The proceedings of the congress focus on four main questions: 1. Reservoir sedimentation and sustainable development; 2. Safety and risk analysis; 3. Geology and dams, and 4. Small dams and levees. The book thoroughly discusses these questions and is indispensable for academics, engineers and professionals involved or interested in engineering, hydraulic engineering and related disciplines.

**Challenges of Education Financing and Planning in Africa: What Works and What Does Not Work** Adebayo Olukoshi,Chrif Diarra,2007-01-15 This volume highlights the proceedings of the two policy dialogue conferences held by the Working Group on Finance and Education (WGFE) in 2004. Part I of the document discusses the endemic crisis that higher educationhas been beset with since the outset of the post colonial period in Africa. It highlights the critical state of higher education systems in Burkina Faso, Mali, Nigeria and Senegal by scrutinizing the causes, manifestations and consequences of the crisis to posit useful recommendations and possible solutions. Part II is a comprehensive review of the challenges facing the financing and planning of all levels and types ofeducation – from kindergarten to graduate school – in selected African countries. The papers reveal the sources and mechanisms of funding education in Africa, drawing attention to the experiences of communities confronted with new funding sources. A new trend, which consists of designing decade long educational development plans, has emerged and is rapidly expanding in numerous African countries. This experience is examined and shared by the authors. This book has contributions in both French and English.

*Buttress's World Guide to Abbreviations of Organizations* L. Pitman,2012-12-06 The previous edition of this directory extended its coverage of the Far East, Australasia and Latin America, areas previously under-represented. For this new edition emphasis has been given to increasing the number of entries for organizations from Britain, the United States and Australia, and particular attention has been paid to new political organizations in Central and Eastern Europe and the former Soviet Union. The number of entries included has gone up to over 68,000 of which over 9,000 are new or amended. Cross-references from defunct organizations in the previous edition have been deleted, and references (indicated by ex and now) added for organizations which have changed their name since the previous edition. As before, the range of organizations included is broad and only purely local organizations have been excluded. This directory therefore lists official and unofficial organizations, national and international, on all SUbjects: political, economic and social. Acronyms of parent bodies of subsidiary organizations are given where appropriate and equivalencies are used to link acronyms in different languages for the same organization. Further information about the organizations listed can be found in the sources listed in the bibliography. I would like to thank Henry Heaney and Graeme Mackintosh for their advice, and David Grinyer for his technical support. L. M. Pitman Bibliography Adams, R. (ed.) *Boundaries and History in Africa* Daniel Abwa,Albert-Pascal Temgoua,2013-08-26 This book compromises 26 well-researched essays in honour of Professor Verkijika G. Fanso, who retired in 2011 after over 36 years of distinguished service at universities in Cameroon. Contributors include colleagues, former students and close collaborators in Cameroon and beyond. Contributions cover a wide range of issues related to the contested histories, politics and practices of boundaries and frontiers in Africa. These are themes on which Fanso has researched, published and taught extensively, and earned international recognition as a leading scholar. The book explores, inter alia, indigenous and endogenous practices of boundary making in Africa; as well as colonial and contemporary traditions, practices and conflicts on and around frontiers. In particular focus, are disputed colonial boundaries between Cameroon and its neighbours. Issues of intra- and inter-disciplinary frontiers, politics and cultures are also addressed. The volume is crowned by a farewell valedictory lecture by Fanso. Like Fanso and his rich repertoire of publications, this bumper harvest of essays is without doubt, truly immortalising.
