La Rioja, Logrono Travel Guide, Spain Gabriel Walker, 2021-04-19 La Rioja, Logrono Travel Guide, Spain. Tourism. Before the Romans conquered the Iberian Peninsula, the region of La Rioja was inhabited by a Celtic group of people called the Berones. Around the 2nd Century BC, the Romans invaded the region and colonized it as their own, pushing out the once native tribes. Logrono is the largest city as well as the capital of La Rioja, Spain. This city occupies a part of northern Spain and can easily be covered on foot in less than an hour. Logrono is an independent city beautifully situated on the banks of river Ebro with a historic street to take a pleasant stroll by the water body. The city actually gained popularity and recognition because of the importance given to the Pilgrim's Route to Santiago de Compostela in the first half of the 11th century. The two bridges over the famous river Ebro connect the city of Logrono with Navarre and Álava. The palaces of the Marquis of Legarda, Los Chapiteles and the Museum of La Rioja are perfect examples of the marvelous civil architecture of the city. If you are travelling to Spain, Logrono is a must visit. Logrono is rich with Churches, shopping malls, markets that sell fresh fruits and vegetables, Museums, old palaces, castles, affordable restaurants which encourages tourism on a broad scale. For entertainment, the city enjoys a couple of festivals and events like concerts, theatre, expositions, etc. Logrono serves delectable delicacies in the form of Tapas (small snacks) and Pincho (even smaller snacks) at affordable prices in restaurants as well as street stalls. Cathedral of Santa María la Redonda which was built during the 15th and 18th century has baroque style towers that rise above the market square. The premises of the cathedral occupy a part of the old circular Romanesque church. Carvings of Gregorio Fernández and a representation of the way of the cross contribute to the magnificent sculptures of the church

The Wine Region of Rioja Ana Fabiano, 2012 Rioja, a breathtaking region of northern Spain, produces some of the best wines. This exceptionally beautiful illustrated volume pays tribute to Riojan winemaking and culture--and it is the only wine book endorsed by the Riojan government. Ana Fabiano has traveled the world representing Riojan wines, and this work is the fruit of 20 years of research. She delved into Castilian books, conducted interviews with local experts, and spoke with generations of winemakers. The result is a book from the heart that provides a historical overview of the area along with up-to-the-moment information on each valley, including its bodegas, grape varieties, wines, and producers. To enhance enjoyment of these wonderful wines, Fabiano provides a food section with recipes and pairings.

The Finest Wines of Rioja and Northwest Spain Jesús Barquín, Luis Gutierrez, Víctor de la Serna, 2011 Picturesque Rioja, Spain's most prominent wine region, is a new world within a very old world. Winemaking here dates to Roman and medieval times, and today modern wineries designed by Gehry, Calatrava, and other celebrity architects flourish alongside traditional villages. Lavishly illustrated with photographs of the people and landscape and with detailed maps, this guide ranges over a diverse area from Rioja to Navarra, Bierzo, Galicia, and the Basque country as it explores winemaking from the ancient to the traditional and modern. Written by a trio of experts on Spanish wine, it provides insider information on a region home to Spain's finest Tempranillo, its prestigious Albariño, and many other indigenous grape varieties such as Garnacha, Mazuelo, and Viura. The authors look in depth at topics including climate and soil, grape varieties, and viticulture, and profile more than 85 individual wineries. They also include information not available elsewhere: several top ten lists plus secret addresses for the best restaurants and shops in which to find aged and historic vintages of Rioja.

Dinosaur Footprints & Trackways of La Rioja Félix Pérez-Lorente, 2015-07-06 A guide to this fossil-rich area of Spain: “Likely to become a landmark reference in dinosaur ichnology.” —James O. Farlow During the Early Cretaceous, lakes, meandering streams, and flood plains covered the region where the current foothills of Rioja now exist. Today the area is known for its wine and for the dozens of sites where footprints and trackways of dinosaurs, amphibians, and even pterosaurs can be seen. The dinosaurs that lived here 120 million years ago left their footsteps imprinted in the mud and moist soil. Now fossilized in rock, they have turned Rioja into one of the most valuable dinosaur footprint sites in all of Europe. Félix Pérez-Lorente and his colleagues have published extensively on the region, mostly in Spanish-language journals. In this volume, Pérez-Lorente provides an up-to-date synthesis of that research in English. He offers detailed descriptions of the sites, footprints, and trackways—and explains what these prints and tracks can tell us about the animals who made them.

