Unfamiliar Selves in the Hebrew Bible Reed  
Carlson,2022-01-19 Spirit possession is more  
commonly associated with late Second Temple Jewish  
literature and the New Testament than it is with  
the Hebrew Bible. In *Unfamiliar Selves in the  
Hebrew Bible*, however, Reed Carlson argues that  
possession is also depicted in this earlier  
literature, though rarely according to the typical  
western paradigm. This new approach utilizes  
theoretical models developed by cultural  
anthropologists and ethnographers of contemporary  
possession-practicing communities in the global  
south and its diasporas. Carlson demonstrates how  
possession in the Bible is a corporate and  
cultivated practice that can function as social  
commentary and as a means to model the moral self.

The author treats a variety of spirit phenomena in the Hebrew Bible, including spirit language in the Psalms and Job, spirit empowerment in Judges and Samuel, and communal possession in the prophets. Carlson also surveys apotropaic texts and spirit myths in early Jewish literature—including the Dead Sea Scrolls. In this volume, two recent scholarly trends in biblical studies converge: investigations into notions of evil and of the self. The result is a synthesizing project, useful to biblical scholars and those of early Judaism and Christianity alike.

The B-25 in the Backyard Wally

Soplata,2020-06-29 Only in America could Walter A. Soplata, the son of penniless Czech immigrants, accomplish so much single-handedly saving historic aircraft from World War II and other periods. After a childhood spent building model airplanes while dreaming about having his own airfield, Soplata worked in a large scrapyard taking apart hundreds of warplane engines. Shocked to see a rare engine or sometimes a complete warplane on

its way to the recycling furnace, he began collecting whatever he could find and afford. He eventually collected nearly 20 complete airplanes and countless pieces of others. One of his Corsair fighters included the experimental F2G Corsair #74 that won the Cleveland National Air Races in 1947. Among other priceless airplanes he rescued was an experimental XP-82 Twin Mustang, an F-82E Twin Mustang, an X-prototype Skyraider, a stainless steel BT-12, and an F7U Cutlass--Soplata hauled the Cutlass fuselage home by stuffing it inside a junked school bus for its 600-mile journey. The story of a workaholic father and his aviation-obsessed son, this book records the accomplishments of a rare bird, just like the many airplanes he saved.

**Competition Law of the European Union** Van Bael & Bellis,2021-03-01 This new Sixth Edition of a major work by the well-known competition law team at Van Bael & Bellis in Brussels brings the book up to date to take account of the many developments in the case law and relevant legislation that have occurred since the Fifth Edition in 2010. The authors have also taken the opportunity to write a much-extended chapter on private enforcement and a dedicated section on competition law in the pharmaceutical sector. As

one would expect, the new edition continues to meet the challenge for businesses and their counsel, providing a thoroughly practical guide to the application of the EU competition rules. The critical commentary cuts through the theoretical underpinnings of EU competition law to expose its actual impact on business. In this comprehensive new edition, the authors examine such notable developments as the following: important rulings concerning the concept of a restriction by object under Article 101; the extensive case law in the field of cartels, including in relation to cartel facilitation and price signalling; important Article 102 rulings concerning pricing and exclusivity, including the Post Danmark and Intel judgments, as well as standard essential patents; the current block exemption and guidelines applicable to vertical agreements, including those applicable to the motor vehicle sector; developments concerning online distribution, including the Pierre Fabre and Coty rulings; the current guidelines and block exemptions in the field of horizontal cooperation, including the treatment of information exchange; the evolution of EU merger control, including court defeats suffered by the Commission and the case law on procedural infringements; the burgeoning case law related to pharmaceuticals, including concerning reverse payment settlements; the current technology transfer guidelines and block exemption; procedural developments, including in relation to the right to privacy, access to file, parental liability, fining methodology, inability to pay and hybrid settlements; the implementation

of the Damages Directive and the first interpretative rulings. As a comprehensive, up-to-date and above all practical analysis of the EU competition rules as developed by the Commission and EU Courts, this authoritative new edition of a classic work stands alone. Like its predecessors, it will be of immeasurable value to both business persons and their legal advisers.
