Changing Patterns of Warfare between India and Pakistan Rizwana

Abbasi, Muhammad Saeed Uzzaman, 2023-05-12 *Changing Patterns of Warfare between India and Pakistan* analyzes how advanced nuclear technologies and the advent of disruptive technologies have affected the evolving conflict between India and Pakistan. Advanced nuclear technologies such as nuclear submarines, aircraft carriers, ballistic missile defence systems (BMDs), multiple independently targetable re-entry vehicles (MIRVs), anti-satellite weapons (ASAT); and disruptive technologies such as hypersonic weapons, artificial intelligence (AI), lethal autonomous weapons (LAWs), unmanned aerial vehicles (UAVs) / drones and space-based and cyber technologies have all complicated crisis dynamics and the domain of warfare in the region. Further, the employment of India's compellence strategy is an indication of a change in its stance that demonstrates smart/surgical strikes are now more likely. The phenomenon of surgical strikes raises the question of how disruptive technologies will be used to gain direct/indirect military control and hence challenge the existing status quo and deterrence stability. Against this backdrop, the authors predict how this conflict may develop in the future and evaluate the ways to stabilize deterrence and regulate the militarization of artificial intelligence and disruptive technologies between India and Pakistan. This book will be of interest to all those researching and working in the fields of security studies, strategic studies, nuclear policy,

deterrence thinking and proliferation/non-proliferation aspects of the nuclear weapons programme within South Asia and beyond. It will also be relevant for the academic community, policy-makers, diplomats, members of international non-governmental organizations (INGOs), professional research institutes and organizations working on India–Pakistan relations.

India, Europe and Pakistan Professor Rajendra K Jain, 2017-09-15 Containing thirteen chapters by Indian and European scholars and practitioners, this volume critically examines the multifarious domestic and external challenges that Pakistan confronts today. It discusses the vicissitudes of the European Union's relations with Pakistan and the cultural, economic, political and military relations of Central Europe and key European countries—France, Germany and the United Kingdom—with Pakistan. The study highlights the different approaches of India and the European Union towards the Kashmir dispute and the considerations, concerns and policy of the EU towards democracy promotion in Pakistan. It also seeks to answer the question whether the relationship between the North Atlantic Treaty Organization and Pakistan is a transactional relationship or an enduring partnership. The book analyses the problems faced by Pakistan's oil and gas sector and the challenges and opportunities for European companies to expand Pakistan's energy basket. The volume examines the nature, dynamics and challenges of social integration and

political participation by the Pakistani diaspora in the United Kingdom. It also explores the political context that shapes both policy and discourse on immigrant integration with special reference to the Pakistani diaspora's lived experience in three Scandinavian countries. The study will be of interest to all those engaged in the fields of political science, international relations, European politics and foreign policy and Indian and South Asian politics and foreign policy.

India's Pakistan Policy Stuti Bhatnagar, 2020-08-09 This book critically examines the role of think tanks as foreign policy actors. It looks at the origins and development of foreign policy think tanks in India and their changing relevance and position as agents within the policy-making process. The book uses a comparative framework and explores the research discourse of

prominent Indian think tanks, particularly on the India–Pakistan dispute, and offers unique insights and perspectives on their research design and methodology. It draws attention to the policy discourse of think tanks during the Composite Dialogue peace process between India and Pakistan and the subsequent support from the government which further expanded their role. One of the first books to offer empirical analyses into the role of these organisations in India, this book highlights the relevance of and the crucial role that these institutions have played as non-state policy actors. Insightful and topical, this book will be of interest to researchers focused on international relations, foreign policy analysis and South Asian politics. It would also be a good resource for students interested in a theoretical understanding of foreign policy institutions in general and Indian foreign policy in particular.
