Mindfulness On The Go Anna Black, 2019-05-14 Whether you are at home or at work, on your daily commute or travelling, you can practise mindfulness to decrease stress and improve your health and wellbeing. It is often challenging to weave mindfulness into our day as we get caught up in the busy-ness of life. It can feel overwhelming sometimes to know what to do and how to start doing something different and having to decide stops us doing anything at all. Mindfulness on the Go is designed to address this problem. It introduces the essential pillars of mindfulness and how to cultivate it, then offers 52 suggestions, divided into practices and activities, to start using it every day. Practices are mini meditations to do while you are out and about, while activities focus more on becoming aware of your habitual patterns of behaviour, as well as how mindfulness can help you to cultivate new ones. By focusing on just one thing per day, it makes it easier to remember rather than just feeling you should be mindful all the time. As you become familiar with the type of practices, you will find that you begin to do them without the prompts, and mindfulness will become part of your daily life.

Tao of Letting Go Bruce Frantzis, 2009 What is known from the Tao Te Ching, I Ching, and other Taoist texts is almost entirely literary. When Bruce Frantzis studied these texts with his main teacher, Grandmaster Liu Hung

Chieh, he was taught their practical application: This is what they say; this is what they mean; this is how to do them. In the TAO of Letting Go, Frantzis offers a bridge to this pragmatic approach for living a spiritual life. Spirituality is not just an aspiration for which people strive, he says, but a genuine, accomplishable reality. Frantzis shows how to expend maximum effort and yet not use force--the gentle way of the Water method--to enrich personal health and energy systems. The Water tradition continues the work of releasing inner conflicts, a process that begins with the Dissolving Method, passed down by Lao Tse in the Tao Te Ching over 2,500 years ago. The author shows how to completely let go of the blockages that bind and prevent the seeker from reaching full spiritual potential. Short, direct chapters and exercises cover such topics as breathing and awareness; Taoist meditation; fog and depression; modern anxiety; love and compassion; and more.

When you go somewhere you've never been and you aren't sure what to do, you can use a dandelion breath to feel more comfortable trying something new. Sit up and let your spine grow tall. Put one hand on your chest. Place your other hand on your belly. Take slow deep breaths and feel your chest and your belly move up and down as the air goes in and out of your body. At night when it's hard to fall asleep because your mind is busy and your body feels tight, try balloon breath to get relaxed and ready for a good night. Lie down on your back and let your hands rest by your sides, palms up. Inhale through your nose and imagine filling your body with breath like a big balloon. Curious about mindfulness but more comfortable in the gym? This book is for you. You'll also get access to guided audio meditations on the 10% Happier app, to jumpstart your practice from day one.
