Organized around the central management functions—planning, organizing, leading, and controlling—this third edition addresses the Common Professional Component topics outlined by the Commission on Sport Management Accreditation (COSMA). The text explains important concepts but then takes the student beyond theories, to applying those management principles and developing management

skills. Applying the Concept and Time-Out sidebars offer opportunities for critical thinking by having the student think about how specific concepts relate to a sport situation or to the student's actual experiences in sports, including part-time jobs, full-time jobs, internships, and volunteer work. Self-Assessment exercises offer insight into students' strengths and weaknesses and how to address shortcomings. An enhanced web study guide is integrated with the text to facilitate a more interactive setting with which to complete many of the learning activities. Several of the exercises require students to visit a sport organization and answer questions to gain a better understanding of sport management. Skill-

Builder Exercises present a variety of scenarios and provide step-by-step guidance on handling day-to-day situations such as setting priorities, conducting job interviews, handling conflict, and coaching employees to better performance. Sports and Social Media Exercises offer Internet-based activities that expose students to the role of social media in managing a sport organization. Students are required to use popular social media sites such as Facebook, Twitter, and LinkedIn and visit sport websites. Game Plan for Starting a Sport Business cases put students in the driver's seat and ask them to perform managerial activities such as developing an organization structure and formulating ideas on how to lead their employees. The web study guide allows students to complete most of the learning activities online or download them and then submit them to the instructor. Undeterred, Pagano didn't let the confines of his
