Andre Bazin on Adaptation André Bazin, 2022-02-22 Adaptation was central to André Bazin's lifelong query: What is cinema? Placing films alongside literature let him identify the aesthetic and sociological distinctiveness of each. More importantly, it helped him wage his campaign for a modern conception of cinema, one that owed a great deal to developments in the novel. His critical genius is on full display in this collection, where readers are introduced to the foundational concepts of the relationship between film and literary adaptation as put forth by one of the greatest film and cultural critics of the 20th century. Expertly curated and with an introduction by celebrated film scholar Dudley Andrew, the book begins with a selection of essays that show Bazin's film theory in action, followed by reviews of films adapted from renowned novelists of the day (Conrad, Hemingway, Steinbeck; Colette, Sagan, Duras; and more) as well as classic novels of the 19th century (Bronte, Melville, Tolstoy; Balzac, Hugo, Zola; Stendhal and more). Taken together, this volume will be an indispensable resource for anyone interested in literary adaptation, authorship, classical film theory, French film history, and André Bazin's criticism alike. As a bonus, 250 years of French fiction is put in play as Bazin assesses adaptation after adaptation to determine what is at stake for culture, for literature and especially for cinema--

Aller(s)-Retour(s) Loïc Guyon, Andrew Watts, 2014-03-17 If the eighteenth century was the age of reason and enlightenment, the nineteenth century was undeniably the age of movement. This tumultuous period in French history bore witness to the rise and fall of countless political movements, from revolutions and “coups d’état”, to popular protests and the first workers’ strikes. It was an age of economic movements as France embraced the new world of finance and banking, and underwent its own industrial revolution. Social mobility increased as a dynamic commercial bourgeoisie began to challenge the system of aristocratic privilege that neither the 1789 Revolution nor the Napoleonic Empire had dismantled entirely. The era was one of artistic ferment, as Romanticism gave way to Realism, Naturalism, Impressionism, and Symbolism. Intellectual and philosophical movements, from Liberalism to Saint-Simonianism, sought both to reconcile the country with its past and construct the framework for a progressive, more harmonious future. Through seventeen thematic essays, *Aller(s)-Retour(s)* seeks to understand nineteenth-century France as a society in perpetual motion. Recognising the instability that is key to the very concept of movement, this volume explores how the intellectual shifts and cross-currents of the nineteenth century responded to, and impacted upon, each other. Finally, it asks why questions of motion and movement

dominated this period, as every sphere of French life confronted its own extremes of progress and renewal, stagnancy and regression.

Contemporary French Cultural Studies William Kidd, Sian Reynolds, 2014-05-01 The study of French culture has long ceased to be purely centred on literature. Undergraduate French courses now embrace all forms of cultural production and consumption, and students need to have a broad knowledge of everything from daytime TV and the latest detective novels to debates about national identity and immigration policies. This stimulating text is an introduction to the full range of contemporary French culture. Written by a group of leading academics both within and outside France, each chapter focuses on a topic from the French cultural scene

today. Starting with an overview of resources for further information (both in print and online), the text discusses the varied forms of French cultural expression and looks critically at what 'Frenchness' itself means. The book also explores examples of cultural production ranging from sport, media and literature to theatre, cinema, festivals and music. An essential resource for students and scholars alike, this text provides detailed material and analysis, as well as a launch-pad for further study.

Tour de France Christopher S. Thompson, 2008-03-08 In this highly original history of the world's most famous bicycle race, Christopher S. Thompson, mining previously neglected sources and writing with infectious enthusiasm for his subject, tells the compelling story of the Tour de France from its creation in 1903 to the present. Weaving the words of racers, politicians, Tour organizers, and a host of other commentators together with a wide-ranging analysis of the culture surrounding the event including posters, songs, novels, films, and media coverage Thompson links the history of the Tour to key moments and themes in French history. Examining the enduring popularity of Tour racers, Thompson explores how their public images have changed over the past century. A new preface explores the long-standing problem of doping in light of recent scandals.

The Mainstreaming of the Extreme Right in France and Australia Dr Aurélien Mondon, 2013-04-28 What has led to the recent revival of the extreme right in Western democracies such as France and

Australia, and what impact has their success had on mainstream politics? What shift has taken place in recent times as ideas and groups that once were considered marginal and undemocratic have come to play an important part in mainstream politics? This book addresses these key questions by examining the resurgence of the extreme right in France and Australia and explores the history of right-wing groups and their relationship with and impact on mainstream politics. This compelling study on the rise of right-wing parties in two countries with different histories but similar experiences of how mainstream parties campaigned and reacted to the changing political landscape presents a fascinating comparison of the history and political impact of ethno-exclusivist and right-wing populist politics in liberal democracies. A detailed and thorough comparative analysis of parties such as the Front National and One Nation, and the mainstreaming of their discourse by prominent leaders like John Howard and Nicolas Sarkozy, offers new insights on the rise of the contemporary extreme right and how these groups and the ideas they represent have become increasingly mainstream, and perhaps even hegemonic in the current political state.

