Urchin King Katharina Gerlach,2013-08-28 Urchin King was a semi-finalist for the KBR Best Indie Book 2012 award. The 2012

Best Indie Book Contest was established and judged by the reviewers at The Kindle Book Review. They pre-screened hundreds of books and judged them on formatting, writing quality, and if the book grabbed them from the beginning. About the Book For fourteen years, street-urchin Paul's miserable existence has kept him safe from an ancient law that sentences all second-born twins to death. When he learns he is the younger twin of the mentally handicapped Crown Prince who's in danger of being killed for his disability, he agrees to play the role of the miraculously healed royal heir. Paul struggles to learn how to act like a born ruler, but finds that his greatest skill, getting by unnoticed, is now his greatest liability. He knows if he is discovered, he will be executed like all second-born twins. When a vengeful sorcerer threatens the kingdom, Paul is the only one who can oppose him. But using his unique talents will expose him. Now, he's got the choice. What is more important, his life or his family's and the kingdom's safety? Unfortunately, Amazon no longer allows Indie authors to include booktrailers or additional author pictures in the book description. Since I had to re-upload this book, my trailer is no longer available here. You'll have to search YouTube for the book's title to find it. Sorry. For readers of fantasy from 12-99 years Readers' Voices a unique twist on a fairy-tale king line...reminiscent of *The Prince and the Pauper*, Katherine Gilraine a wonderfully crafted book, Nadele Jacobs *Fun*, exciting, and wonderfully fluid reading that my teenagers have already stolen my Kindle from me for, Cecile A few words from the Authoress Yes, I know that the beginning resembles *The Prince and the Pauper* by Mark Twain somewhat, but not much. When I wrote this story, I wasn't aware of the similarity. Mark Twain's stories are not as widespread in Germany as they are in the USA, and it's been ages since I read the book. Only when a couple of reviewers pointed it out, I realized where my initial idea had come from. Despite the influence, this story is not a retelling but a stand-alone story in its own right which includes many

details about everyday life in Europe during the Middle Ages.

A Taste of Power Katharina Vester, 2015-10-02 Since the founding of the United States, culinary texts and practices have played a crucial role in the making of cultural identities and social hierarchies. *A Taste of Power* examines culinary writing and practices as forces for the production of social order and, at the same time, points of cultural resistance. Culinary writing has helped shape dominant ideas of nationalism, gender, and sexuality, suggesting that eating right is a gateway to becoming an American, a good citizen, an ideal man, or a perfect wife and mother. In this brilliant interdisciplinary work, Katharina Vester examines how cookbooks became a way for women to participate in nation-building before they had access to the vote or public office, for Americans to distinguish themselves from Europeans, for middle-class authors to assert their class privileges, for men to claim superiority over women in the kitchen, and for lesbian authors to insert themselves into the heteronormative economy of culinary culture. *A Taste of Power* engages in close reading of a wide variety of sources and genres to uncover the intersections of food, politics, and privilege in American culture.

Search and Rescue Pacific Coast Rachel Dresbeck, 2020-05-01

The Pacific Coast is home to a beautiful wonderland of recreation. Vast forests, high mountains, stark deserts all beckon the adventurous, whether they are hiking the Pacific Coast Trail, scaling the challenging faces of Yosemite, or out for a day hike along the Columbia Gorge. Yet along with this natural beauty comes risk, even for the most well-prepared. Search and Rescue Pacific Coast collects the stories of the mountaineers, rangers, and ordinary volunteers who step in to help when the terrain and conditions show no mercy. Covering historical and recent events, this collection includes: Stories of rescues on Mt. Rainier and Mt. Hood, including two in which the rescue volunteers' helicopters crashed. Dramatic rescues along the Pacific Coast Trail. How the oldest volunteer search and rescue organization in the nation rescued 144 hikers from a raging forest fire in Eagle Creek, Oregon. The story of a search and rescue veteran who required his own rescue while attempting to help a family trapped by rising floodwaters in California. The tale of a woman who was charged with 98 felonies after a dramatic search and rescue operation on the Oregon coast. The grit and determination of these search and rescue volunteers will inspire readers—and give them appreciation for the lessons of the wilderness.

Food Anxiety in Globalising Vietnam Judith Ehlert, Nora Katharina Faltmann, 2018-01-01 This open access book approaches the anxieties inherent in food consumption and production in Vietnam. The country's rapid and recent economic integration into global agro-food systems and consumer markets spurred a new quality of food safety concerns, health issues and distrust in food distribution networks that have become increasingly obscured. This edited volume further puts the eating body centre stage by following how gendered body norms, food taboos, power structures and social differentiation shape people's ambivalent relations with food. It uncovers Vietnam's trajectories of agricultural modernisation against which consumers and producers manoeuvre amongst food self-sufficiency, security and

abundance. Food Anxiety in Globalising Vietnam is explicitly about 'dangerous' food – regarding its materiality and meaning. It provides social science perspectives on anxieties related to food and surrounding discourses that travel between the local and the global, the individual and society and into the body. Therefore, the book's lens of food anxiety matters for social theory and for understanding the embeddedness and discontinuities of food globalizations in Vietnam and beyond. Due to its rich empirical base, methodological approaches and thematic foci, it will appeal to scholars, practitioners and students alike.--

