Common Knowledge W. Russell Neuman, Marion R. Just, Ann N. Crigler, 1992-10-15 Photo opportunities, ten-second sound bites, talking heads and celebrity anchors: so the world is explained daily to millions of Americans. The result, according to the experts, is an ignorant public, helpless targets of a one-way flow of carefully filtered and orchestrated communication. Common Knowledge shatters this pervasive myth. Reporting on a groundbreaking study, the authors reveal that our shared knowledge and evolving political beliefs are determined largely by how we actively reinterpret the images, fragments, and signals we find in the mass media. For their study, the authors analyzed coverage of 150 television and newspaper stories on five prominent issues—drugs, AIDS, South African apartheid, the Strategic Defense Initiative, and the stock market crash of October 1987. They tested audience responses of more than 1,600 people, and conducted in-depth interviews with a select sample. What emerges is a surprisingly complex picture of people actively and critically interpreting the news, making sense of even the most abstract issues in terms of their own lives, and finding political meaning in a sophisticated interplay of message, medium, and firsthand experience. At every turn, Common Knowledge refutes conventional wisdom. It shows that television is far more effective at raising the saliency of issues and promoting learning than is generally assumed; it also undermines the assumed causal connection between newspaper reading and higher levels of political knowledge. Finally, this book gives a deeply responsible and thoroughly fascinating account of how the news is conveyed to us, and how we in turn convey it to others, making meaning of at once so much and so little. For anyone who makes the news—or tries to make anything of it—Common Knowledge promises uncommon wisdom.

Bad News Tom Fenton, 2005-03-01 In his long journalistic experience as the senior European correspondent for CBS News, Tom Fenton has reported on everything from the fall of the Shah of Iran to the movements of al Qaeda throughout Europe -- a story he was tracking before 9/11. And in the three years since that fateful day, he has come to a sobering realization: Our once-noble news media -- and network TV news in particular -- have abdicated their responsibility to the American people, and endangered us in the process. As Fenton points out, much of the United States still depends on the networks for most of its information about the world. But after the fall of the Soviet Union, the networks gutted their news-gathering operations -- just as the old Cold War status quo was shattering -- leaving behind an unstable and violent new world order. Once a public service, the network news was commandeered by its corporate parents as a cash cow. In-depth reporting on critical issues was replaced with saturation coverage of sensationalistic crime stories and simpleminded news you can use. Even as genocide spread through Africa -- and Islamic terror festered in the Middle East -- international reporting disappeared almost entirely from the airwaves. And Americans were left uninformed, unable to judge the accuracy of politically biased stories (on both sides of the spectrum), and utterly unprepared for the war on terror about to descend on their doorstep. In *Bad News*, Tom Fenton offers a fiery indictment of just how far the news has fallen. As a frequent voice in the wilderness himself -- who fought in vain to interest CBS in an Osama bin Laden interview in the 1990s -- Fenton reveals a news-gathering environment gutted by corporate bottom-lining bottom-feeders, staffed by dilatory producers and executives (who dismissed important stories as depressing or obscure), and dangerously dependent on images and information gathered by third-party sources. In hard-hitting interviews with Dan Rather, Peter Jennings, and Tom Brokaw, he exposes how even the anchors themselves believed they were outlandishly compensated -- while quality coverage was being slashed. And he charges that the news media must lose its entertainment-industry mindset and reestablish its role as a keeper of the public trust. This is not just a book, writes Fenton. This is the beginning of a campaign to galvanize America. We need more and better news. Our lives depend on it.

Simply Good News Tom Wright, 2015-03-19 The Gospel means good news, but what makes it news? If the message has been around for 2,000 years, what could possibly be newsworthy about it? And what makes it good? Surely not the stories we hear of damnation, violence, and an angry God. Tom Wright believes many Christians have lost sight of what the 'good news' of the gospel really is. In *Simply Good News*, he shows how a first-century

audience would have received the gospel message, what the 'good news' means for us today and how it can transform our lives.

