A Mouthful of Money Priti Khan,2022-06-14 The Indian Voice Over Industry has evolved into a significantly professional and diverse field over the years. But what is still missing is written and formalized literature - be it articles, blogs, magazines or books by industry professionals that detail every aspect, technique, process, etc. This book is a humble attempt to document several facets of the voicing world, especially, in the Indian context. Not all aspiring voice-over artists can afford personal coaching and mentoring, even if they have the passion and talent in them. When one enters the market without any formal training, it is as good as playing blindfolded darts. Often when someone explores the market but struggles to live up to the expectations, they give up and quit. This book hopes to demystify the art of voice acting and provide a platform for all budding voice-over artists to have a chance at becoming the next industry expert. A ready reckoner, this is a textbook for aspiring voice-over artists to understand the nuances of the voice, learn plenty of vocal exercises, voice culture, vocal tricks, and thus learn the knack of earning money with their voice.

Fast-Forwarding with Audiovisual Translation Jorge Díaz Cintas,Kristijan Nikolić,2017-12-14 This edited collection offers a rounded vision of some of the ways in which audiovisual translation (AVT) can be approached from an academic, professional and educational point of view. The studies provide a stimulating and thought-provoking account of some of the most representative themes that are currently being researched in the field of AVT, while also highlighting new directions of potential research from a cognitive perspective. A conscious effort has been made to cover not only cultural and linguistic approaches to traditional domains of AVT (such as dubbing and subtitling), but also to look into lesser known areas of research that are attracting substantial interest from various stakeholders and gradually becoming part of the remit of AVT (including subtitling for the deaf and audio description for the blind). In this respect, the chapters of this book tackle the field of AVT from a plural, comprehensive and up-to-date perspective; speak of a rich and complex academic subject in the making; broaden our existing knowledge on AVT; reflect the many crossroads and junctions it currently faces and outline some of the issues that will become topical in the near future in this fascinating, flourishing discipline.

Hindi Christian Literature in Contemporary India Rakesh Peter-Dass,2019-09-12 This is the first academic study of Christian literature in Hindi and its role in the politics of language and religion in contemporary India. In public portrayals, Hindi has been the language of Hindus and Urdu the language of Muslims, but Christians have been usually associated with the English of the foreign 'West'. However, this book shows how Christian writers in India have adopted Hindi in order to promote a form of Christianity that can be seen as Indian, desi, and rooted in the religio-linguistic world of the Hindi belt. Using three case studies, the book demonstrates how Hindi Christian writing strategically presents Christianity as linguistically Hindi, culturally Indian, and theologically informed by other faiths. These works are written to sway public perceptions by promoting particular forms of citizenship in the context of fostering the use of Hindi. Examining the content and context of Christian attention to Hindi, it is shown to have been deployed as a political and cultural tool by Christians in India. This book gives an important insight into the link between language and religion in India. As such, it will be of great interest to scholars of Religion in India, World Christianity, Religion and Politics and Interreligious Dialogue, as well as Religious Studies and South Asian Studies.

Ritual, Performance and the Senses Michael Bull, Jon P. Mitchell, 2020-05-18 Ritual has long been a central concept in anthropological theories of religious transmission. Ritual, Performance and the Senses offers a new understanding of how ritual enables religious representations – ideas, beliefs, values – to be shared among participants. Focusing on the body and the experiential nature of ritual, the book brings together insights from three distinct areas of study: cognitive/neuroanthropology, performance studies and the anthropology of the senses. Eight chapters by scholars from each of these sub-disciplines investigate different aspects of embodied religious practice, ranging from philosophical discussions of belief to explorations of the biological processes taking place in the brain itself. Case studies range from miracles and visionary activity in Catholic Malta to meditative practices in theatrical performance and include three pilgrimage sites: the Church of the Holy Sepulchre in Jerusalem, the festival of Ramlila in Ramnagar, India and the mountain shrine of the Lord of the Shiny Snow in Andean Peru. Understanding ritual allows us to understand processes at the very centre of human social life and humanity itself, making this an invaluable text for students and scholars in anthropology, cognitive science, performance studies and religious studies.

River of Fire Pinaki Poddar, 2021-09-08 'River of Fire' is a story of several characters, apparently dissimilar in their backgrounds, migrating to different parts of the world. For different reasons: Love, Hope, Greed, Revenge. The story explores a tumultuous time in corporate corridors of Silicon Valley at California or Bangalore, war-torn Serbian mountains, placid villages of Bengal, glitz and pathos of Bombay. The characters' path eventually cross -- often with violent outcomes. Still, the story reasserts human dignity and love over violence and greed. It asks: can a man be both good and strong?
