Our Lady of the Flowers Jean Genet,1994-01-12 The shattering novel of underground life the New York Times called “a cry of rapture and horror . . . the purest lyrical genius.” Jean Genet’s debut novel *Our Lady of the Flowers*, which is often considered to be his masterpiece, was written entirely in the solitude of a prison cell. A semi- autobiographical account of one man’s journey through the Paris demi-monde, dubbed “the epic of masturbation” by no less a figure than Jean-Paul Sartre, the novel’s exceptional value lies in its exquisite ambiguity.

The Life of August Wilhelm Schlegel, Cosmopolitan of Art and Poetry Roger Paulin,2016-02-01 This is the first full-scale biography, in any language, of a towering figure in German and European Romanticism: August Wilhelm Schlegel whose life, 1767 to 1845, coincided with its inexorable rise. As poet, translator, critic and oriental scholar, Schlegel's extraordinarily diverse interests and writings left a vast intellectual legacy, making him a foundational figure in several branches of knowledge. He was one of the last thinkers in Europe able to practise as well as to theorise, and to attempt to comprehend the nature of culture without being forced to be a narrow specialist. With his brother Friedrich, for example, Schlegel edited the avant-garde Romantic periodical *Athenaeum*; and he produced with his wife Caroline a translation of Shakespeare, the first metrical version into any foreign language. Schlegel's Lectures on Dramatic Art and Literature were a defining force for Coleridge and for the French Romantics. But his interests extended to French, Italian, Spanish and Portuguese literature, as well to the Greek and Latin classics, and to Sanskrit. August Wilhelm Schlegel is the first attempt to engage with this totality, to combine an account of Schlegel’s life and times with a critical evaluation of his work and its influence. Through the study of one man's rich life, incorporating the most recent scholarship, theoretical approaches, and archival resources, while remaining easily accessible to all readers, Paulin has recovered the intellectual climate of Romanticism in Germany and traced its development into a still-potent international movement. The extraordinarily wide scope and variety of Schlegel's activities have hitherto acted as a barrier to literary scholars, even in Germany. In Roger Paulin, whose career has given him the knowledge and the experience to grapple with such an ambitious project, Schlegel has at last found a worthy exponent.

Cargo Cult Lamont Lindstrom,2019-03-31 Who is not captivated by tales of Islanders earnestly scanning their watery horizons for great fleets of cargo ships bringing rice, radios and refrigerators - ships that will never arrive? Of all the stories spun about the island peoples of Melanesia, tales of cargo cult are among the most fascinating. The term cargo cult, Lamont Lindstrom contends, is one of anthropology's most successful conceptual offspring. Like culture, worldview and ethnicity, its usage has steadily proliferated, migrating into popular culture where today it is used to describe an astonishing roll-call of people. Its history makes for lively and compelling reading. The cargo cult story, Lindstrom shows, is more significant than it at first appears, for it recapitulates in summary form three generations of anthropological theory and Pacific studies. Although anthropologists' enthusiasm for the notion of cargo cult has waned, it now colors outsiders' understanding of Melanesian culture, and even Melanesians' perceptions of themselves. The repercussions for contemporary Islanders are significant: leaders of more than one political movement have felt the need to deny that they are any kind of cargo cultist. Of particular interest to this history is Lindstrom's argument that accounts of cargo cult are at heart tragedies of thwarted desire, melancholy anticipation and crazy unrequited love. He makes a convincing case that these stories expose powerful Western scenarios of desire itself—giving cargo cult its combined titillation of the fascinating exotic and the comfortably familiar.

The Imagery of Interior Spaces Michael J. Kelly,Dominique Bauer,2019 On the unstable boundaries between interior and exterior, private and public, and always in some way relating to a beyond, the imagery of interior space in literature reveals itself as an often disruptive code of subjectivity and of modernity. The wide variety of interior spaces elicited in literature -- from the odd room over the womb, secluded parks, and train compartments, to the city as a world under a cloth -- reveal a common defining feature: these interiors can all be analyzed as codes of a paradoxical, both assertive and fragile, subjectivity in its own unique time and history. They function as subtexts that define subjectivity, time, and history as profoundly ambiguous realities, on interchangeable existential, socio-political, and epistemological levels. This volume addresses the imagery of interior spaces in a number of iconic and also lesser known yet significant authors of European, North American, and Latin American literature of the nineteenth, twentieth, and twenty-first centuries: Djuna Barnes, Edmond de Goncourt, William Faulkner, Gabriel García Márquez, Benito Pérez Galdós, Elsa Morante, Robert Musil, Jules Romains, Peter Waterhouse, and Émile Zola.

