Strategic Reputation Management Pekka Aula, Saku Mantere, 2020-08-11

Strategic Reputation Management examines the ways in which organizations achieve goodness through reputation, reputation management and reputation strategies. It presents a contemporary model of strategic reputation management, helping organizations and stakeholders to analyze the business environment as a communicative field of symbols and meanings in which the organization is built or destroyed. Authors Pekka Aula and Saku Mantere introduce the eight generic reputation strategies, through which organizations can organize their stakeholder relationships in various ways. They illustrate their arguments using real-world examples and studies, from the Finnish Ski Association to Philip Morris International. This book serves as required reading in advanced courses covering public relations practice, advanced topics in PR, corporate communication, management, and marketing. Professionals working in PR, business, management and marketing will also find much of interest in this volume.

Rethinking Nordic Courts Laura Ervo, Pia Letto-Vanamo, Anna Nylund, 2021-08-01 This open access book examines whether a distinctly Nordic procedural or court culture exists and what the hallmarks of that culture are. Do Nordic courts and court proceedings share a distinct set of ideas and values that in

combination constitute the core of a regional legal culture? How do Europeanisation, privatisation, diversification and digitisation influence courts and court proceedings in the Nordic countries? The book traces the genesis and formation of Nordic courts and justice systems to provide a richer comprehension of contemporary Nordic legal culture, and an understanding of the relationship between legal cultural stability and change. In answering these questions, the book provides models for conceptualising procedural culture. Nordic procedural culture has partly developed organically and is partly also the product of deliberate efforts to maintain a certain level of alignment between the Nordic countries. Studying Nordic cooperation enables us to gain a deeper understanding of current regional, European and global harmonisation processes within procedural law. The influx of supranational European law, increased use of alternative dispute resolution and growth in regulation density that produces a conflict between specialisation and coherence, have tangible impact on the role of courts in a democratic society, the form of court proceedings and court structures. This book examines whether and why some trends exert more tangible, or perhaps simply more perceptible, influence on procedural culture than others.

Britain and the 1918-19 Influenza Pandemic Niall Johnson, 2006-09-27 Between August 1918 and March 1919 a flu pandemic spread across the globe and in just under a year 40 million people had died from the virus worldwide. This is the first book to provide a total history and seriously analyze the British experiences during that time. The book provides the most up-to-date tally of the pandemic's impact, including the vast mortality, as well as questioning the apparent origins of the pandemic. A 'total' history, this book ranges from the spread of the 1918-1919 pandemic, to the basic biology of influenza, and how epidemics and pandemics are possible, to consider the demographic, social, economic and political impacts of such a massive pandemic, including the cultural dimensions of naming, blame, metaphors, memory, the media, art and literature. An inter-disciplinary study, it stretches from history and geography through to medicine in order to convey the full magnitude of the

first global medical 'disaster' of the twentieth century, and looks ahead to possible pandemics of the future. Niall Johnson brings an impressive scholarly eye on this fascinating and highly relevant topic making this essential reading for historians and those with an interest in British and medical history.
