Be CentsAble Chrissy Pate,Kristin McKee,2010-03-30
As seen on Good Morning America and successfully adopted by thousands of subscribers, this easy-to-use system will help slash any household budget Now more than ever, people are desperate to save money without scrimping on every little purchase or sacrificing their lifestyle. Like most Americans, stay-at-home moms Chrissy Pate and Kristin McKee spent the lion's share of their budgets on what they assumed to be static costs such as groceries and utilities. But when using traditional couponing and cheapskate guides didn't help their budgets shrink by a dime, Pate and McKee decided to come up with their own way to save. Within a few months, their household expenses dropped by more than half-from spending \$800 each per month to less than \$350! only a few years after developing their be centsable system, Pate and McKee have helped thousands of subscribers save money without spending hours finding and cutting coupons, or giving up extras like travel and entertainment. In this prescriptive guide, these authors show how anyone can save thousands of dollars on cleaning supplies, pet care, toys, travel, and most importantly, groceries-without giving up healthy foods, favorite products, or the occasional splurge.

Best Household Budget Log Therlee Gipson,2012-04-05
I created this Best Household Budget Log after years of not

really knowing where all the money was going. If you don't get into the habit of writing down your expenditures you will suffer with credit card debt. It is painful not having enough money to pay your bill at the end of the month. You will become addicted to robbing Peter to pay Paul. Several tools are helpful for constructing a personal budget.

Regardless of the tool used, a budget's accuracy is only as good as the accuracy of the updated budget data; an old budget that does not reflect actual income or expenses is of little use to a current budget. Computer generated budgets have become commonly used as they replace the need to rewrite and recalculate the budget every time there is a change. A simpler budget tool, such as my Best Household Budget Log can be written with a pencil, and optionally, a calculator. Your budgets can be organized by filling in the blanks. It is just as simple as that.

Spreadsheet software, including Microsoft Excel, iWork Numbers or OpenOffice.org Calc, help to arrange budgets according to need and performs calculations easily with rudimentary formulas. For example, budget spreadsheets are used to keep track of income and expenses. The major reason most people discontinue using budget spreadsheets that don't offer date-shifting is that the information needs to be reentered or moved at the end of each month.

Spreadsheets are still excellent for complex budgets and planning. You can buy software or subscribe to online budgeting programs, but it costs money, requires sitting at the computer, and is usually more complicated than necessary. What Can You Achieve by buying Best Household Budget Log ? Besides seeing in clear daylight where each dollar is going, you'll be able see the big picture which will help you arrive at your saving philosophy. Here are just a few of the benefits of keeping a daily budget: Incidental spending or blow off small

expenses is not so easy to forget when you know you'll have to suffer the consequences, not seeing where the money is going. Every Dollar Counts. Accountability & Teamwork with a cooperating family adds to the bottom line. Avoid being a spendthrift and be wise when spending money. Do comparison shopping, name brand isn't necessary the best option. If possible always buy only what you really use. Thank you, Therlee Gipson