Reverse Wine Snob Jon Thorsen, 2015-06-16 Most rational people don’t pay \$40 for \$20 items. And yet with wine, it happens all the time. Wine can be an expensive hobby. Founder of the popular site ReverseWineSnob.com, Jon Thorsen is an unapologetic frugal wine consumer. He flips wine snobbery on its head by pushing a \$20 or less mantra. Reverse Wine Snob is designed to help wine drinkers stop wasting money and get the most satisfaction out of their drinking dollars. It reveals Thorsen’s Ten Tenets of Reverse Wine Snobbery—ten beliefs that eliminate myths about wine—as well as a unique rating system that includes the cost of the bottle so that there is satisfaction in both taste and price. In Jon’s unique system, the more expensive a wine, the better it must taste. Reverse Wine Snob explains: The number one rule all wine drinkers should follow, no matter what the wine snobs say. How to shop for wine at stores like the nation’s #1 wine retailer Costco and Trader Joe’s. The regions and varieties of wine that give the best value. Why the price of a wine has nothing to do with its taste. Why the distribution system in the US is broken which costs you money and limits your wine choices. Tons of Jon’s very favorite wine picks. Jon dapples in every kind of wine from \$10 kitchen sink blends to the \$20 “Saturday Night Splurge,” so delicious it’s worth twice the price. Reverse Wine Snob brings plain old common sense to the wine industry and encourages wine lovers to explore the world of inexpensive quality wine. Of Rhetoric and Redemption in La Rioja Jim Tallmon, 2017-05-26 Paul obtains a thirty-day leave from house arrest in Rome to attend to business in Spain, but must promise to return for sentencing. He plans a mission blitz of Hispania. But the plan changes when, in the provincial capital, Paul meets Quintilian, a young pleader who invites him to his family's estate up the Rio Iberus, in La Rioja, outside Calagurris (Calahorra). Paul accompanies Quintilian to Calagurris, along with Luke. Zenas, the other member of Mission Team Beta, remains in Caesaraugusta to establish in the faith three new converts, one of whom is Quintilian's clerk. Their talk, rendered as Platonic dialogue, ranges across rhetorical theory, ethics, pedagogy, Christianity, and Paul's latest manuscript, which he hopes will be received as his magnum opus. The novel explores fictional competition between Paul and Apollos, Quintilian's personal crisis, a result of actual, devastating personal losses, resolved when, years after Paul has died by Nero's decree, a much older Quintilian finds comfort in the words of Paul's letter to his kinsmen, the Hebrews, words which Quintilian had discussed with Paul during that memorable occasion at the family's estate in La Rioja.

I Drink Therefore I Am Roger Scruton, 2013-01-03 Here Scruton explains the connection between good wine and serious thought with a heady mix of humour and philosophy. We are familiar with the medical opinion that a daily glass of wine is good for the health and also the rival opinion that any more than a glass or two will set us on the road to ruin. Whether or not good for the body, Scruton argues, wine, drunk in the right frame of mind, is definitely good for the soul. And there is no better accompaniment to wine than philosophy. By thinking with wine, you can learn not only to drink in thoughts but to think in draughts. This good-humoured book offers an antidote to the pretentious clap-trap that is written about wine today and a profound apology for the drink on which civilisation has been founded. In vino veritas.

A Valley in La Rioja Barry W. Cunliffe,Gary R. Lock,2010 The Najerilla flows from the mountains of the Sierra de la Demanda to the River Ebro in the western part of the province of La Rioja in northern Spain. Here fieldwork and excavations from 2000-2003 examined the varied landscapes of the valley and focused on the excavation of two Iron Age hilltop settlements, Castillo Antiguo and Cerro Molino. The work on Cerro Molino was the most extensive and exposed close-spaced buildings of mud-brick and timber belonging to the Celtiberian period (fourth-second centuries BC) but both hilltops were occupied in earlier periods from the seventh to the fifth centuries. Full reports are given of the structures, material culture and economy of the settlements together with accounts of extensive field-walking undertaken in the vicinity. The report concludes with a wide-ranging overview of the archaeology and history of this hitherto little known area.