The Violence of Modernity Debarati Sanyal,2020-03-03 The Violence of Modernity turns to Charles Baudelaire, one of the most canonical figures of literary modernism, in order to reclaim an aesthetic legacy for ethical inquiry and historical critique. Works of modern literature are commonly theorized as symptomatic responses to the trauma of history. In a climate that tends to privilege crisis over critique, Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential. Examining Baudelaire's poems afresh, she shifts the focus of critical attention toward an account of modernism as an active engagement with violence, specifically the violence of history in nineteenth-century France. Sanyal analyzes a literary current that uses the traditional hallmarks of modernism—irony, intertextuality, self-reflexivity, and formalism—to challenge the historical violence of modernity. Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history, and thereby to challenge the melancholy tenor of our contemporary wound culture. In a series of provocative readings, Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity, counterviolence, and critique. The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art's sake and from his more recent incarnation as the poet of trauma. Following her extended analysis of Baudelaire's poetry, Sanyal in later chapters considers a number of authors influenced by his strategies—including Rachilde, Virginie Despentes, Albert Camus, and Jean-Paul Sartre—to examine the relevance of their interventions for our current climate of trauma and terror. The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.

The Optical Unconscious Rosalind E. Krauss,1994-07-25 The Optical Unconscious is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of vision itself. And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective

detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. The Optical Unconscious will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about smart Jewish girls with their typewriters in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as Anti-Form. These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

The Structures of the Film Experience by Jean-Pierre Meunier Julian Hanich, Daniel Fairfax, 2019 For the first time this volume makes Jean-Pierre Meunier's insightful thoughts on the film experience available for an English-speaking readership. Introduced and commented by specialists in film studies and philosophy, Meunier's intricate phenomenological descriptions of the spectator's engagement with fiction films, documentaries and home movies can reach the wide audience they have deserved ever since their publication in French in 1969.

Words in Blood, Like Flowers ,2006-01-01 Why did Nietzsche claim to have written in blood? Why did Heidegger remain silent after World War II about his participation in the Nazi Party? How did Hölderlin's voice and the voices of other, more ancient poets come to echo in philosophy? Words in Blood, Like Flowers is a classical expression of continental philosophy that critically engages the intersection of poetry, art, music, politics, and the erotic in an exploration of the power they have over us. While focusing on three key figures—Hölderlin, Nietzsche, and Heidegger—this volume covers a wide range of material, from the Ancient Greeks to the vicissitudes of the politics of our times, and approaches these and other questions within their hermeneutic and historical contexts. Working from primary texts and a wide range of scholarly sources in French, German, and English, this book is an important contribution to philosophy's most ancient quarrels not only with poetry, but also with music and erotic love.

Pots & Plays Oliver Taplin, 2007-10-15 This interdisciplinary study opens up a fascinating interaction between art and theater. It shows how the mythological vase-paintings of fourth-century B.C. Greeks, especially those settled in southern Italy, are more meaningful for those who had seen the myths enacted in the popular new medium of tragedy. Of some 300 relevant vases, 109 are reproduced and accompanied by a picture-by-picture discussion. This book supplies a rich and unprecedented resource from a neglected treasury of painting.

The Metaphorical Brain Seana Coulson, Vicky T. Lai, 2016-03-09 Metaphor has been an issue of intense research and debate for decades (see, for example [1]). Researchers in various disciplines, including linguistics, psychology, computer science, education, and philosophy have developed a variety of theories, and much progress has been made [2]. For one, metaphor is no longer considered a rhetorical flourish that is found mainly in literary texts. Rather, linguists have shown that metaphor is a pervasive phenomenon in everyday language, a major force in the development of new word meanings, and the source of at least some grammatical function words [3]. Indeed, one of the most influential theories of metaphor involves the suggestion that the commonality of metaphoric language results because cross-domain mappings are a major determinant in the organization of semantic memory, as cognitive and neural resources for dealing with concrete domains are recruited for the conceptualization of more abstract ones [4]. Researchers in cognitive neuroscience have explored whether particular kinds of brain damage are associated with metaphor production and comprehension deficits, and whether similar brain regions are recruited when healthy adults understand the literal and metaphorical meanings of the same words (see [5] for a review). Whereas early research on this topic focused on the issue of the role of hemispheric asymmetry in the comprehension and production of metaphors [6], in recent years cognitive neuroscientists have argued that metaphor is not a monolithic category, and that metaphor processing varies as a function of numerous factors, including the novelty or conventionality of a particular metaphoric expression, its part of speech, and the extent of contextual support for the metaphoric meaning (see, e.g., [7], [8], [9]). Moreover, recent developments in cognitive neuroscience point to a sensorimotor basis for many concrete concepts, and raise the issue of whether these mechanisms are ever recruited to process more abstract domains [10]. This Frontiers Research Topic brings together contributions from researchers in cognitive neuroscience whose work involves the study of metaphor in language and thought in order to promote the development of the neuroscientific investigation of metaphor. Adopting an interdisciplinary perspective, it synthesizes current findings on the cognitive neuroscience of metaphor, provides a forum for voicing novel perspectives, and promotes avenues for new research on the metaphorical brain. Testimony Solomon Volkov, 2021-05-04 The acclaimed classical composer chronicles his life and work in twentieth-century Soviet Russia with the help of a distinguished musicologist. Since the time of his death, Dmitri Shostakovich's place in the pantheon of twentieth-century composers has become more commanding and more celebrated, while his musical legacy, with all its wonderfully varied richness, is performed with increasing frequency throughout the world. This seemingly endless surge of interest can be attributed, at least in part, to Testimony, the powerful memoirs the ailing composer dictated to the young Russian musicologist Solomon Volkov. When Testimony was first published in the West in 1979, it became an international bestseller, and was called the "book of the year" by The Times in London. The Guardian heralded Testimony as "the most influential music book of the 20th century." Testimony offers a chance to reckon with the life and work of one of history's most lauded musical geniuses—as a man and an artist.

