Of Rhetoric and Redemption in La Rioja Jim Tallmon, 2017-05-26 Paul obtains a thirty-day leave from house arrest in Rome to attend to business in Spain, but must promise to return for sentencing. He plans a mission blitz of Hispania. But the plan changes when, in the provincial capital, Paul meets Quintilian, a young pleader who invites him to his family's estate up the Rio Iberus, in La Rioja, outside Calagurris (Calahorra). Paul accompanies Quintilian to Calagurris, along with Luke. Zenas, the other member of Mission Team Beta, remains in Caesaraugusta to establish in the faith three new converts, one of whom is Quintilian's clerk. Their talk, rendered as Platonic dialogue, ranges across rhetorical theory, ethics, pedagogy, Christianity, and Paul's latest manuscript, which he hopes will be received as his magnum opus. The novel explores fictional competition between Paul and Apollos, Quintilian's personal crisis, a result of actual, devastating personal losses, resolved when, years after Paul has died by Nero's decree, a much older Quintilian finds comfort in the words of Paul's letter to his kinsmen, the Hebrews, words which Quintilian had discussed with Paul during that memorable occasion at the family's estate in La Rioja.

*Mistress of La Rioja* Sharon Kendrick, 2010-05-14 His mistress—but would she ever be his wife? In Spain there had been a searing mutual attraction between Sophie and Don Luis de la Camara—and she'd grown to love his motherless little boy, too. But now Luis had come to England—to ask her to return to La Rioja—as his son's nanny...and his mistress.... It was hardly the declaration of love Sophie had hoped for. Could she really give up her home, her business and her life to be with an aloof Spaniard who'd given up on love? If there was just one tiny chance she could claim his love, then the answer had to be...yes.

La Rioja, Logrono Travel Guide, Spain Gabriel Walker, 2021-04-19 La Rioja, Logrono Travel Guide, Spain. Tourism. Before the Romans conquered the Iberian Peninsula, the region of La Rioja was inhabited by a Celtic group of people called the Berones. Around the 2nd Century BC, the Romans invaded the region and colonized it as their own, pushing out the once native tribes. Logrono is the largest city as well as the capital of La Rioja, Spain. This city occupies a part of northern Spain and can easily be covered on foot in less than an hour. Logrono is an independent city beautifully situated on the banks of river Ebro with a historic street to take a pleasant stroll by the water body. The city actually gained popularity and recognition because of the importance given to the Pilgrim's Route to Santiago de Compostela in the first half of the 11th century. The two bridges over the famous river Ebro connect the city of Logrono with Navarre and Álava. The palaces of the Marquis of Legarda, Los Chapiteles and the Museum of La Rioja are perfect examples of the marvelous civil architecture of the city. If you are travelling to Spain, Logrono is a must visit. Logrono is rich with Churches, shopping malls, markets that sell fresh fruits and vegetables, Museums, old palaces, castles, affordable restaurants which encourages tourism on a broad scale. For entertainment, the city enjoys a couple of festivals and events like concerts, theatre, expositions, etc. Logrono serves delectable delicacies in the form of Tapas (small snacks) and Pincho (even smaller snacks) at affordable prices in restaurants as well as street stalls. Cathedral of Santa María la Redonda which was built during the 15th and 18th century has baroque style towers that rise above the market square. The premises of the cathedral occupy a part of the old circular Romanesque church. Carvings of Gregorio Fernández and a representation of the way of the cross contribute to the magnificent sculptures of the church.

*Dinosaur Footprints & Trackways of La Rioja* Félix Pérez-Lorente, 2015-07-06 A guide to this fossil-rich area of Spain: “Likely to become a landmark reference in dinosaur ichnology.” —James O. Farlow During the Early Cretaceous, lakes, meandering streams, and flood plains covered the region where the current foothills of Rioja now exist. Today the area is known for its wine and for the dozens of sites where footprints and trackways of dinosaurs, amphibians, and even pterosaurs can be seen. The dinosaurs that lived here 120 million years ago left their footsteps imprinted in the mud and moist soil. Now fossilized in rock, they have turned Rioja into one of the most valuable dinosaur footprint sites in all of Europe. Félix Pérez-Lorente and his colleagues have published extensively on the region, mostly in Spanish-language journals. In this volume, Pérez-Lorente provides an up-to-date synthesis of that research in English. He offers detailed descriptions of the sites, footprints, and trackways—and explains what these prints and tracks can tell us about the animals who made them.

*A Valley in La Rioja* Barry W. Cunliffe, Gary R. Lock, 2010 The Najerilla flows from the mountains of the Sierra de la Demanda to the River Ebro in the western part of the province of La Rioja in northern Spain. Here fieldwork and excavations from 2000-2003 examined the varied landscapes of the valley and focused on the excavation of two Iron Age hilltop settlements, Castillo Antiguo and Cerro Molino. The work on Cerro Molino was the most extensive and exposed close-spaced buildings of mud-brick and timber belonging to the Celtiberian period (fourth-second centuries BC) but both hilltops were occupied in earlier periods from the seventh to the fifth centuries. Full reports are given of the structures, material culture and economy of the settlements together with accounts of extensive field-walking undertaken in the vicinity. The report concludes with a wide-ranging overview of the archaeology and history of this hitherto little known area.

*Children of Facundo* Ariel de la Fuente, 2000-11-15 In *Children of Facundo* Ariel de la Fuente examines postindependence Argentinian instability and political struggle from the perspective of the rural lower classes. As the first comprehensive regional study to explore nineteenth-century society, culture, and politics in the Argentine interior—where more than 50 percent of the population lived at the time—the book departs from the predominant Buenos Aires-centered historiography to analyze this crucial period in the processes of state- and nation-building. La Rioja, a province in the northwest section of the country, was the land of the caudillos immortalized by Domingo F. Sarmiento, particularly in his foundational and controversial book *Facundo*. De la Fuente focuses on the repeated rebellions in this district during the 1860s, when Federalist caudillos and their followers, the gauchos, rose up against the new Unitarian government. In this social and cultural analysis, de la Fuente argues that the conflict was not a factional struggle between two ideologically identical sectors of the elite, as commonly depicted. Instead, he believes, the struggle should be seen from the perspective of the lower-class gauchos, for whom Unitarianism and Federalism were highly differentiated party identities that represented different experiences during the nineteenth century. To reconstruct this rural political culture de la Fuente relies on sources that heretofore have been little used in the study of nineteenth-century Latin American politics, most notably a rich folklore collection of popular political songs, folktales, testimonies, and superstitions passed down by old gauchos who had been witnesses or protagonists of the rebellions. Criminal trial records, private diaries, and land censuses add to the originality of de la Fuente’s study, while also providing a new perspective on Sarmiento’s works, including the classic *Facundo*. This book will

interest those specializing in Latin American history, literature, politics, and rural issues.