American Cuisine: And How It Got This Way Paul

Freedman, 2019-10-15 With an ambitious sweep over two hundred years, Paul Freedman's lavishly illustrated history shows that there actually is an American cuisine. For centuries, skeptical foreigners—and even millions of Americans—have believed there was no such thing as American cuisine. In recent decades, hamburgers, hot dogs, and pizza have been thought to define the nation's palate. Not so, says food historian Paul Freedman, who demonstrates that there is an exuberant and diverse, if not always coherent, American cuisine that reflects the history of the nation itself. Combining historical rigor and culinary passion, Freedman underscores three recurrent themes—regionality, standardization, and variety—that shape a completely novel history of the United States. From the colonial period until after the Civil War, there was a patchwork of regional cooking styles that produced local standouts, such as gumbo from southern Louisiana, or clam chowder from New England. Later, this kind of regional identity was manipulated for historical effect, as in Southern cookbooks that mythologized gracious "plantation hospitality," rendering invisible the African Americans who originated much of the region's food. As the industrial revolution produced rapid changes in every sphere of life, the American palate dramatically shifted from local to processed. A new urban class clamored for convenient, modern meals and the freshness of

regional cuisine disappeared, replaced by packaged and standardized products—such as canned peas, baloney, sliced white bread, and jarred baby food. By the early twentieth century, the era of homogenized American food was in full swing. Bolstered by nutrition “experts,” marketing consultants, and advertising executives, food companies convinced consumers that industrial food tasted fine and, more importantly, was convenient and nutritious. No group was more susceptible to the blandishments of advertisers than women, who were made feel that their husbands might stray if not satisfied with the meals provided at home. On the other hand, men wanted women to be svelte, sporty companions, not kitchen drudges. The solution companies offered was time-saving recipes using modern processed helpers. Men supposedly liked hearty food, while women were portrayed as fond of fussy, “dainty,” colorful, but tasteless dishes—tuna salad sandwiches, multicolored Jell-O, or artificial crab toppings. The 1970s saw the zenith of processed-food hegemony, but also the beginning of a food revolution in California. What became known as New American cuisine rejected the blandness of standardized food in favor of the actual taste and pleasure that seasonal, locally grown products provided. The result was a farm-to-table trend that continues to dominate. “A book to be savored” (Stephen Aron), *American Cuisine* is also a repository of anecdotes that will delight food lovers: how dry cereal was created by William Kellogg for people with digestive and low-energy problems; that chicken Parmesan, the beloved Italian favorite, is actually an American invention; and that Florida Key lime pie goes back only to the 1940s and was based on a recipe developed by Borden’s condensed milk. More emphatically, Freedman shows that American cuisine would be nowhere without the constant influx of immigrants, who have popularized everything from tacos to sushi rolls. “Impeccably researched, intellectually satisfying, and hugely readable” (Simon Majumdar), *American Cuisine* is a landmark work that sheds

astounding light on a history most of us thought we never had.

Food Cultures across Time Anca-Luminița Iancu, Alexandra Mitrea, 2021-08-23 This volume explores the intricacies and complexities of food, and maps food cultures and food routes in fiction, by analysing consumption-related matters in the literary and cultural endeavours of authors from countries as diverse as Ireland, Romania, the UK, and the USA. The topics addressed in this vibrant, inter-disciplinary collection of essays open up questions for further studies and explorations on the interconnections between food, fiction, and culture.

Adventures in Literature ...: Challenge to understand Luella Bussey Cook, 1941

Everyone is Amazed: Sigfrid and Katharina Karg-Elert's letters from North America, January to March 1932 Harold Fabrikant,

Tatort Germany Lynn M. Kutch, Todd Herzog, 2014 New essays by leading scholars examining today's vibrant and innovative German crime fiction, along with its historical background.

Adventures of an Artisan Hunter David Brian Plummer, 2000-10 Account of Plummer's development as a hunter, from boyhood exploits with lurcher and terrier to adulthood, with many interesting digressions. Includes chapters on cock-fighting and bird-catching, cooking and eating badgers, foxes and rats, hawks and hawking. Although Plummer often comes across as bonkers, many of his apparently eccentric actions, such as badger eating or covering himself with a concoction of badger grease and herbs, were experiments to establish the plausibility of claims made by other writers. Being perpetually surrounded by people incapable of sharing this pioneering spirit of enquiry seems the source of his restlessness and the driving force behind the hundreds of books he wrote in his lifetime. This is not to say that Plummer did not have deep problems, as he himself describes in Hancock's *My Life with Lurchers*.

King Ben Kane, 2022-05-26 The thrilling adventure story about history's greatest warrior: Richard the Lionheart Autumn 1192. At the end of the Third Crusade Jerusalem remains in the Saracens' hands, and a peace treaty is agreed with their leader Saladin. Richard the Lionheart is finally free to travel to England and restore peace to his kingdom, under threat from his treacherous brother John. However, the epic journey will test every limit of his endurance as it takes him deeper into lands controlled by his enemies. He is ultimately captured near Vienna, imprisoned for three years, which further fans the flames of unrest in England and beyond. If he finally returns home, what will remain of his kingdom? And what deadly price must he pay to restore order?