More Than Just The News Jerry Fennell,

Niche News Natalie Jomini Stroud, 2011-05-09 Fox News, MSNBC, The New York Times, The Wall Street Journal, The Rush Limbaugh Show, National Public Radio--with so many options, where do people turn for news? In *Niche News*, Natalie Stroud investigates how people navigate these choices and the political implications that their choice ultimately entails. By combining an analysis of the various news formats that citizens rely on with innovative surveys and experiments, she offers the most comprehensive look to date at the extent to which partisanship influences our media selections. At the heart of *Niche News* is the concept of partisan selective exposure, a behavior that leads individuals to select news sources that match their own views. This phenomenon helps explain the political forces at work behind media consumption. Just as importantly, she finds that selective exposure also influences how average citizens engage with politics in general. On one hand, citizens may become increasingly divided as a result of using media that coheres with their political beliefs; on the other hand, partisan selective exposure may encourage participation. Ultimately, Stroud reveals just how intimately connected the mainstream media and the world of politics really are, a conclusion with significant implications for the practice of American democracy.

Framing Terrorism Pippa Norris, Montague Kern, Marion Just, 2004-08-02 Terrorism now dominates the headlines across the world--from New York to Kabul. *Framing Terrorism* argues that the headlines matter as much as the act, in political terms. Widely publicized terrorist incidents leave an imprint upon public opinion, muzzle the watchdog role of journalists and promote a general one-of-us consensus supporting security forces.

Dish Jeannette Walls, 2010-11-16 From Jeannette Walls, the #1 New York Times bestselling author of *The Glass Castle*, now a major motion picture, comes an incisive study of our obsession with gossip. A fascinating, dishy story. -Booklist Gossip. It's more than just hearsay, society columns, and supermarket tabloids. It has, like it or not, become a mainstay of American pop culture. In *Dish*, industry insider Jeannette Walls gives this provocative subject its due, offering a comprehensive, serious exploration of gossip and its social, historical, and political significance. Examining the topic from the inside out, Walls looks at the players; the origins of gossip, from birth of *People* magazine to the death of Lady Di; and how technology including the Internet will continue to change the face gossip. As compelling and seductive as its subject matter, *Dish* brilliantly reveals the fascinating inner workings of a phenomenon that is definitely here to stay.

Broadcast News Writing, Reporting, and Producing Frank Barnas, Ted White, 2013-10-08 Jargon buster: convergent journalism: ?Media convergence is the most significant development in the news industry in the last century. The ability to interchange text, audio, and visual communication over the Internet has fundamentally transformed the way news organizations operate. Convergence has enabled media companies to gather, disseminate, and share information over a variety of platforms. Throughout the history of journalism, it has been common for journalists to study one medium, such as traditional print or broadcast, and to anticipate a career working only in their chosen field. However, the 21st century journalist has fluidity to write and deliver news content in a variety of formats. (source: <http://www.convergencejournalism.com/>) *Broadcast News Writing, Reporting, and Producing* presents a solid foundation for any student learning how to become a broadcast journalist ? in today's world of

convergent journalism, it is more important than ever that broadcast textbooks cover the most current trends in media. Convergent journalism (the coverage of news across multiple delivery platforms such as the internet, television, podcasts, ipods, blogs, etc) is here to stay ? broadcast journalism continues to morph as newer and more advanced content platforms are hatched and developed, and broadcast journalists must understand how to write, report, and produce for multiple platforms simultaneously. Just one crucial fact remains: students will need training on how to perform successfully in a world in which current events aren't just shown on the ten o'clock evening news. Broadcast News Writing, Reporting, and Producing will be completely overhauled to reflect the trends of convergent journalism on every page. New co-author Frank Barnas brings a multi-faceted perspective of writing, reporting, and producing that allows for multi-platform delivery systems, and shows students with real-world examples the functions and practices of today's media. The new edition will be rewritten and restructured to accommodate common 16-week course modules, and will be divided into four major sections of the news: gathering, writing, reporting, and producing. Sidebars featuring how examples used in the text relate to convergence in journalism help students to draw connections easily between current stories and trends in the industry. The comprehensive approach of this text brings a multi-faceted perspective of writing, reporting, and producing that is needed more than ever in today's world of convergent journalism. This newest edition is being completely overhauled by the experienced journalist Frank Barnas. New photos and illustrations, a restructuring of the text, expanded end-of-chapter exercises, newer and more relevant examples, and more information on producing all contribute to giving readers what they need most: a nuanced understanding of how the media of today function in a world without news boundaries.

