Toys, Games, and Media Jeffrey Goldstein,David Buckingham,Gilles Brougere,2004-09-10 This book is a state-of-the-art look at where toys have come from and where they are likely to go in the years ahead. The focus is on the interplay between traditional toys and play, and toys and play that are mediated by or combined with digital technology. As well as covering the technical aspects of computer mediated play activities, the authors consider how technologically enhanced toys are currently used in traditional play and how they are woven into childrens' lives. The authors contrast their findings about technologically enhanced toys with knowledge of traditional toys and play. They link their studies of toys to goals in education and to entertainment and information transfer. This book will appeal to students, researchers, teachers, child care workers and more broadly the entertainment industry. It is appropriate for courses that deal with the specialized subject of toys and games, media studies, education and teacher training, and child development.

It is also the first book of its kind to consider these issues from a global perspective, introducing ethical theories from multiple cultures. It further utilizes examples from around the world, such as the publication of “the Mohammed Cartoons”; diverse understandings of what “privacy” means in Facebook or MySpace; why pirating CDs and DVDs may be justified in developing countries; and culturally-variable perspectives on sexuality and what counts as “pornography.” Readers and students thus acquire a global perspective on the central ethical issues of digital media, including privacy, copyright, pornography and violence, and the ethics of cross-cultural communication online. Mobile Media Jo Groebel,Eli M. Noam,Valerie Feldmann,2006-08-15 The proliferation of mobile media in recent years is an international phenomenon, with billions of devices sold annually. Mobile communications are now moving beyond individualized voice to mass media content--text, voice, sound, images, and even video. This will create new types of content that allow media companies and users to interact in new ways. There is a strong interest from the media and telecom industries in what manner of applications and content can be distributed in that fashion, and at what cost. To answer these questions, the book provides 18 chapters from internationally renowned authors. They identify likely types of content such as news, entertainment, peer-to-peer, and location-specific information; evaluate the economics, business models, and payment mechanisms necessary to support these media; and cover policy dimensions such as copyright, competitiveness, and access rights for content providers. This volume takes the reader through the various elements that need to be considered in the development of third generation (3G) content, and explains pitfalls and barriers. The result is a volume of interest to business professionals, academics, and policy makers. The book is international in focus and a glossary of terms is provided. There are few publications available which give an overview of this rapidly changing field.

Curt Flood in the Media Abraham Iqbal Khan,2012-02-01 Curt Flood in the Media examines the public discourse surrounding Curt Flood (1938-1997), the star center fielder for the St. Louis Cardinals throughout the sixties. In 1969, Flood was traded to the Philadelphia Phillies. At the time, all Major League Baseball players were subject to the reserve clause, which essentially bound a player to work in perpetuity for his original team, unless traded for another player or sold for cash, in which case he worked under the same reserve conditions for the next team. Flood refused the trade on a matter of principle, arguing that Major League Baseball had violated both U.S. antitrust laws and the 13th Amendment’s prohibition of involuntary servitude. In a defiant letter to Commissioner Bowie Kuhn asking for his contractual release, Flood infamously wrote, “after twelve years in the major leagues, I do not feel that I am a piece of property to be bought and sold irrespective of my wishes.” Most significantly, Flood appeared on national television with Howard Cosell and described himself as a “well-paid slave.” Explosive controversy ensued. Khan examines the ways in which the media constructed the case and Flood’s persona. By examining the mainstream press, the black press, and primary sources including Flood’s autobiography, Khan exposes the complexities of what it means to be a prominent black American athlete-in 1969 and today.
