

Hungrytigers

Christina Wilsdon

Hungry Tigers Gary Swoboda, 2009-04 Hungry Tigers is a sometimes-tragic, often-humorous, but always-forthright depiction of the author's years of addiction and the recovery that saved his life. From experimentation with drugs in the late sixties to a series of shock treatments in a psych ward in the early seventies, the author openly relates the fears, anxieties, and depression that led him there. Finding no relief through accepted medical means, he embarked on a lengthy journey of alcohol and drug abuse, culminating in an addiction to heroin that shattered any lingering illusions of a functional existence. There is light at the end of the tunnel, however, as this seemingly hopeless addict finds sobriety at a time when some who are heartbreakingly close to him find only devastation.

O'Brien, 1986 En meget erfaren jagerpilots fyldige fremstilling af udførelsen af især taktiske luftoperationer, men også af luftkamp i almindelighed, baseret på erfaring og viden fra Vietnam, Mellemøsten og Falklandsøerne. Endvidere en vurdering af den forventede udvikling.

Tigers In Red Weather Ruth Padel, 2009-05-26 Poet, writer, and descendant of Charles Darwin, Ruth Padel set out to visit a tropical jungle and wildlife sanctuary in India-- and her visit turned into a remarkable two-year journey through eleven countries in search of that most elusive and most beautiful animal: the tiger. Armed with her grandmother's opera glasses and Tunisian running

shoes, she set off across Asia to ask the question: can the tiger be saved from extinction in the wild? Tigers are an umbrella species, they need everything in the forest to work in tandem: they eat deer, the deer need vegetation, the vegetation has to be pollinated by birds, mammals, rodents and butterflies. If you save the tiger, you save everything else. Today, the 5,000 tigers that still survive in the wild live only in Asia and are scattered throughout 14 countries. Padel says that while tigers will never become extinct—they are too popular for that—they may disappear from the wild. There are as many tigers in cages in the US as there are surviving tigers in the wild. As she travels she meets the defenders of the wild—the heroic scientists, forest guards and conservationists at the frontline, fighting to save tigers and their forests from destruction in the places where poverty threatens to wipe out all wildlife. She also examines her fascination (both as a poet and as the great-great-granddaughter of Charles Darwin) with nature, wildness and survival and in the end, becomes a knowledgeable advocate for the tiger. The result is a beautiful blend of natural history, travel literature and memoir, and a searing, intimate portrait of an animal we have loved and feared almost to extinction.

The Tiger and the Leopardess Ho Khong Ming, 2016-01-20

An old hungry tiger is on the hunt for a meal. As darkness encroaches on the Malaysian jungle, the tiger hears a noise in the underbrush. While he hides behind a tree stump, the creature seems to creep away into the night. But just as he emerges from his hiding spot, he sees the eyes of a black leopard. Who dares stalk the king of the jungle? After the leopard runs off, the tiger, who is reluctant to take risks at his age, decides not to pursue it. As he continues his quest for food, the tiger is soon successful in capturing a meal. Now satiated, the tiger settle near a glade as dusk approaches once again. When he sees the leopard sitting across the glade, the tiger soon realizes it is a female and she is in

heat. In a jungle devoid of male leopards, the leopardess lies in wait, knowing the tiger is her nemesis. But as the tiger begins to leave her portions from his hunts, the leopardess is left wondering whether she can trust her mortal enemy. In this poignant folk tale, an old tiger and a suspicious leopardess meet in a jungle where they must decide whether hate or love will dominate their relationship.