It's Not News, It's Fark Drew Curtis, 2008-05-29 A hilarious exposé on the media gone awry, from the creator of the wildly popular Fark.com. Have you ever noticed certain patterns in the news you see and read each day? Perhaps it's the blatant fear-mongering in the absence of facts on your local six o'clock news ("Tsunami could hit the Atlantic any day!" Everybody panic!), or the seasonal articles that appear year after year ("Roads will be crowded this holiday season." Thanks, AAA.). It's Not News, It's Fark is Drew Curtis's clever examination of the state of the media today and a hilarious look at the go-to stories mass media uses when there's just not enough hard news to fill a newspaper or a news broadcast. Drew exposes eight stranger-than-fiction media patterns that prove just how little reporting is going on in the world of reporters today. It's Not News, It's Fark examines all the "news" that was never fit for print in the first place, and promises to have you laughing along the way.

Media Control Robert E. Gutsche, Jr., 2015-10-22 Media Control: News as an Institution of Power and Social Control challenges traditional (and even some radical) perceptions of how the news works. While it's clear that journalists don't operate objectively - reporters don't just cover news, but they make it - Media Control goes a step further by arguing that the cultural institution of news approaches and presents everyday information from particular and dominant cultural positions that benefit the power elite. From analysing how the press operate as police agents by conducting surveillance and instituting social order through its coverage of crime and police action to bolstering private business and neoliberal principles by covering the news through notions of boosterism, Media Control presents the news through a cultural lens. Robert E. Gutsche, Jr. introduces or advances readers' applications of critical race theory and cultural studies scholarship to explore cultural meanings within news coverage of police action, the criminal justice system, and embedding into the news democratic values that are later used by the power elite to oppress and repress

portions of the citizenry. Media Control helps the reader explicate how the power elite use the press and the veil of the Fourth Estate to further white ideologies and American Imperialism.

Fake News Norwood Jay Raymond, 2017-07-30 In a world where it's easier to become a celebrity than it is to make the price of oil increase, nothing makes sense but this contemporary satire. Instead of double-clicking that bait or turning on that cable TV box, get your Fake News right here. Follow a greedy millennial generation eco-terrorist as he is excommunicated from his basement, stumbles into Hollywood celebrity, gets embroiled in local politics, and eventually becomes an operator for a nefarious non-state actor bent on creating chaos. All the while you'll run across pop-culture references that will make you smile. The meta has finally arrived - prepare your body because your mind will be blown! An Exclusive Interview with Ali G: Ali G: Yo! Diggity check yoself before yo wreck yoself because I is here with none other than my main man Norwood Jay Raymond. He has written a book called Fake News and we is here to talk about the media. (Ali turns to Norwood) Yo! What is the media? Norwood Jay Raymond: The media is almost everything that our eyes and ears digest. It's everywhere, television, our phones, like everywhere we look. It's not just news channels, it's all of the commercials and most of the stuff we see really. And it's important to know that the media works together, different brands are under the same corporate umbrella and different corporate umbrellas work together to put out a unified message - it's called cross-selling. The media has a lot of input into our brains, we often get it mainlined through headphones. Ali G: What is Fake News? Norwood Jay Raymond: Fake news is a fairly rare phenomena whereby incorrect news-specific information is intentionally disseminated under the pretense that it is truth. Ali G: But isn't that kind of boring? Why would someone write a book about that? I mean, I don't know why someone would write a book at all, they is all printed for you, so. Norwood Jay Raymond: My book, Fake News, is a satire, an allegory really, that kind of weirdly describes America from 2010 to 2017. It put us in the shoes of... Ali G: Does we all get like Nike Air Jordan's or something? Norwood Jay Raymond: No, it's a book. Ali G: Aiiiight. But, is your book about the media? Norwood: Yes and no. It runs through the entertainment industry and world finance and stuff that are huge parts of how the media reaches people. But it's a story, just a fiction book. As an allegory, it asks what it looks like if just one person were representative of all the nasty political and financial interests that hold so much control over the world. Ali G: Aiiiight. Yo! Ya'll just heard it from the source and ya'll need to learn about the media! And allergies and wha-ever. And reads some book because, yo mind, Yo!

