Descriptive Catalogue of Photographs of North American Indians William Henry Jackson,1877 This descriptive catalog is intended to systematize the collection of photographic portraits of Indians now in the possession of the United States Geological Survey of the Territories, and to place on record all the information obtained of the various individuals and scenes represented. It is of course far from complete; but it is a beginning, and every new fact that comes to light will be added to what has already been secured. This information has been gathered from many sources, principally from Indian delegates visiting Washington, and by correspondence with agents and others living in the Indian country. Particular attention has been paid to proving the authenticity of the portraits of the various individuals represented, and it is believed that few, if any, mistakes occur in that respect. All the photographs are numbered, and as these numbers do not occur in regular order, in the text a Numerical Index is appended, by means of which the name of any picture, and the page on which the subject is treated, may be found.

**Descriptive Catalogue of Photographs of North American Indians (Classic Reprint)** William Henry Jackson,2015-07-20

*Descriptive Catalogue of Photographs of North American Indians* W. H.

Jackson, 2015-06-12 Excerpt from *Descriptive Catalogue of Photographs of North American Indians* As a rule, front and profile views have been secured whenever practicable. Usually it is only when an Indian is subjected to confinement that those measurements of his person which are suitable for anthropological purposes can be secured. In most cases the Indian will not allow his person to be handled at all, nor submit to any inconvenience whatever. Much tact and perseverance are required to overcome his superstitious notions, and in many cases, even of the most noted chiefs of several tribes, no portrait can be obtained by any inducement whatever. If, therefore, the collection fails to meet the full requirements of the anthropologist, it must be remembered that the obstacles in the way of realizing his ideal of a perfect collection are insurmountable. About two hundred of the portraits, or one-fifth of the whole collection, have been derived from various sources, and most of these are pictures of Indians composing the several delegations that have visited Washington from time to time during the past ten years. Such individuals are usually among the most prominent and influential members of the respective tribes, of which they consequently furnish the best samples. The greater portion of the whole collection is derived from the munificent liberality of William Blackmore, esq., of London, England, the eminent anthropologist who has for many years studied closely the history, habits, and manners of the North American Indians. The Blackmore portion of the collection consists of a number of smaller lots from various sources; and it is Mr. Blackmore's intention to enlarge it to include, if possible, all the tribes of the North American continent. The entire collection, at the present time consisting of upward of a thousand negatives, represents ten leading families of Indians, besides seven independent tribes, the families being divisible into fifty-four tribes, subdivision of which gives forty-three bands. The collection continues to increase as opportunity offers. The present Catalogue, prepared by Mr. W. H. Jackson, the well-known and skilful photographer of the Survey, is far more than a mere enumeration of the negatives. It gives in full, yet in concise and convenient form, the information which the Survey has acquired respecting the subjects of the pictures, and is believed to represent an acceptable contribution to anthropological literature. Indian Territory Business Guide for the Homeseeker and Investor James William Hale, 2017-07-31 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. *Tribal Names of the Americas* Patricia Roberts Clark, 2009-10-21 Scholars have long worked to identify the names of tribes and other groupings in the Americas, a task made difficult by the sheer number of indigenous groups and the many names that have been passed down only through oral tradition. This book is a compendium of tribal names in all their variants--from North, Central and South America--collected from printed sources. Because most of these original sources reproduced words that had been encountered only orally, there is a great deal of variation. Organized alphabetically, this book collates these variations, traces them to the spellings and forms that have become standardized, and supplies see and see also references. Each main entry includes tribal name, the parent group or ancestral tribe, original source for the tribal name, and approximate location of the name in the original source material.
