**Native Moments** Nic Schuck ,2016-09-15 In the tradition of other great ex-patriot stories like *The Sun Also Rises* or *All the Pretty Horses*, *Native Moments* is a coming-of-age adventure set among the lush landscape of Costa Rica. After the death of his brother, Sanch Murray leaves for a surf trip as a way to cope and sets out on a quixotic search for an alternative to the American Dream. Set in 1999 Costa Rica, Sanch and his friend Jake Higdon wander the dirt roads of Tamarindo and surrounding areas chasing waves as a way to live out the romantic fantasy lifestyle of traveling surfers. Jake Higdon, six years Sanch's senior, takes on the role of the wise leader and Sanch as his young apprentice. Sanch's adventure leads to encounters with people who share world views he had never considered and could potentially shape his own changing perceptions about life. Through sometimes humorous episodes such as trying his hand as a matador at a roadside rodeo or in his not so humorous battle with dysentery, Sanch explores life's beauty and wonder alongside the darker undercurrents of humanity. Along his journey, Sanch befriends a shamanic traveler named Rob, young revolutionaries from Venezuela, numerous expatriates from around the world trying to escape whatever it is that keeps chasing them, and a beautiful local girl named Andrea, who Sanch suspects is a prostitute but can't help falling for.

**Brave Thinking** Mary Morrissey, 2015-01-20 BRAVE THINKING is the culmination of more than 40 years of study, and 30 years of teaching this technology of transformation. People struggle with relationships. They struggle with money. They struggle with health. I've been coaching first as a minister, then for the last decade as a trainer outside the church world. But teaching, studying, and working in this laboratory called life. I've been both a student, and I've been a trainer in this laboratory,

helping people unlock what it is they would love to have, be, do, give in their life. And helping them understand their capacity to do this. To use brave thinking and tap into the field of infinite possibility, potentiality, and work with a particular dream vision for their lives, so they can begin to see the pattern. Because once you see the pattern of how thoughts become things and how you can take what looks like very little and translate it into something much more – it's as different as moving from simple addition to squaring in math. When you are working with simple addition, the only way to get to 25 is you must amass 25 ones. When you learn to multiply you find that you only need two 5's to get to that same result. It takes way less effort and you have way more results. And when you move up the ladder of awareness a little bit further, you see you only need one 5. Brave Thinking will help people recognize that they have everything they need to live a life they love living, and a life that really has meaning and purpose and substance and significance. And I know how to do that. I know how to help them. BRAVE THINKING provides the code to a very different kind of thinking. Either one opens the doors to a potential that is something we are in love with, or something we fear. The purpose of this book is to provide very concrete direct clear simple understandings. Such as the world was flat or other kinds of commonplace thinking and help them recognize how much of that has governed their lives or the lives of people they know. It will show examples of people who dared to think beyond the boundaries of ordinary thinking and who dared to learn a new system of thinking. Rather than being condition based in a way of living life, they began to live a life that is vision-driven. And they came from a vision rather than living from circumstance. Most people think that when the circumstances change, “then I can make a new decision,” “then I can have something” “then I can be something,” “then I can do something.” What if it's just the opposite? When you watch your television, and there are other common examples we'll use, when you turn on a TV, the picture you are seeing comes from the frequency that your tuner is tuned to. And when you go to a movie theater, the dancing images on the screen are simply reflections of the light passing through the film that's held before the projector.
