The Big Show Pierre Clostermann, 1951 When The Big Show was first published, paper rationing meant that the text had to be heavily cut. Now, for the first time, this international bestseller has been returned to its complete, and breathtaking, original state. Pierre Clostermann was a Free French fighter ace who flew with the RAF during the Second World War. Over the course of five years he engaged in hundreds of dog-fights, shot down scores of Luftwaffe planes, escorted American bombers on some of the most dangerous raids of the war, and watched many of his friends falling to their deaths in the skies over the Channel. The Big Show, his incredible account of the air war over Britain and France, has become one of the most famous memoirs of the Second World War. Now in its original state, it contains everything one could wish for in a war memoir: wonderfully observed descriptions of wartime Britain, frighteningly evocative stories of in-the-cockpit action, an amazing cast of characters, and all the drama and bravery of a man fighting a desperate war thousands of feet above the ground. An undeniable classic.

Le grand cirque de la vie ,

Cirque Global Louis Patrick Leroux, Charles R. Batson, 2016-05-01 With a billion-dollar industry centred in Montreal, the province of Quebec has established itself as a major hub for contemporary circus. Cirque du Soleil has a global presence, and troupes such as Cirque Éloize and 7 doigts de la main are state-of-the-art innovators. The National Circus School of Montreal - the only state-funded elite training facility in North America - is an influential leader in artistry and technique. Montreal-based Cirque du Soleil's Cirque du Monde supports arts for social change on many continents and is renowned for its social-circus training and research. Cirque Global is the first book-length study of this new variety of circus and its international impact. The contributors offer critical perspectives on this rapidly developing art form and its aesthetics, ethics, business practices, pedagogical implications, and discursive significations. Essays explore creative, entrepreneurial, and cultural forces that are shaping Quebec's dynamic nouveau cirque. Lavishly illustrated with photographs from circus performances, the volume showcases Quebec circus's hybrid forms, which have merged the ethos and aesthetics of European circuses with American commercial and industrial creativity. Cirque Global is the definitive study of the phenomenon of Quebec circus and is an important model for future research on contemporary circus.

Encyclopedia of French Film Directors Philippe Rège, 2009-12-11 Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumière screened their works, the first public viewing of films anywhere. Early silent pioneers Georges Méliès, Alice Guy Blaché and others followed in the footsteps of the Lumière brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and René Clair_to French New Wave artists such as François Truffaut and Jean-Luc Godard.

Canadian Film and Video Loren R. Lerner, 1997-01-01 This extensive bibliography and reference guide is an invaluable resource for researchers, practitioners, students, and anyone with an interest in Canadian film and video. With over 24,500 entries, of which 10,500 are annotated, it opens up the literature devoted to Canadian film and video, at last making it readily accessible to

scholars and researchers. Drawing on both English and French sources, it identifies books, catalogues, government reports, theses, and periodical and newspaper articles from Canadian and non-Canadian publications from the first decade of the twentieth century to 1989. The work is bilingual; descriptive annotations are presented in the language(s) of the original publication. Canadian Film and Video / Film et vidéo canadiens provides an in-depth guide to the work of over 4000 individuals working in film and video and 5000 films and videos. The entries in Volume I cover topics such as film types, the role of government, laws and legislation, censorship, festivals and awards, production and distribution companies, education, cinema buildings, women and film, and video art. A major section covers filmmakers, video artists, cinematographers, actors, producers, and various other film people. Volume II presents an author index, a film and video title index, and a name and subject index. In the tradition of the highly acclaimed publication *Art and Architecture in Canada* these volumes fill a long-standing need for a comprehensive reference tool for Canadian film and video. This bibliography guides and supports the work of film historians and practitioners, media librarians and visual curators, students and researchers, and members of the general public with an interest in film and video.

The Complete Index to Literary Sources in Film Alan Goble, 2011-09-08

Circus and the Avant-Gardes Anna-Sophie Jürgens, Mirjam Hildbrand, 2022-03-15 This book examines how circus and circus imaginary have shaped the historical avant-gardes at the beginning of the 20th century and the cultures they help constitute, to what extent this is a mutual shaping, and why this is still relevant today. This book aims to produce a better sense of the artistic work and cultural achievements that have emerged from the interplay of circus and avant-garde artists and projects, and to clarify both their transhistorical and trans-medial presence, and their scope for interdisciplinary expansion. Across 14 chapters written by leading scholars – from fields as varied as circus, theatre and performance studies, art, media studies, film and cultural history – some of which are written together with performers and circus practitioners, the book examines to what extent circus and avant-garde connections contribute to a better understanding of early 20th century artistic movements and their enduring legacy, of the history of popular entertainment, and the cultural relevance of circus arts. *Circus and the Avant-Gardes* elucidates how the realm of the circus as a model, or rather a blueprint for modernist experiment, innovation and (re)negotiation of bodies, has become fully integrated in our ways of perceiving avant-gardes today. The book does not only map the significance of circus/avant-garde phenomena for the past, but, through an exploration of their contemporary actualisations (in different media), also carves out their achievements, relevance, and impact, both cultural and aesthetic, on the present time.

