstract: Through a spy hole in a bathroom cabinet we see a man in pajamas talking to himself in the mirror. Or is he talking to us? After a while, we hear a voice of a woman, telling him that he will be late. With a sigh, the man turns around and leaves the bathroom. On a black screen, we read Day 10, 909- then we see the man through another spy hole, dressed in a business suit, leaving his house for work. He greets his neighbors with a wide grin, and the neighbors enthusiastically greet back. As he adds Oh, and in case I don't see ye: Good afternoon, good evening and good night , they react as though they think this was extremely funny. When the dog of his next-door neighbor comes to greet him, the man freezes, on his face an expression of terror. He waits till the dog moves back and is about to get in his car when the camera suddenly pans and we see a theatrical light falling out of the sunny sky. Suspiciously, the man goes to examine what has crashed down on the street in front of his house. He does not know what to think of the light, which has a tag on it, designating it as Sirius. In disbelief, he gazes into the sky- is this how stars look like? The man is called Truman Burbank, and we are watching Peter Weir's movie The Truman Show (1998). The movie is not a typical feature film as it mixes feature film elements and docu-soap elements. By confronting his audience with elements of its daily TV-programming, the docu-soap, Peter Weir establishes a satire of the media that leaves its viewers with the uneasy feeling that reality is not always what it appears to be. This work gives a short summary of the movie, as well as it depicts its style and structure. Furthermore, Peter Weir's thematic concerns are explained. The

**The Ultimate Voyeur** Dennis S. Carroll,2010-11-18 Is it a case of genius or criminal behavior? Have a brilliant innkeeper and her husband, a retired wildlife photographer, relied on genius or hidden cameras to reveal the love lives of their guests? These questions stir the controversy at the center of The Ultimate Voyeur. The owners of a Southern inn renowned for hospitality, Catherine Morgan and her husband are uncanny in their way of breaching barriers that people hide behind. Each chapter of The Ultimate Voyeur explores the innkeepers personal story and includes an episode involving guests. One guest, a talented scriptwriter, learns about the several hundred files compiled by Catherine and turns them with the innkeepers help into a massively popular TV program airing once a week. The episodes unfold the hidden love lives of the guests, extending from ingenious bedroom farce (The Jinx in High Jinks) to passionate romance (The Ten-Million-Dollar Wedding Ring) to something sinister (Whodunit to the Famous Mystery Writer?). The portrayal of the mystery writer strikes too close to home. Infuriated at his loss of privacy and sure that hidden cameras are to blame, he finds ambiguous evidence at the inn and plots his vengeance. In his wild retaliation that transcends his cardboard characters, the separate realms of life and art explode on contact to reveal the innkeepers inmost secrets. At the climax, one is led to fundamental insights into secrets at the heart of everybody and the chaos or compassion that results from their disclosure.
