The Five Love Languages Gary Chapman, 2009-12-17 Marriage should be based on love, right? But does it seem as though you and your spouse are speaking two different languages? #1 New York Times bestselling author Dr. Gary Chapman guides couples in identifying, understanding, and speaking their spouse's primary love language—quality time, words of affirmation, gifts, acts of service, or physical touch. By learning the five love languages, you and your spouse will discover your unique love languages and learn practical steps in truly loving each other. Chapters are categorized by love language for easy reference, and each one ends with simple steps to express a specific language to your spouse and guide your marriage in the right direction. A newly designed love languages assessment will help you understand and strengthen your relationship. You can build a lasting, loving marriage together. Gary Chapman hosts a nationally syndicated daily radio program called A Love Language Minute that can be heard on more than 150 radio stations as well as the weekly syndicated program Building Relationships with Gary Chapman, which can both be heard on fivelovelanguages.com. The Five Love Languages is a consistent New York Times bestseller – with over 5 million copies sold and translated into 38 languages. This book is a sales phenomenon, with each year outselling the prior for 16 years running!

How We Love, Expanded Edition Milan Yerkovich, Kay Yerkovich, 2009-01-20 Did you know the last fight you had with your spouse began long before you even met? Are you tired of falling into frustrating relational patterns in your marriage? Do you and your spouse fight about the same things again and again? Relationship experts Milan and Kay Yerkovich explain why the ways you and your spouse relate to each other go back to before you even met. Drawing on the powerful tool of attachment theory, Milan and Kay explore how your childhood created an “intimacy imprint” that affects your marriage today. Their stories and practical ideas help you: * identify your personal love style * understand how your early life impacts you and your spouse * break free from painful patterns that keep you stuck * find healing for the source of conflict, not just the symptoms * create the close, nourishing relationship you dream about Revised throughout with all-new material and additional visual diagrams, this expanded edition of *How We Love* will bring vibrant life to your marriage. Are you ready for a new journey of love? Note: The revised and expanded *How We Love Workbook* is available separately.

Love Test Holly Manno, 2019-03-26 In this modern era of instant everything, when it comes to online dating you're either in or out, right? Not so fast What if a brand-new approach paired tech with destiny? Could that sway you? What if you were already engaged? After a six-year courtship, artist and gallery owner Lanie Blackwell is soon to marry James Roberts. Until he met Lanie, James was elusive to the opposite sex and enjoyed living the single life with few strings. Lanie's independent spirit is working overtime as she confides to her best friend that she's nervous about her upcoming nuptials. One evening, a few weeks before the big day, they are watching TV when a commercial for an online dating site, lovetest.love, comes on the screen. Mesmerized by their concept, Lanie—who has always been averse to online dating—wonders aloud if they'd be paired by the ground-breaking system. For the first time, James can see she has cold feet. So confident of their compatibility, he issues a challenge Lanie cannot refuse.

How to Fall in Love with Anyone Mandy Len Catron, 2017-06-27 "A beautifully written and well-researched cultural criticism as well as an honest memoir" (Los Angeles Review of Books) from the author of the popular New York Times essay, "To Fall in Love with Anyone, Do This," explores the romantic myths we create and explains how they limit our ability to achieve and sustain intimacy. What really makes love last? Does love ever work the way we say it does in movies and books and Facebook posts? Or does obsessing over those love stories hurt our real-life relationships? When her parents divorced after a twenty-eight year marriage and her own ten-year relationship ended, those were the questions that Mandy Len Catron wanted to answer. In a series of candid, vulnerable, and wise essays that takes a closer look at what it means to love someone, be loved, and how we present our love to the world, "Catron melds science and emotion beautifully into a thoughtful and thought-provoking meditation" (Bookpage). She delves back to 1944, when her grandparents met in a coal mining town in Appalachia, to her own dating life as a professor in Vancouver. She uses biologists' research into dopamine triggers to ask whether the need to love is an innate human drive. She uses literary theory to show why we prefer certain kinds of love stories. She urges us to question the unwritten scripts we follow in relationships and looks into where those scripts come from. And she tells the story of how she decided to test an experiment that she'd read about—where the goal was to create intimacy between strangers using a list of thirty-six questions—and ended up in the surreal situation of having millions of people following her brand-new relationship. "Perfect fodder for the romantic and the cynic in all of us" (Booklist), *How to Fall in Love with Anyone* flips the script on love. "Clear-eyed and full of heart, it is mandatory reading for anyone coping with—or curious about—the challenges of contemporary courtship" (The Toronto Star).

Modern Romance Aziz Ansari, Eric Klinenberg, 2016-06-14 The #1 New York Times Bestseller "An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives." —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of

this generation's sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. "Why did this guy just text me an emoji of a pizza?" "Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!" "My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?" But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.