THE MAN WHO DINED AT LE CIRQUE Barry Arbiloff, 2012-09-26 The memory of my wife faded. The past ceased to exist. Women came and went through the revolving door of the blogosphere. I met many women online, including a precocious tart by the name of Sandra. That was a mistake I shall probably live to regret, of course, but I couldn't help myself. God forgive me, she was the best of the lot: exquisite, mature beyond her tender years, remarkably precocious in her sexual proclivities, and as dumb as the day was long. You would not believe the extent to which she would go to exercise the outrageous fantasies buzzing around her infantile brain, an attribute that I am

ashamed to say I found irresistible. I shall make no excuse for my lapse in judgment, except to tell you that the interlude during which we were in flagrante lasted barely a moment in time. But, as Nabokov suggested, while it lasted the candle burned ever so brightly. Of all the women I met in chat rooms and on threads, while there were the usual fringe benefits, most were less than expected, less than advertised, and well below the standard I had set for myself. I cannot complain, though, for my "ladies-in-waiting" went out of their way to satisfy my needs, which had become, for lack of a better word, excessive. The great restaurant had become the deus ex machina and the focal point of my adventures. I spared no expense, and a good time was had by all. But it wasn't enough. And then I met Donatella, and everything changed.

National Performance Erin Hurley,2011-01-01 In *National Performance*, Erin Hurley examines the complex relationship between performance and national identity. How do theatrical performances represent the nation in which they were created? How is Quebecois performance used to define Quebec as a nation and to cultivate a sense of 'Quebec-ness' for audiences both within and outside the province? In exploring Expo 67, the critical response to Michel Tremblay's *Les Belles Soeurs*, Carbone 14's image-theatre, Marco Micone's writing practices, Celine Dion's popular music, and feminist performance of the 1970s and 80s, Hurley reveals the ways in which certain performances come to be understood as 'national' while others are relegated to sub-national or outsider status. Each chapter focuses on a particular historical moment in Quebec's modern history and a genre of performance emblematic of the moment, and uses these to elaborate the nature of the national performances. Winner of the Northeast Modern Language Association's Book Prize, *National Performance* is sophisticated yet accessible, seeking to enlarge the parameters of what counts as 'Quebecois' performance, while providing a thorough introduction to changing discourses of nation-ness in Quebec.

Calder: The Conquest of Space Jed Perl,2020-04-14 The concluding volume to the first biography of one of the most important, influential, and beloved twentieth-century sculptors, and one of the greatest artists in the cultural history of America--is a vividly written, illuminating account of his triumphant later years. The second and final volume of this magnificent biography begins during World War II, when Calder--known to all as Sandy--and his wife, Louisa, opened their home to a stream of artists and writers in exile from Europe. In the postwar decades, they divided their time between the United States and France, as Calder made his first monumental public sculptures and received blockbuster commissions that included Expo '67 in Montreal and the 1968 Olympics in Mexico City. Jed Perl makes clear how Calder's radical sculptural imagination shaped the minimalist and kinetic art movements that emerged in the 1960s. And we see, as well, that through everything--their ever-expanding friendships with artists and writers of all stripes; working to end the war in Vietnam; hosting riotous dance parties at their Connecticut home; seeing the mobile, Calder's essential artistic invention, find its way into Webster's dictionary--Calder and Louisa remained the risk-taking, singularly bohemian couple they had been since first meeting at the end of the Roaring Twenties. The biography ends with Calder's death in 1976 at the age of seventy-eight--only weeks after an encyclopedic retrospective of his work opened at the Whitney Museum in New York--but leaves us with a new, clearer understanding of his legacy, both as an artist and a man.

The Great Parade Pierre Théberge,Galleries Nationales du Grand Palais (Parijs),National Gallery of Canada,2004-01-01 A beautiful book that showcases how circus figures and artifacts have been portrayed in art over the past two centuries The circus is a dazzling world filled with acrobats and harlequins, tumblers and riders, monsters and celestial creatures. Now this engaging book sets that world in a new light, examining how painters, sculptors, and photographers from the eighteenth century to the present have used the circus as a springboard for their imaginative expression and have envisioned the clown as a metaphor for the modern artist. The book presents more than 175 works by such artists as Degas, Toulouse-Lautrec, Rouault, Picasso, Chagall, and Léger. Some of

these are masterful works shown for the first time; these range from the 18-meter stage curtain Picasso designed in 1917 for Erik Satie's ballet Parade to more intimate works such as Nadar and Tournachon's photographs of Pierrot as played by celebrated mime Charles Debureau.
