Living on Troll Mountain Judith Olson,2016-09-24 These are short stories depicting the lives of three little girls growing up in Norway during the 1930s. They live in the country with their parents, just outside of Star Lake at the foot of Troll Mountain. Star Lake is a small settlement located on the side of the Hardanger Fjord adjacent to the mountain. Most of the people living in and around Star Lake are lumberjacks and make their living logging on Troll Mountain. The children experience many different situations, both fun-loving and dangerous, while living at the foot of the mountain. They are always wary of the trolls living on the mountain and fear running into them. Max, their pet dog, is their constant companion and is always looking after them and keeping them free from danger.
Grenada pelagic longline, troll and dropline Atlantic Ocean yellowfin and bigeye fishery Sieben, C., Gascoigne, J.,2021-08-24 This report presents information on the Grenada tuna fisheries, the components and results of the pre-assessment itself, and recommendations to improve the fisheries' status in relation to the Marine Stewardship Council Fisheries Standard. Grenada's yellowfin and bigeye tuna fisheries were assessed against the MSC standard for sustainable fisheries. This standard encompasses three distinct principles: Principle 1 –sustainability of the stocks; Principle 2 – ecosystem impacts; and Principle 3 – effective management. Each Principle in turn comprises a set of performance indicators (PI), of which there are 28 in total. Overall, the pre-assessment identified a significant number of shortcomings that would currently preclude the fishery from achieving conformity with the MSC Fisheries Standard.
