Let Us Learn English Aijaz Ahmad Bhat,2018-01-27

An alphabet is a set of letters or symbols that we use to represent the basic speech sounds of a language in writing. The English alphabet has 26 letters, starting with a and ending with z. The letters can be written in small called as small letters, and written in capital called as large letters. We can write each letter of the English alphabet as a small letter (abc) or as a large letter (ABC). Large letters are also called capital letters or capitals. In informal English, we sometimes call capitals just caps. Small letters are sometimes called lower case and large letters upper case. This is because in the old days of printing, before computers, the metal blocks for setting type were kept in two different boxes or cases: small letters in the bottom or lower case, large letters in the top or upper case. The book is for kids
