Myths of Babylon J.K. Jackson, 2018-12-15 Babylonian myths, inherited in Mesopotamia from Sumeria, influenced by the ancient Assyrians represent a pinnacle of human achievement in the period around 1800 BC. Here we find humankind battling with the elements in their Flood myth, a grim creation story and the great Epic of Gilgamesh, one of the earliest recorded literary treasures. Babylon, a powerful city state at the time of the ancient Egyptians was a centre of profound spiritual, economic and military power, themes all represented in the fragments and myths of this book of classic tales. FLAME TREE 451: From mystery to crime, supernatural to horror and myth, fantasy and science fiction, Flame Tree 451 offers a healthy diet of werewolves and mechanical men, blood-lust vampire, dastardly villains, mad scientists, secret worlds, lost civilizations and escapist fantasies. Discover a storehouse of tales gathered specifically for the reader of the fantastic.

Legends of Babylon and Egypt in Relation to Hebrew Tradition L. W. King, 2019-11-19 This book compares the Hebrew mythological tradition and the legendary beliefs of Babylon and Egypt. The research provided by L.W. King was based on the Babylonian documents, newly presented to him, that claimed to trace history back to its creation. By comparing the Babylonian and Hebrew myths, the author found many similarities pointing to their common origin.

Legends of Babylon and Egypt in Relation to Hebrew Tradition Leonard W. King, 2014-01-17 LECTURE I-EGYPT, BABYLON, AND PALESTINE, AND SOME TRADITIONAL ORIGINS OF CIVILIZATION At the present moment most of us have little time or thought to spare for subjects not connected directly or indirectly with the war. We have put aside our own interests and studies; and after the war we shall all have a certain amount of leeway to make up in acquainting ourselves with what has been going on in countries not yet involved in the great struggle. Meanwhile the most we can do is to glance for a moment at any discovery of exceptional interest that may come to light. The main object of these lectures will be to examine certain Hebrew traditions in the light of new evidence which has been published in America since the outbreak of the war. The evidence is furnished by some literary texts, inscribed on tablets from Nippur, one of the oldest and most sacred cities of Babylonia. They are written in Sumerian, the language spoken by the non-Semitic people whom the Semitic Babylonians conquered and displaced; and they include a very primitive version of the Deluge story and Creation myth, and some texts which throw new light on the age of Babylonian civilization and on the area within which it had its rise. In them we have recovered some of the material from which Berossus derived his dynasty of Antediluvian kings, and we are thus enabled to test the accuracy of the Greek tradition by that of the Sumerians themselves. So far then as Babylonia is concerned, these documents will necessitate a re-examination of more than one problem.

Legends of Babylon and Egypt in Relation to Hebrew Tradition L. W. King, 2018-11-15 In these lectures an attempt is made, not so much to restate familiar facts, as to accommodate them to new and supplementary evidence which has been published in America since the outbreak of the war. But even without the excuse of recent discovery, no apology would be needed for any

comparison or contrast of Hebrew tradition with the mythological and legendary beliefs of Babylon and Egypt. Hebrew achievements in the sphere of religion and ethics are only thrown into stronger relief when studied against their contemporary background. The bulk of our new material is furnished by some early texts, written towards the close of the third millennium B.C. They incorporate traditions which extend in unbroken outline from their own period into the remote ages of the past, and claim to trace the history of man back to his creation. They represent the early national traditions of the Sumerian people, who preceded the Semites as the ruling race in Babylonia; and incidentally they necessitate a revision of current views with regard to the cradle of Babylonian civilization. The most remarkable of the new documents is one which relates in poetical narrative an account of the Creation, of Antediluvian history, and of the Deluge. It thus exhibits a close resemblance in structure to the corresponding Hebrew traditions, a resemblance that is not shared by the Semitic-Babylonian Versions at present known. But in matter the Sumerian tradition is more primitive than any of the Semitic versions. In spite of the fact that the text appears to have reached us in a magical setting, and to some extent in epitomized form, this early document enables us to tap the stream of tradition at a point far above any at which approach has hitherto been possible.
