Reading Peralta Maps Robert L. and Lynda R. Kesselring,2013-12-06 Reading Peralta Maps: Volume 2: The Latin Heart continues the journey that began in the previous volume of this series, which revealed the signs leading to the treasure of the Church of Santa Fe. Now authors Robert L. and Lynda R. Kesselring discuss how the maps, particularly the Latin Heart Map, enabled them to find the site of the Peralta battle, where the family had hidden their thirty-one caches of bullion as well as what may be the Lost Dutchman Mine. This volume shares the Kesselrings' scientific analysis and interpretation and shows the physical evidence that supports their claim. While providing insight into historical lore and legend, Reading Peralta Maps: Volume 2: The Latin Heart reveals the location of a cache in the Superstition Mountains and shows the underground images of bullion bars. Including GPS directions, this guide reveals the location of the sites for visitation.

**Maps and Civilization** Norman J. W. Thrower,2008-11-15 In this concise introduction to the history of cartography, Norman J. W. Thrower charts the intimate links between maps and history from antiquity to the present day. A wealth of illustrations, including the oldest known map and contemporary examples made using Geographical Information Systems (GIS), illuminate the many ways in which various human cultures have interpreted spatial relationships. The third edition of Maps and Civilization incorporates numerous revisions, features new material throughout the book, and includes a new alphabetized bibliography. Praise for previous editions of Maps and Civilization: "A marvelous compendium of map lore. Anyone truly interested in the development of cartography will want to have his or her own copy to annotate, underline, and index for handy referencing."—L. M. Sebert, Geomatica

**Civil War Newspaper Maps** David C. Bosse, 1993 Bull Run ... Ball's Bluff... Secessionville ... Antietam ... Champion's Hill ... Chickamauga. To the Northern public during the Civil War they were exotic names of unfamiliar places where husbands, sons, fathers, and brothers fought and died. Hungry for information from these far-off battlefields, Americans began buying daily newspapers in record numbers. Competition among publishers grew keen. Correspondents reporting from the field soon began supplementing written dispatches with battlefield maps, and before long newspapers were seeking new ways to portray topography and battle lines in clear, effective images. In *Civil War Newspaper Maps* David Bosse shows how nineteenth-century advances in printing and engraving technology, coupled with an unprecedented public demand for information, led to the development of a means of mass communication still in use today - the quickly produced newspaper battlefield map. Bosse's introduction offers a concise overview of the subject, including how correspondents got maps to their papers from the field, press-military relations during the war, and the economic problems of map printing. Following the text is an atlas of forty-five newspaper maps printed by the Northern daily press. Each map is accompanied by a summary of the military operation it illustrates and a commentary on the map itself, including an evaluation of its accuracy based on comparison with other historical and cartographic sources. Arranged chronologically, the maps cover nearly every theater of the war and represent a unique historical record of one of the pivotal events in American history.
