**Pass of Fire** Taylor Anderson,2020-04-28 After being transported to a strange alternate Earth, Matt Reddy and the crew of the USS Walker have learned desperate times call for desperate measures, in the return to the New York Times bestselling Destroyermen series. Time is running out for the Grand Human and Lemurian Alliance. The longer they take to prepare for their confrontations with the reptilian Grik, the Holy Dominion, and the League of Tripoli, the stronger their enemies become. Ready or not, they have to move--or the price in blood will break them. Matt Reddy and his battered old destroyer USS Walker lead the greatest army the humans and their Lemurian allies have ever assembled up the Zambezi toward the ancient Grik capital city. Standing against them is the largest, most dangerous force of Grik yet gathered. On the far side of the world, General Shinya and his Army of the Sisters are finally prepared for their long-expected assault on the mysterious El Paso del Fuego. Not only is the dreaded Dominion ready and waiting for them; they've formed closer, more sinister ties with the fascist League of Tripoli. Everything is on the line in both complex, grueling campaigns, and the Grand Alliance is stretched to its breaking point. Victory is the only option, whatever the cost, because there can be no second chances.

**Revolution as a Process** Adham Hamed,2014-06-16 As Egyptian society stands at a point of extreme polarization, this book about the Egyptian Revolution makes an important contribution to current debates about the Arab uprisings by bringing together theoretical and practitioner's perspectives. The clear aim of this edited volume of the series Contemporary Studies on the MENA Region is not to construct a singular narrative about the revolution but rather to highlight the multiplicity and complexity of perspectives and theoretical lenses. Consequently, this book brings together authors from diverse academic and cultural backgrounds, from the Middle East and the Global North, to raise their voices. This publication addresses scholars of the social sciences, peace and conflict research as well as anyone interested in developing a better understanding of the political situation in Egypt. "It is rather easy to say no to a dictator, a ruler or a political system, but it is exhausting to build a new society. This requires the constant effort of dedicated generations. [...] This book embraces not a master plan for a better future but it reflects from where this splendid young generation has to start anyway, the thorny challenges that are waiting for them on their path, the uncertainty of social or political reward." – Professor DDr. Wolfgang Dietrich, Director, UNESCO Chair for Peace Studies, University of Innsbruck Adham Hamed is a Cairo-based peace and conflict researcher. In his work he focuses on transrational peace philosophy and elicitive conflict transformation as it has been developed at the Innsbruck School of Peace Studies.

*Authentically Emergent* R. Scott Smith,2018-08-08 Are Brian McLaren, Tony Jones, Doug Pagitt, and Rob Bell "yesterday's news," as many evangelicals seem to think? Truth and the New Kind of Christian (2005) tried to provide a balanced assessment of McLaren's and Jones's views. But, they seem to be right about much more that is affecting evangelicals than was realized then. Also, that book misunderstood one of their core claims: everything is interpretation. Moreover, their views have developed over the years, e.g., ethically about colonialism, its influences, and how we should live now. They also have advanced several further claims about the gospel and traditional doctrines. To what extent should Christians embrace their views? Are these the ways to go forward toward a more authentic Christianity, one that is morally better, and a better fit, for our times? Like Truth, this book gives careful attention to their thought. It also offers its own portrait of major shaping influences on Western, Americanized Christianity. But, there remains a root issue that keeps the Western church, whether progressive emergents or evangelicals, in its "Babylonian captivity." It is liberation from that root that will lead to an authentically emergent Christianity.

**The Political Economy and Media Coverage of the European Economic Crisis** Julien Mercille,2014-08-27 The European economic crisis has been ongoing since 2008 and while austerity has spread over the continent, it has failed to revive economies. The media have played an important ideological role in presenting the policies of economic and political elites in a favourable light, even if the latter's aim has been to shift the burden of adjustment onto citizens. This book explains how and why, using a critical political economic perspective and focusing on the case of Ireland. Throughout, Ireland is compared with contemporary and historical examples to contextualise the arguments made. The book covers the housing bubble that led to the crash, the rescue of financial institutions by the state, the role of the European institutions and the International Monetary Fund, austerity, and the possibility of leaving the eurozone for Europe's peripheral countries. Through a systematic analysis of Ireland's main newspapers, it is argued that the media reflect elite views and interests and downplay alternative policies that could lead to more progressive responses to the crisis.

*Hypersonic Missile Nonproliferation* Richard H. Speier,George Nacouzi,Carrie Lee,Richard M. Moore,2017-09-27 Hypersonic missiles--specifically hypersonic glide vehicles and hypersonic cruise missiles--are a new class of threat because they are capable both of maneuvering and of flying faster than 5,000 kilometers per hour. These features enable such missiles to penetrate most missile defenses and to further compress the timelines for a response by a nation under attack. missiles are being developed by the United States, Russia, and China. Their proliferation beyond these three could result in other powers setting their strategic forces on hair-trigger states of readiness. And such proliferation could enable other powers to more credibly threaten attacks on major powers. diffusion of hypersonic technology is under way in Europe, Japan, Australia, and India--with other nations beginning to explore such technology. Proliferation could cross multiple borders if hypersonic technology is offered on world markets. probably less than a decade available to substantially hinder the potential proliferation of hypersonic missiles and associated technologies. To this end, the report recommends that (1) the United States, Russia, and China should agree not to export complete hypersonic missile systems or their major components and (2) the broader international community should establish controls on a wider range of hypersonic missile hardware and technology--Publisher's description.

**Pro: Reclaiming Abortion Rights** Katha Pollitt,2014-10-14 A POWERFUL ARGUMENT FOR ABORTION AS A MORAL RIGHT AND SOCIAL GOOD BY A NOTED FEMINIST AND LONGTIME COLUMNIST FOR THE NATION Forty years after the landmark Roe v. Wade ruling, abortion is still a word that is said with outright hostility by many, despite the fact that one in three American women will have terminated at least one pregnancy by menopause. Even those who support a woman's right to an abortion often qualify their support by saying abortion is a bad thing, an agonizing decision, making the medical procedure so remote and radioactive that it takes it out of the world of the everyday, turning an act that is normal and necessary into something shameful and secretive. Meanwhile, with each passing day, the rights upheld by the Supreme Court are being systematically eroded by state laws designed to end abortion outright. In this urgent, controversial book, Katha Pollitt reframes abortion as a common part of a woman's reproductive life, one that should be accepted as a moral right with positive social implications. In Pro, Pollitt takes on the personhood argument, reaffirms the priority of a woman's life and health, and discusses why terminating a pregnancy can be a force for good for women, families, and society. It is time, Pollitt argues, that we reclaim the lives and the rights of women and mothers.
