VeriSM™ - Unwrapped and applied Claire Agutter, Johann Botha, Suzanne D. Van Hove, VeriSM: Unwrapped and Applied, the second volume within the VeriSM series, extends the information in the first volume VeriSM: A Service Management Approach for the Digital Age. It shows how VeriSM applies to the digitally transforming organization. This includes information around what digital transformation is, approaches to digital transformation and its implications for the entire organization, especially the people. The book explains how to use the VeriSM model, describing the steps to develop, maintain and use the Management Mesh to deliver a new or changed product or service. Within this content, a case study is used to illustrate how to apply the model for each stage and to show the expected outcomes. Implications for the entire organization are stressed throughout the entire volume, reinforcing the concepts of enterprise strategy tying together the organizational capabilities to produce consumer-focused products and services. The second part of the book also includes a wealth of case studies, stories and interviews from organizations and individuals who have a digital transformation journey to share. VeriSM early adopters from around the world provide more information about how they are applying the guidance.

The Asian Bond Markets Initiative Asian Development Bank, 2017-06-01 The

Asian Bond Markets Initiative (ABMI) was launched in December 2002 by the Association of Southeast Asian Nations (ASEAN) and the People's Republic of China, Japan, and the Republic of Korea---collectively known as ASEAN+3 to strengthen financial stability and reduce the region's vulnerability to the sudden reversal of capital flows. This paper also provides recommendations for addressing new sources of market volatility and other challenges within and outside the framework of the Asian Bond Markets Initiative.

The Silver Market Phenomenon Florian Kohlbacher, 2008 The current shift in demographics - aging and shrinking populations - in many countries around the world presents a major challenge to companies and societies alike. One particularly essential implication is the emergence and constant growth of the so-called silver market, the market segment more or less broadly defined as those people aged 55 and older. Increasing in number and share of the total population while at the same time being relatively well-off, this market segment can be seen as very attractive and promising, although still very underdeveloped in terms of product and service offerings. This book offers a thorough and up-to-date analysis of the challenges and opportunities in leveraging innovation, technology, product development and marketing for elder consumers and employees. Key lessons are drawn from the Japanese lead market as well as other select countries.

Vision and Strategy in Indian Politics Jivanta Schoettli, 2012-02-20 The 1950s in India were a crucial transition phase where the legacy and institutions of British rule had to be transformed to fit the needs of a post-colonial state. This period is closely associated with India's first Prime Minister, Jawaharlal Nehru (1947 – 64). Selecting three key policies closely associated with him, the book traces the political origins of the Panchasheela Agreement with China in 1954, the Hindu Code Bills of 1955 and 1956 and the founding of the Planning Commission in 1950. Each provides a window into the compulsions of Indian domestic politics at the time as well as the parameters of parliamentary debate. The book goes on to discuss how these policies correspond to the pillars of Nehru's vision for a modern, independent India that encapsulated socialism, nonalignment and secularism and assesses their long-run impact in Indian politics. With a growing recognition of the resilience of India's political arrangements, the analysis is particularly relevant to those interested in the politics of transition and modernisation, and contributes to studies on Political Institutions and South Asian Politics.

The Ghost of Drowned Meadow Kelley Skovron, 2022-09-20 From Kelley Skovron comes a ghostly mystery that explores the little-known history of Nazi indoctrination camps in the United States. It started off small. Just a dripping outside my window. When Morgan witnesses some eerie happenings in her family's new house, at first she shrugs them off. But as the unsettling dripping noises--and the sounds of someone crying--become more frequent, she starts to get nervous. Then a neighbor asks Morgan a blood-chilling question: What's it like to live in a haunted house? It seems Morgan's new home is notorious in the town of Port Jefferson, all because of Joseph Klaus, a boy who drowned in the 1930s after vanishing from his summer camp. Morgan begins learning all she can about the Klaus boy and uncovers the little-known history of the German American Bund, a Fascist organization that indoctrinated children and forced them into labor. Klaus wasn't just escaping

from any old summer camp—he was fleeing American Nazis. As Morgan discovers the heartbreaking history of her new town, she'll have to do everything she can to protect her family from the spirits it left behind. Because the ghost of Joseph Klaus is still trying to get home—even if he drowns the people living there.

Strategic International Human Resource Management Helen L. De Cieri, Peter J. Dowling, 1998 Examines strategic international human resource management in Australian multi-national enterprises operating in the European Union. An Asia-Pacific perspective on challenges created by the social dimension of the European Union is also discussed.

Climate Justice and Historical Emissions Lukas H. Meyer, Pranay Sanklecha, 2017-02-16 This volume investigates who can be considered responsible for historical emissions and their consequences, and how and why this should matter for the design of a just global climate policy. The authors discuss the underlying philosophical issues of responsibility for historical emissions, the unjust enrichment of the earlier developed nations, and questions of transitional justice. By bringing together a plurality of perspectives, both in terms of the theoretical understanding of the issues and the political perspectives on the problem, the book also presents the remaining disagreements and controversies in the debate. Providing a systematic introduction to the debate on historical emissions and climate change, this book provides an unbiased and authoritative guide for advanced students, researchers and policymakers in climate change justice and governance, and more widely, for anyone interested in the broader issues of global justice.
