The city has a thousand souls, and there are so many ways to live and explore it. There is the British London of Big Ben and Trafalgar Square, there is the Swinging London which animated the world music scene since the Sixties, there is the artistic London from the British Museum to the Tate Modern, there is the glamorous London, from classics shops of Regent Street and Bond Street to markets of Petticoat Lane and Portobello. And there is, too, the gothic London, to be discovered on the trail of Jack the Ripper. Whether you are there for only 48 hours or longer, for business or leisure, this Travel Europe guide selected for you the best of the city, through new trendy addresses and well-known destinations, contemporary design and tradition, low budget solutions and more exclusive locations. The guide provides you quick information about tourist trails, shopping, museums, hotels, cafés, restaurants and clubs. Moreover, a conversation manual, a city map and a transport map.

Living the Global City John Eade, 2003-10-04 Politicians and academics alike have made globalization the key reference point for interpreting the 1990s. For many, globalization threatens both community and the nation-state. It appears to represent forces beyond human control. Living the Global City documents globalization's impact on everyday lives by drawing on research rather than rhetoric and arrives at a very different perspective. Living the Global City offers an analysis of globalization and global/local processes by focussing on specific issues and themes which include community, culture, milieu, socioscapes and sociospheres, microglobalization, poverty, ethnic identity and carnival. By advancing the debates which surround these issues through a redefinition of the terms in which they have been developed and engagement with the everyday lives of people in a global city, this book reveals how such key concepts as community, culture, class, poverty and identity can be reconceptualized in the context of global/local processes.

Tourism Enterprise David Leslie, 2014-11-26 The environmental quality and popularity of any tourist destination is the outcome of sustained development, shaped by the socio-economic and physical dimensions of the local environment. Protecting the 'living landscape' requires recognizing, promoting and developing the links between economic, social and environmental objectives. This book therefore examines the tourism business in terms of 'greening' the local economy, people and environment, establishing the green agenda and investigating its application to the tourism sector.

It also happens to be one of the busiest and popular destinations for tourists around the world. It is located on the banks of the River Thames and is a wonderful place with great heritage spots all around.

People and places 2 Dorling, Daniel, Thomas, Bethan, 2004-06-30 People and places: A 2001 Census atlas of the UK provides an at-a-glance guide to social change in the UK at the start of the new millennium. It is the first comprehensive analysis of the 2001 Census and offers unique comparisons with the findings of the previous Census a decade ago. Over 500 full-colour maps covering 125 topics clearly illustrate the state of UK society today and how it is changing. The trends are explained and elaborated upon in the accompanying text. Using population maps in addition to conventional maps, the atlas covers all the major census topics at local authority level. Key features include an illuminating graphic summary of over 100,000 key demographic statistics; new cartographic projections and techniques used throughout ; appendix incorporating rankings for 25

selected topics by local authority; comparison with the 1991 census to identify national and local trends and up-to-date analysis and discussion of the implications of current trends for future policy. This authoritative atlas is essential reading for those interested in the current social geography of the UK, how it has changed and how it appears to be changing, including for planners in local authorities, health authorities and a wide range of statutory and voluntary organisations. It is also an invaluable resource for policy makers, journalists, politicians, students and academics interested in human geography and social change.

Boaters of London Ben Bowles, 2024-05-03 London and the Southeast of England is home to an alternative community of people called 'boaters': individuals and families who live on narrowboats, cruisers and barges, along a network of canals and rivers. Many of these people move from place to place every two weeks due to mooring rules and form itinerant communities in the heart of some of the UK's most built-up and expensive urban spaces. *Boaters of London* is an ethnography that delves into the process of becoming a boater, adopting an alternative lifestyle on the water and the political impact that this travelling population has on the state.

Time Travel Nikk Effingham, 2020-02-20 There are various arguments for the metaphysical impossibility of time travel. Is it impossible because objects could then be in two places at once? Or is it impossible because some objects could bring about their own existence? In this book, Nikk Effingham contends that no such argument is sound and that time travel is metaphysically possible. His main focus is on the Grandfather Paradox: the position that time travel is impossible because

someone could not go back in time and kill their own grandfather before he met their grandmother. In such a case, Effingham argues that the time traveller would have the ability to do the impossible (so they could kill their grandfather) even though those impossibilities will never come about (so they won't kill their grandfather). He then explores the ramifications of this view, discussing issues in probability and decision theory. The book ends by laying out the dangers of time travel and why, even though no time machines currently exist, we should pay extra special care ensuring that nothing, no matter how small or microscopic, ever travels in time.