Becoming the News Ruth Palmer, 2017-12-05 What does it feel like to be featured, quoted, or just named in a news story? A refugee family, the survivor of a shooting, a primary voter in Iowa—the views and experiences of ordinary people are an important component of journalism. While much has been written about how journalists work and gather stories, what do we discover about the practice of journalism and attitudes about the media by focusing on the experiences of the subjects themselves? In *Becoming the News*, Ruth Palmer argues that understanding the motivations and experiences of those who have been featured in news stories—voluntarily or not—sheds new light on the practice of journalism and the importance many continue to place on the role of the mainstream media. Based on dozens of interviews with news subjects, *Becoming the News* studies how ordinary people make sense of their experience as media subjects. Palmer charts the arc of the experience of “making” the news, from the events that brought an ordinary person to journalists’ attention through the decision to cooperate with reporters, interactions with journalists, and reactions to the news coverage and its aftermath. She explores what motivates someone to talk to the press; whether they consider the potential risks; the power dynamics between a journalist and their subject; their expectations about the motivations of journalists; and the influence of social media on their decisions and reception. Pointing to the ways traditional news organizations both continue to hold on to and are losing their authority, *Becoming the News* has important implications for how we think about the production and consumption of news at a time when Americans distrust the news media more than ever.

That's the Way It Is Charles L. Ponce de Leon, 2015-05-04 Ever since Newton Minow taught us sophisticates to bemoan the descent of television into a vast wasteland, the dyspeptic chorus of jeremiahs who insist that television news in particular has gone from gold to dross gets noisier and noisier. Charles Ponce de Leon says here, in effect, that this is misleading, if not simply fatuous. He argues in this well-paced, lively, readable book that TV news has changed in response to broader changes in the TV industry and American culture. It is pointless to bewail its decline." That's the Way It Is gives us the very first history of American television news, spanning more than six decades, from Camel News Caravan" to Countdown with Keith Oberman" and The Daily Show." Starting in the latter 1940s, television news featured a succession of broadcasters who became household names, even presences: Eric Sevareid, Walter Cronkite, David Brinkley, Peter Jennings, Brian Williams, Katie Couric, and, with cable expansion, people like Glenn Beck, Jon Stewart, and Bill O'Reilly. But behind the scenes, the parallel story is just as interesting, involving executives, producers, and journalists who were responsible for the field's most important innovations. Included with mainstream network news programs is an engaging treatment of news magazines like 60 Minutes and 20/20, as well as morning news shows like Today and Good Morning America. Ponce de Leon gives ample attention to the establishment of cable networks (CNN, and the later competitors, Fox News and MSNBC), mixing in colorful anecdotes about the likes of Roger Ailes and Roone Arledge. Frothy features and other kinds of entertainment have been part and parcel of TV news from the start; viewer preferences have always played a role in the evolution of programming, although the disintegration of a national culture since the 1970s means that most of us no longer follow the news as a civic obligation. Throughout, Ponce de Leon places his history in a broader cultural context, emphasizing tensions between the public service" mission of TV news and the quest for profitability and broad appeal.

Simply Good News N. T. Wright, 2015-01-06 The bishop, Bible scholar, modern heir to C. S. Lewis, and revered author of Simply Christian and Simply Jesus offers a fresh look at the Gospel, explaining why Jesus' message is "good news" and why it is more timely and transforming today than we know. The Gospel means good news. But if the message has been around for 2,000 years, what makes it significant today? What's so "good" about stories involving damnation, violence, and a God who sacrifices his only son? Noted Bible scholar N.T. Wright shows us how Christians today have lost sight of what the "good news" of the gospel really is. In Simply Good News, he takes us back in time to reveal how the people of the first-century—the gospel's original audience—would have received Jesus' message. He offer a clear and thoughtful analysis of what the "good news" really is, and applies it to our lives today, revealing its power to transform us.

Bias Bernard Goldberg, 2014-07-21 In his nearly thirty years at CBS News, Emmy Award-winner Bernard Goldberg earned a reputation as one of the preeminent reporters in the television news business. When he looked at his own industry, however, he saw that the media far too often ignored their primary mission: objective, disinterested reporting. Again and again he saw that they slanted the news to the left. For years Goldberg appealed to reporters, producers, and network executives for more balanced reporting, but no one listened. The liberal bias continued. In this classic number one New York Times bestseller, Goldberg blew the whistle on the news business, showing exactly how the media slant their coverage while insisting they're just reporting the facts.