The Transformation of the World Jürgen Osterhammel, 2015-09-15 A panoramic global history of the nineteenth century A monumental history of the nineteenth century, The Transformation of the World offers a panoramic and multifaceted portrait of a world in transition. Jürgen Osterhammel, an eminent scholar who has been called the Braudel of the nineteenth century, moves beyond conventional Eurocentric and chronological accounts of the era, presenting instead a truly global history of breathtaking scope and towering erudition. He examines the powerful and complex forces that drove global change during the long nineteenth century, taking readers from New York to New Delhi, from the Latin American revolutions to the Taiping Rebellion, from the perils and promise of Europe's transatlantic labor markets to the hardships endured by nomadic, tribal peoples across the planet. Osterhammel describes a world increasingly networked by the telegraph, the steamship, and the railways. He explores the changing relationship between human beings and nature, looks at the importance of cities, explains the role slavery and its abolition played in the emergence of new nations, challenges the widely held belief that the nineteenth century witnessed the triumph of the nation-state, and much more. This is the highly anticipated English edition of the spectacularly successful and critically acclaimed German book, which is also being translated into Chinese, Polish, Russian, and French. Indispensable for any historian, The Transformation of the World sheds important new light on this momentous epoch, showing how the nineteenth century paved the way for the global catastrophes of the twentieth century, yet how it also gave rise to pacifism, liberalism, the trade union, and a host of other crucial developments.

Le futur passé Sabina Loriga, Reinhart Koselleck, 2016-05-11 Les essais réunis dans Le futur passé proposent des réflexions précieuses et peut-être plus libres que celles d'autres ouvrages de Koselleck, tout du moins en ce qui concerne trois sujets : l'histoire conceptuelle, la théorie de la modernité et la théorie des temps historiques. Les analyses sémantiques présentées ici ne portent pas essentiellement sur l'histoire de la langue, précise l'auteur. Elles s'attachent à la structure linguistique des expériences temporelles, là où celles-ci sont ancrées dans la réalité passée. Ces analyses s'élargissent au champ social et linguistique, tout en essayant de passer de la sémantique des concepts à la dimension historique et anthropologique inhérente à tout acte de langage. Le livre que l'on présente aujourd'hui est déjà reconnu comme un texte de référence par la communauté internationale des philosophes comme des historiens.

Thérèse and Isabelle Violette Leduc, 2015-06-08 Two French schoolgirls discover obsessive pleasures in repressed secrets in this “masterpiece on the tyranny of love” (Independent, UK). “Violette Leduc was Simone de Beauvoir’s protegee, an erotic writer to match Jean Genet and a feminist tour de force” (Rafia Zakaria, The Guardian). With this startling new translation of Leduc’s hidden classic, the groundbreaking Thérèse and Isabelle proves an authentic and liberating exploration of queer sensibilities, which still stands as “one of the greatest examples of French-Language erotic literature” ever written (Times Literary Supplement). Censored for half a century for its vivid depiction of budding female sexuality, this is the “dark and luminous” (Nicole Borssard) novel of two young women in the consuming and at times frightening throes of first love. Navigating their schoolgirl relationship becomes a rapturous secret, as they sneak away from repressive boundaries to go beyond the limits of friendship with “all the raw urgency of female adolescent sexuality: its energy and intensity, the push-pull of excitement, its dangers and glories” (Kate Millett, award-winning author of Sexual Politics and Mother Millett). Filmed in 1968 by Radley Metzger, starring Essy Persson and Anna Gaël, Thérèse and Isabelle is finally available as it was intended to be read. “I have waited a very long time to slip back into the unexpurgated, delicious darkness with these iconic lesbian lovers” (Amber Dawn, Lambda Literary Award-winning author Sodom Road Exit).

Anarchism in Latin America Ángel J. Cappelletti, 2018-02-13 The available material in English discussing Latin American anarchism tends to be fragmentary, country-specific, or focused on single individuals. This new translation of Ángel Cappelletti's wide-ranging, country-by-country historical overview of anarchism's social and political achievements in fourteen Latin American nations is the first book-length regional history ever published in English. With a foreword by the translator. Ángel J. Cappelletti (1927–1995) was an Argentinian philosopher who taught at Simon Bolivar University in Venezuela. He is the author of over forty works primarily investigating philosophy and anarchism. Gabriel Palmer-Fernandez is Distinguished Professor of Philosophy and Religious Studies at Youngstown State University.
