If however you're prone to saying things like: 'My life would be better if my boss this or that' or 'My life would be better if my mother this or that' or 'My life would be better if my friends this or that' or 'My life would be better if the government this or that' - then let me tell you something - nothing is going to change in your life for the better whilst you continue to blame others for your circumstances. I'm not saying that they didn't have a hand in your circumstances, I'm saying only YOU can decide to change your circumstances for the better. STOP complaining and start being different so you can do things differently.

Building Financial Empowerment for Survivors of Domestic Violence Judy L. Postmus, Amanda M. Stylianou, 2023-02-10 Each year, millions of women throughout the world experience violence and abuse at the hands of their intimate partner. Abusers coercively control them by using a variety of tactics ranging from physical or sexual violence

to emotional or psychological abuse. An additional tactic often used includes financial abuse in which the abuser controls the money in the family, exploits the victim's financial standing, and interrupts her efforts to be self-sufficient. The impact of financial abuse can leave women financially trapped in the relationship with limited financial management skills, knowledge, or self-confidence. Indeed, survivors often mention financial barriers as a top reason for keeping them trapped by the abuser in the relationship. Curiously, little of the research on domestic violence has sought to either fully understand the impact of financial abuse or to determine which intervention strategies are most effective for the financial empowerment of survivors. Building Financial Empowerment for Survivors of Domestic Violence aims to address this critical knowledge gap by providing those who work with survivors of domestic violence with practical knowledge on how to empower the financial well-being and stability of survivors. Specifically, every practitioner, human service provider, criminal justice practitioner, financial manager, and corporate supervisor should be screening the women they encounter for economic abuse, and when such abuse is found, they should work with the women toward developing financial safety plans and refer survivors to financial empowerment programs to assist survivors to become free from abuse.