The Politics of Meaning Struggles Zittoun, Philippe, Chailleux, Sébastien, 2022-04-19 Working to demystify the enigmatic process behind enacting public policies, *The Politics of Meaning Struggles* uses the case of the 2011 prohibition of hydraulic fracturing by the French government to address the wider phenomenon of governmental shifts in policy decisions.

The Long Lives of Medieval Art and Architecture Jennifer M. Feltman, Sarah Thompson, 2019-03-08 Traditional histories of medieval art and architecture often privilege the moment of a work's creation,

yet surviving works designated as medieval have long and expansive lives. Many have extended prehistories emerging from their sites and contexts of creation, and most have undergone a variety of interventions, including adaptations and restorations, since coming into being. The lives of these works have been further extended through historiography, museum exhibitions, and digital media. Inspired by the literary category of biography and the methods of *longue durée* historians, the introduction and seventeen chapters of this volume provide an extended meditation on the longevity of medieval works of art and the aspect of time as a factor in shaping our interpretations of them. While the metaphor of lives invokes associations with the origin of the discipline of art history, focus is shifted away from temporal constraints of a single human lifespan or generation to consider the continued lives of medieval works even into our present moment. Chapters on works from the modern countries of Italy, France, England, Spain, and Germany are drawn together here by the thematic threads of essence and continuity, transformation, memory and oblivion, and restoration. Together, they tell an object-oriented history of art and architecture that is necessarily entangled with numerous individuals and institutions.

Paris Isn't Dead Yet Cole Stangler, 2023-10-03 The Paris of popular imagination is lined with cobblestone streets and stylish cafés, a beacon for fashionistas and well-heeled tourists. But French American journalist Cole Stangler, celebrated for his reporting on Paris and

French politics, argues that the beating heart of the City of Light lies elsewhere – in the striving, working-class districts, where residents are now being priced out. *Paris Isn't Dead Yet* explores the past, present and future of the city through the lens of class conflict, highlighting the outsized role of immigrants in shaping the city's progressive, cosmopolitan and open-minded character – at a time when politics nationwide can feel like they're shifting in the opposite direction. This is the Paris many tourists too often miss: immigrant-heavy districts such as the 18th arrondissement, where crowded street markets still define everyday life. Stangler brings this view of the city to life, combining gripping, street-level reportage, stories of today's working-class Parisians, recent history and a sweeping analysis of the larger forces shaping the city. An eye-opening portrait of one of the world's most vital urban centres, *Paris Isn't Dead Yet* is a moment of reckoning for how cities everywhere serve us today.

Serial Killers Francesca Biagi-Chai, 2013-03-01 Francesca Biagi-Chai's book - a translation from the French of *Le Cas Landru* - tackles the issue of criminal responsibility in the case of serial killers, and other 'mad' people who are nonetheless deemed to be answerable before the law. The author, a Lacanian psychoanalyst and senior psychiatrist in France, with extensive experience working in institutional settings, analyses the logic informing the crimes of famous serial killers. Addressing the Landru case (which was the inspiration for Chaplin's *Monsieur Verdoux*), as well as those of Pierre Rivière and Donato Bilancia, Biagi-Chai casts light on the confusion that pervades forensic psychiatry and criminal law as to the distinction between mental illness and 'madness'. She then elaborates the consequences of her argument in a sustained critique of the insanity

defence. The book includes a Foreword by the renowned psychoanalyst, Jacques-Alain Miller, and an introduction by the translators on the question of insanity before the law in the US and in the UK, which considers the pertinence of Biagi-Chai's argument for forensic psychiatry, for criminal law, and for the increasing contemporary focus on the assessment of dangerousness and risk-management strategies in crime control practices.

CÔTE D'IVOIRE Ley G. Ikpo, 2015-09-16 The end of the twentieth century, which was marked by multiparty democracy in Eastern European entities and Third World countries, moved Côte d'Ivoire to adhere to the new democratization system in 1990. Nine years later, the territory registered its first bloodless state coup. On September 19, 2002, the country was shared into two parts with human losses and damages when President Gbagbo was on official visit to Italy. After different attempts in negotiations (Linac-Marcoussis (2003), Pretoria agreement (2005), and the Political Agreement of Ouagadougou (2007)), for some protagonists, international organizations and NGOs, the perfect conflict resolution was about running elections so that the former peaceful land could regain its image of a prosperous and stable country. The elections that were delayed six times came to pass, and two presidents came out of the scrutiny. Gbagbo was proclaimed victorious by the Ivorian Constitutional Council, while Ouattara was acknowledged by the Independent Electoral Commission. Once more, the country fell into a postelection crisis. Meanwhile, the African Union, the European Union, the USA, the French Licorne, and the United Nations urged President Gbagbo to step down since Ouattara was considered the happy winner of the scrutiny. The refusal of Gbagbo cost human losses and led to his arrest on April 11, 2011. Nowadays, the country is not unified and

reconciled, but it will have the 2015 elections.
