North Korea in the 21st Century J.E. Hoare,Susan Pares,2021-11-15 North Korea is not easily accessible, but boasts some of the most beautiful scenery in the Korean Peninsula, and arguably in East Asia. Travel to and in North Korea is tightly controlled, while political, economic, social and cultural life is played out in terms of a not readily understood philosophy, known as juche.

Routledge Handbook of Korean Politics and Public Administration Chung-in Moon,M. Jae Moon,2020-01-29 The Routledge Handbook of Korean Politics and Public Administration gathers the expertise of leading international scholars to survey the full spectrum of contemporary South Korean international relations, public management, and public policies. Divided into four parts, the handbook covers a range of issues including: domestic Korean political parties, elections and leadership, foreign policy, national security and relations with North Korea, public administration, governance and finance, and economic, social and environmental public policies. Offering a complete overview of the field, the handbook is an invaluable resource for academics, researchers, policy analysts, graduate and undergraduate students studying South Korean Politics and International Relations as well as East Asian Politics.

Urban Access for the 21st Century Elliott D. Sclar,Måns Lönnroth,Christian Wolmar,2014-03-05 This book sets out a road map for the provision of urban access for all. For most of the last century cities have followed a path of dependency on car dominated urban transport favouring the middle classes. Urban Access for the 21st Century seeks to change this. Policies need to be more inclusive of the accessibility needs of the urban poor. Change requires redesigning the existing public finance systems that support urban mobility. The aim is to diminish their embedded biases towards automobile-based travel. Through a series of chapters from international contributors, the book brings together expertise from different fields. It shows how small changes can incentivize large positive developments in urban transport and create truly accessible cities.

Green and Smart Technologies for Smart Cities Pradeep Tomar,Gurjit Kaur,2019-12-06 The book starts with an overview of the role of cities in climate change and environmental pollution worldwide, followed by the concept description of smart cities and their expected features, focusing on green technology innovation. This book explores the energy management strategies required to minimize the need for huge investments in high-capacity transmission lines from distant power plants. A new range of renewable energy technologies modified for installation in cities like small wind turbines, micro-CHP and heat pumps are described. The overall objective of this book is to explore all the green and smart technologies for designing green smart cities.
