Sanskrit is Fun Part 3 Warwick Jessup,Elena Jessup,2012-01-01 The first group of books entitled Sanskrit is Fun (Parts I-III) introduce the learners to the Devanagari alphabets, grouping the letters according to their place of articulation, called 'Family', which comprises both the vowels and consonants. Learners are first taught how to draw the letters. Learning and teaching is also helped by the humorous presentation of the letters in the form of animals figures. The next step is to add vowel to the consonants, and then to teach joint (compound) consonants. Finally words and sentences are formed.

An Introductory Sanskrit Reader Martin Pfeiffer,2019-01-15 Doubtless Sanskrit must be called a difficult language. This is a fact that cannot be helped. But even though nothing can be done about the language itself, some thoughts may be given to the preparation of teaching aids that can make the task of learning Sanskrit less arduous. The present collection of texts comprises 30 specimens from original literary works written in Sanskrit, which have been chosen employing objective criteria regarding script and language, and which are suitable as first reading material for learners who have already acquired a certain familiarity with Sanskrit grammar and lexicon. However, the choice of texts has not been guided by formal criteria alone, but also by considerations regarding content: For the most part, the specimens belong to the narrative genre; they have been taken from narrative literature, from the epics Mahābhārata and Rāmāyana, and from the Purānas. It goes without saying that all texts are printed in Devanāgarī characters.
