*Internet Marketing, Start-to-finish* Catherine Juon, Dunrie Allison Greiling, Catherine Buerkle, 2011 This book is designed to help companies view Internet marketing strategically, bring together marketing, sales and operations functions that were previously separate and siloed, and systematically capture and apply data to drive dramatic improvements in performance. Drawing on their extensive experience with enterprise clients, Catherine Juon and Dunrie Greiling show how to implement a more iterative, measurable, and repeatable approach to Internet marketing, gain better information about which online strategies are working best, deliver better-qualified leads to sales, build an online sales engine to track every customer relationship from the very outset - and, above all, grow profits. Rather than covering individual Internet marketing tools in isolation, they show how to integrate the full strategic toolkit: social media, pay-per-click, Google AdWords, SEO, site usability, Google Analytics, audience analysis, CRM, lead generation, site navigation optimization, and more. Readers learn how to use metrics and data analysis far more effectively to inform adjustments in both long-term strategy and short-term tactics. Along the way, the authors offer new solutions to challenges discussed in no other book - including the challenges of marketing, advertising, and pricing when Google flattens all channels and geographies into a single gigantic marketplace

*Online Or Flatline* Nick Choat, 2017-02-21 Digital marketing is a daunting task for many small business owners. It often seems intimidating and complicated, and the benefits are not easily measured, but without it, many businesses die out. In *Online or Flatline*, Nick Choat offers

compelling reasons to get your business online and easy-to-use tools to make it possible: How to set up an attractive webpage How to prioritize your social media efforts How to use review feedback to interact with customers How to optimize your ability to be found on Google How to combine traditional and digital advertising and many more Nick Choat has witnessed the evolution of digital marketing. He started at a young age, working in his parents' small, hometown grocery store in rural Tennessee, where he learned about customer service and loyalty. When he was offered a management position with Kroger, he made the bold move to exit the food industry, and took a chance on a degree in software development long before the tech boom of the 1990s. His first job was for Boeing, followed by several years consulting businesses for Ernst & Young. He was on board with Disney when they pioneered the online streaming of hi-def television, a revolutionary move when corporations were still fearful of the shifting marketplace. After realizing that he wanted to exchange his life in corporate America for one with more autonomy in his business, he bought a Sports Clips franchise and set a personal goal to empower all small business owners to utilize the tools at their fingertips. Online or Flatline gives small business owners an easy to follow, affordable guide and a strong plan of action for creating a successful and valuable online presence.
